FIRE AT KOCHEBOGOC—On Thursday last, the house at Kochibogoc owned by Mr. James Beattie, and occupied by Mr. David W. Grison, was destroyed by fire. Mr. Grison and family were taking their dinner, when fire was observed descending from the roof and through the building. The wind was blowing a gale at the time, and nothing except an organ was saved. There was no insurance on the household effects, so the loss to Mr. Grison, for whom there is the greatest sympathy, was very heavy. He and his family were literally dressed out of everything except the clothing they had on their bodies. It is said there was

no insurance on the building, which, if true, will be a serious loss to Mr. Beattie.

PRESENTED WITH A CASE.—A pleasing event took place this morning at Messrs. Geo. Fleming & Son's foundry, when Mr. R. Patton, on behalf of the foremen of the different departments, presented Mr. John M. Paisley, for the past ten years' account of the foundry, with a handsome gold-headed cane. The cane was a dress that told in feeling terms of the kindly relations that have always existed between Mr. Paisley and those associated with him. Engraved on the head of the cane was "John M. Paisley, 1889." Mr. Paisley, who was very much surprised, briefly thanked the donors for their gift. He leaves to-morrow morning for Montreal, where he has accepted a position.—Globe of 30th April.

ANOTHER VICTIM.—A young man named Wm. He came to Chatham and paid some bills he owed and had \$50 left, after he had also spent some of his earnings in drinking. He left Chatham about nine o'clock for his home in New Brunswick with a bottle of whisky in his pocket, and about four o'clock he found he had been asleep or lying insensible on the road. He then missed his pocket-book and money—the latter consisting of \$25 in bills and \$25 in cash. He was through his own foolishness, it is to be hoped it will be found and restored to him.

CAMPBELLTON NOTES.—Mr. Madogall Snowball was in town on Friday last, studying the probabilities of putting in a jury, the verdict of which was in Campbellton our citizens gained a very favorable impression of Mr. Snowball, and it is altogether probable an electric light plant will be placed in the town at an early date.

An Indian woman belonging to Mission Point was found dead near Dalhousie siding on Wednesday last. Coroner Kendrick was notified, and he empanelled a jury, the verdict of which was "death from exposure." The woman had apparently any cloths on when found, and it is supposed that while laboring under a fit of temporary insanity—which she was subjected to—she threw off her clothes and lay down on the cold ground, which resulted in her death.—Advocate.

GOOSE-SHOOTING.—The following item appeared in the St. John Gazette the other day:—

"Mr. Neil Walker, of Point Aconi, C. B., shot five wild geese in two short weeks at that place. They were flying along in the air and he shot them with a rifle. This is remarkably good shooting."

We remember a good shot by which Mr. A. G. Wilkinson, of Hardwicke, in this County, killed five wild geese, but it was with a rifle. The scribe who writes that five wild geese were killed in two shots with a rifle, while flying, either attempts to impose on the credulous, or himself imposed on. There is, however, nothing unusual in killing five wild geese with two shots from a No. 10 bore or other suitable gun.

As an Aid to internal remedies for skin diseases, Dr. Low's Sulphur Soap proves very valuable.

Drowned at Rogersville.—Maxime Lawry, Rogersville, was drowned on Saturday, last while cutting lumber in Murphy's mill pond. In a very short time a large number of persons, relatives and friends, were on the scene of the accident grappling, fishing and looking for the body, which was found about 6 hours after the drowning. Coroner Michael O'Brien was immediately notified and coming to the scene of the accident empanelled the following jury: George Jardine, foreman; Benoit Aremault, Leonard Richard, Joseph Bernard, Michael Duggan, Paul Richard, and George Bolger.

After the jury were sworn and had viewed the body of William Woodcock, James Purdy, Edward Brennan, Albert Murphy, Placid Aremault and John D. Buckley gave testimony, all to the same effect.

After all the evidence had been considered by the coroner and jury, the jury returned a verdict, that the deceased came to his death by falling accidentally in the river in Murphy's mill pond and being drowned.

It is believed that the cause of the accident was due to Mr. John D. Buckley and Placid Aremault, the parties who found the body. The deceased was only 29 years old, married and leaves a wife, two children and a host of relatives

and friends to mourn their loss. He was a young man, sober and industrious, having acquired a great number of friends by his honest, noble and gentle ways.

All honors of the scalp, better scores, and dauntless courage, and falling back checked; hence, baldness prevented by using Hall's Vegetable Sillian Hair Restorer.

Sailors Home.—A HAVEN FOR MARINERS ABOUT TO BE ERRECTED IN ST. JOHN.

It will be remembered that some months ago, a room for the reception of sailors was opened on Prince William street by Miss Mary E. Hutchinson, who was assisted in her commendable efforts by other ladies of this city. In this room sailors were furnished with a variety of reading matter, writing material and song books and in fact were brought in contact with the softer influences of home life.

To-day the Telegram is able to announce that the efforts of Miss Hutchinson, St. John, through the assistance of a number of ladies, who will be able to be laid for the promised haven.

The plan for the new building has been prepared by Mr. G. Ernest Fairweather, and yesterday the contract for the erection of the home was signed. The site is on St. James street between Prince William and Germain streets. As will be evident from the sketch, the erection of the proposed building, the objects which are to be attained by its erection are as numerous as they are excellent.

Here sailors will be welcomed and made at home; they will be able to have their baggage stored, their washing done and their food prepared. They will be relieved from the necessity of seeking shelter in the lodging houses, many of which are so filthy, and where they are "death from exposure."
