### INCENDIARY

Set Fire to a New York Tenament.

Four Suffocated and Two Fatally Injured Today-Firemen and Police Save Many.

NEW YORK, Oct. 17 .- Four person were suffocated and 15 were overcome by smoke in fire which gutted a five story brick double tenement house at 15 Moore street, Williamsburg, early today. Two of the injured, a boy and a girl, probably will die. Incendiarism is supposed. The fire originated in the basement and ran up a dumb waiter shaft, causing crowded flat to fill rapidly with smoke. The flames spread through the flat on the fourth and fifth loors and escape for the persons asleep there was cut off.

The firemen and police did heroic work and soon rescued more than a score, fifteen of whom were almost suffocated. These were removed to St. Catherine's hospital. Two were in a dying condition. One fireman in attempting a daring rescue was overcome by smoke and had to be carried out by his fellow firemen. The loss was only about \$3,000. Several small fires occurred in the neighborhood in the early hours today all of suspicious origin. They appeared to have been started by the same hand as all were discovered in the basements of tenement houses. Only the one noted howasleep there was cut off. discovered in the basements of tene-ment houses. Only the one noted howver, was accompanied by loss of life.
