church of this town, under the enter-prising leadership of the Rev. Mr. Mc-Donald, has arranged for a course of lectures. The first of these was given on Tuesday evening by Rev. J. S. Car-uthers, lecturer in elocution, Pine Hill College, Halifax. Mr. McDonald in introducing the talented lecturer referred to him as a former "teacher, pastor and friend," and paid a high tribute to his ability as a speaker. The subject, The World Gone Mad, was treated in an interesting and able

manner and was listened to with rapt attention by an appreciative audience, He said that Christian people were often accused of undue excitement on religious subjects. This was unjust, as in politics, business, fashions and fads, and even in parliament and the law courts, waves of excitement had many times swept through the country, until men, and women too, seemed mad indeed.

The excitement which prevails Furing a closely contested political campaign is widespread and often arises to fever heat. In business circles, consider the inflamed activity in the stock exchanges, and the mad rush for gold which will carry men through every difficulty and danger. The lecturer gave a graphic account of the reception of the Mississippi scheme in Paris, where it was said that "not one sane man remained," and the "south sea bubble" in more conservative England, when men of all classes clamored for a chance to invest their money in this venture. The credulity and madness of some people were well ilulstrated by a bet, by a well known Englishman, that stock would be taken in any scheme which would be placed before the public. He there-fore placed a sign in front of his office announcing that stock would be sold for a railroad to the moon, and before night sixteen shares had been sold. The aesthetic craze, as introduced by Oscar Wilde, with its big sun-flowers, and cracked china resurrected from the garret and ash heap; the wild following after fashions, the per-secution of the so called witches, were

He has been confined to his home for about four months, and until recently was thought to be slowly recovering. But since the first of the year he has rapidly developed alarming symptoms, and a consultation of physicians a few days ago revealed the presence of a large tumor in the posterior region of the abdominal cavity. Wm. Carey of North Kingston is suffering from internal cancer and cannot recover.

We have been taiking turkeys, etc., for Christmas, but as they hung so high in the live state, viz., \$20, about a month ago, I think we will have to take rosst beef or moose steak at \$1 per lb, in lieu of same. We are located on Quisley Creek, about ten miles from here. The temperature is very low. Our glass showd it below yes-terday at Quigley, and at our summer resi-dence, about three miles from here on the Klondyke, last evening, our mercury froze until it showed 'a dimpie in the built." On the wall above us some thermometers show-ed as low as 52 degrees, but the official re-cord here only showed as low as 16 degrees so far.
