WEDDING BELLS.

Rev. G. Nelson Stevenson, pastor of the Coburg street Christian church, on Wednesday officiated at the wedding of Hudson Pickett of Nauwigewauk and Miss Bessie Evelyn May Purves, daughter of Robert Purves of the same place. Both young persons are highly popular in that section of country, and the ceremony, which was performed on the lawn in front of the bride's home, was witnessed by over half a hundred guests. Miss Purves, who wore white, was attended by Miss Bessie Darling, and George E. Dodge supported the groom. Miss Dickson furnished appropriate music. A delightful time was had by the guests after the nuptial knot had been tied, and all partook of a tempting repast. Mr. and Mrs. Pickett received many gifts.

A home wedding took place Wednesday evening at the residence of W. H. Cook, 114 Charlotte street, when Miss Lizzie A. Hayward of Goshen, Albert county, became the wife of Robert E. A SPLENDID STORE.

J. N. Harvey's Place on Union Street Has Been Remodelled and Refitted.

J. N. Harvey, the Union street clothier, has just completed the entire remodelling of his store, the changes in which make it one of the best establishments of its kind in the city. Previously Mr. Harvey's place included only one half of the western side of the Opera House block, but the part formerly occupied by the International School of Correspondence has been taken in.

The new store is double the size of the old one and is now up-to-date in every respect. It has a glass frontage of between fifty and sixty feet. The show window is the largest in St. John and the interior of the store is especially well arranged for the displaying of goods. The upper portions of the windows have been filled with prism glass, which throws the light to the very farthest corner and makes the interior perhaps the best lighted store in the city. At night three powerful arc lamps and the Frink window lighting system make the store almost as bright as day.

These extensions have been found necessary by Mr. Harvey's ever increasing trade. His establishment is on Union street where the rents are not nearly so high as on some other streets, and on account of smaller expenses he is able to sell goods at a smaller profit. This plan is also supported by the strictly cash business being done.

As an opening to his new store, Mr. Harvey will on Monday commence a cheap sale of clothing where bargains can be secured by everyone, as reductions will be made in prices already low.

N. S. TOURIST SEASON. A FAILURE.

(Annaolis Spectator.)

The tourist season, to date, so far as western Nova Scotia is concerned—and this includes both Annapolis Royal and Digby—is a decided failure, compared with other years. A few straggling tourist parties have been doing the province, but the money advanced in most cases is gobbled up by the imitators of the Raymonds and Cooks, and the gullible tourist has to take what is coming to them or return home. One of these parties, whose tickets called for a day in Annapolis Royal, were the victims one day last week of a deal like the above. Lunches were secured for 10c. per head at Digby, and the tourists took passage on the Bluenose, landing here at 12.15. The garrison, the happy hunting grounds of many, was their destination, and although the promoter of the enterprise secured reasonable rates from the hotels here the day previous, he somehow convinced the party he could not afford more than a luncheon for them. One of the hotel proprietors was approached as to the price of a gallon of coffee. Recognizing the absurdity of refusing such gall, the coffee was produced. A request for cups and saucers was next in order, also cheerfully given. The chances are that several in the party are writing a "History of Nova Scotia, as Viewed by Impartial Eyes."

BANKER GROWS ROSES.

(Annapolis, N. S., Spectator.)

A sight good to the lover of flowers is that to be seen in the garden of E. D. Arnaud, manager of the Union Bank of Halifax here. A collection of roses, embracing the General Jacqueminot, Crimson Rambler, Prince Camille de Rohan, and some twelve other varieties, greets the eye on entering the gate. The Crimson Rambler is one of the sights of a life time, and one that should not be missed. The foliage of the different plants are perfect, and shows what a little careful use of the sprayer can do. Mr. Arnaud is proud of his exhibit, and has just reason, for the display is certainly pleasing.

WEDDED AT MONTREAL WEST.

A quiet wedding took place at Montreal West on Wednesday, when W. S. Lingley, ex-mayor of that town, was married to Miss E. L. Pier, daughter of the late Joseph Dier. The ceremony was performed by the Rev. P. L. Richardson B.A., B.D., of Sherbrooke. Miss Ethel Lee of Westmount, niece of the bride, acted as bridesmaid, and T. A. Halpenny of Montreal was best man. After the wedding breakfast, Mr. and Mrs. Lingley left for Newport, St. John, N. B., and Boston, on their wedding trip. Among the numerous gifts received was a beautiful set of China from the Montreal West Methodist Sunday school, of which Mr. Lingley has been superintendent for several years and Mrs. Lingley a teacher for some time.—Montreal Star.

Mr. and Mrs. Lingley are now visiting Mr. Lingley's parents on Main street.

ITALIANS INVOKE CERES.

The bad weather has done enormous damage in Italy this year. The vines were for the most part destroyed on the Roman hills by the severity of the winter and by frosts in the spring.

Some of the peasantry have, in their distress, returned to pagan practices, and invoke the aid of the goddess Ceres, of whose temple there still remains a ruined column on one of the hills round Rome. There, carrying their sickles, they gather to burn votive fires before the column, in the hope of thus insuring a better harvest this year.—London Graphic.

THE HOLY CITY

Meeting of Conclave to Elect Pope's Successor.

Cardinal Logue of Ireland and Cardinal Gibbons of U. S. Only Two English Speaking Representatives.

A Sketch of the Cell Which Gibbons Will Occupy During the Conclave, as Given by the U. S. Associated Press Representative — Sensational Proclamation Posted in the Streets.

ROME, July 27.—Almost all the cardinals of the conclave have now arrived. Their time today was mainly occupied with a lengthy meeting of the Congregation. In well informed circles Cardinal Angelo Di Pietro, prodatary of the late pope, is being talked of as a compromise candidate in the event that Cardinals Oreglia Gotti, Rampolla or Serafino Vannutelli are unable to secure the necessary votes. Should Di Pietro be elected pope, he would, it is said, be the representative of the Rampolla-Gotti faction and he would be fairly acceptable to all. Cardinal Michael Logue, archbishop of Armagh, who with the exception of Cardinals Gibbons, will be the only English speaking cardinal in the conclave, arrived today from Ireland. He said he believed that the successor to Leo would be quickly chosen. In his case perhaps the hope is father to the thought, as he said he did not look forward with a great degree of pleasure to being shut up in the vatican during the present hot weather. Speaking of Cardinal Gibbons, the Irish cardinal paid him a glowing tribute though, like all the prelates here, he held out no hope that the American cardinal had the remotest chance of election.

"Indeed," said Cardinal Logue, "I think Cardinal Gibbons would be a subject for commiseration if the selection should devolve upon him, for no American would care to spend the rest of his life confined within the precincts of the vatican."

The Irish cardinal expressed the opinion that the question of sending a note to the powers protesting against the treatment of the vatican by the Italian government should be left to the next pope.

At today's meeting of the Congregation fifty-two cardinals were present and all noticed the exceptionally cordial reception accorded to Cardinal Gibbons, who was visibly touched by it. He thanked all colleagues and embraced Cardinal Satolli.

Cardinal Ciriaco Maria Sencha y Hervas, the archbishop of Toledo, delivered a short address to the cardinals in presenting the condolence of the royal family of Spain.

The representative of the Associated Press was permitted to visit the cell which Cardinal Gibbons will occupy during the conclave.

When the lots for apartments were drawn the American cardinal drew No. 5, the modest apartment of Commendatore Puccinelli, the master of the house. It is a few steps above the ground floor on the left of the noble staircase entering from the court of San Damaso. The bedroom of the cardinal is decorated with paper of an ordinary yellowish gray and it contains a small iron bed, a marble top dressing table, a small writing desk, an armchair, an iron clothes stand, a little high, moveable mirror, framed in iron and wood, and a prie dieu at the side of the bed. Over the bed hangs a Madonna. Adjoining this is the room of his concleavist, which is smaller, with about the same furniture. A smaller room, with a camp bed is for the use of his servant. The fourth room will be of little use, as it is without a window. The apartment is lighted with electricity. It will probably be very warm, as it has a full southern exposure. The bedroom of the cardinal measures only fourteen feet by eleven feet.

ROME, July 27.—A proclamation was posted in the streets of Rome tonight inviting citizens to attend the annual commemoration of the death of King Humbert, which will take the form of a procession through the streets to the Pantheon. The ecclesiastics view the approaching ceremony with some alarm, believing that the anti-clericals may take advantage of the opportunity to make a counter demonstration against the sympathy exhibited all over Italy in connection with the death of the Pope.

ST. JOHNS, N. F., July 27.— The British steamer Monterey, which went ashore near St. Pierre, Miq., July 15, is going to pieces today, owing to a fierce gale which is raging. The steamers Grand Lake and Algerine have left here to assist in salving the cargo and freighting the cattle aboard to Sydney.

MILITIA GEN. ORDERS.

Centreville Co. of the 67th Regt. is Disbanded—Re Permanent Corps —The New Salute.

(Special to the Sun.)

OTTAWA, July 27.— Militia orders give notice that in the 67th Regiment, No. 8 company, with headquarters at Centreville, is disbanded. No. 9 company, with headquarters at Wilmot, is re-numbered No. 8 company. Permission is granted to officers of the 51st Regiment to adopt the staff or naval forage cap.

A militia general order just issued provides that officers of permanent corps below the rank of captain will only hold their commissions so long as they remain unmarried. The rule does not apply to officers appointed prior to 1901, and may be relaxed in the case of officers who have served six years as lieutenant, when the general officer commanding is satisfied that the officer has means to maintain himself, and that the officer's means are such as will enable him to maintain his family in a manner befitting his position.

The imperial army regulation regarding the salute has been approved for Canadian forces. Hereafter "salutes by soldiers will be returned by all officers present, and not by the senior only.

CHRISTIAN ENDEAVOR.

Annual Outing of Joint Societies Will Be Held August 4.

Arrangements are under way to make the annual outing of the combined Christian Endeavor Societies in this city, which is to be held August 4, the most successful yet.

As usual, an excursion will be held up river, the boat leaving Indiantown at 4 o'clock in the afternoon and going as far as Brown's Flats, where supper will be served. Afterwards the party will sail farther up the river, returning to the city about ten o'clock. A committee consisting of one gentleman and two lady members of each society taking part has been appointed to look after the refreshments. These have arranged that each society shall contribute provisions enough for the number to whom tickets have been sold by that society. These supplies will be taken by the committee up to Brown's Flats in the morning of August 4. Tables will be laid in the Tabernacle on the camp grounds and supper will be all ready for serving when the excursionists arrive, so that there will be none of the usual annoyance of waiting. After the supper and before the party embarks again short addresses will be given.

The committee in charge will meet again tonight to complete plans.

SUSSEX NEWS.

SUSSEX, N. B., July 27.—The funeral service of the late Captain McKay was held on Sunday evening at 8.30 o'clock at the residence of his daughter, Mrs. Richmond, and a very large attendance was present. Rev. F. B. Gough delivered the sermon, touching on the life and work of the departed one. The floral tributes consisted of an anchor from his children, a wreath from his grandchildren, a crescent from the Methodist congregation, of which he was a member; a crescent from Miss Edna McLeod, and bouquets from Mrs. Lucas and Col. E. B. Beer. The body was accompanied to Bridgetown for interment by Mrs. Richmond, Mrs. Burns and Mr. and Mrs. W. B. McKay.

King & Asbell's store was entered through the side window on Sunday night by burglars, who carried away some tobacco, cigarettes and some other articles. They attempted to force an entrance through the side window in Charles Mitchell's, but were frustrated by Richard Howes, who happened to see the pair.

A meeting of ratepayers will be held on August 7th to hear the report of the committee to the bounds of the town and consider the admisability of incorporation.

A very heavy rain and hail storm visited Sussex last evening and great damage was done to the crops in some localities.

UNREST IN SYDNEY.

A St. John man who spent last week in Sydney, says that there is a strong feeling of unrest in that town over the action of the steel company in closing a portion of the plant. It has been stated that repairs are being made, but the Sydney people do not believe this, and claim that the billets produced have not met with any ready market, as the sizes in which they are made are unsuitable. Over two hundred men were thrown out of employment by the closing of the works, and of these some have been re-engaged in other portions of the plant, some are still in idleness, and many have left the town.

The Sydney people do not believe that the slump will last very long. They are firmly convinced that with the resources of Cape Breton there can be nothing but prosperity for Sydney, and that the present dullness is only temporary. But it is quiet enough there just now.

WAS BORN IN ST. JOHN.

EASTPORT, July 26.—St. Joseph's Catholic church was well filled Friday morning with the leading business men of the island city, who attended the funeral services of the late Stephen Sherlock, who had died last Wednesday after a brief illness. The services were conducted by Rev. J. J. Ahern, the pastor, who spoke in glowing terms of the deceased man, and the music was unusually good. Mr. Sherlock was born in St. John, N. B., nearly 74 years ago, and came to this city at an early age. For nearly 50 years he conducted a dry goods and shoe store on Water street, and only a few years ago retired from active business. He leaves a widow, two sons and a daughter.

T. T. Lantalum conducted the sales at Chubb's corner on Saturday. He sold 100 acres of woodland in the parish of Havelock to Wm. Humphreys at $200; also the farm of Jas. I. Breen, situate at the head of Long Island, Kennebecasis, consisting of 63 acres, with buildings, etc. Rev. R. Mathers became the owner at $670. A property on Malden street, Fairville, was knocked down to Herbert Steele at $700. The O'Keefe estate property was withdrawn at $1,950, and the Clifton street, Carleton, property at $550.

Page Woven Wire Fence

In summer the continuous coil takes up the slack.
In the winter season pays it back.

All fences slacken in warm weather and tighten in cold—except the Page Fence. Page spring coil takes up the slack in summer and lets it out in winter. No loose sagging in summer, no straining or breaking in winter. Common crimped wire is not spring tempered and if it slackens it stays slackened; if it tightens it loosens again worse than ever. Page wire is tempered to regulate its own tension summer and winter. 60,000 miles of Page wire fence in use now.

GRAND TRUNK SCHEME.

OTTAWA, July 26.—It is understood that Hon. Mr. Emmerson has been asked to take a cabinet position, probably the portfolio of marine and fisheries. His recent trip was taken on the suggestion of the government, who wanted the New Brunswick situation sized up.

It was a matter of general surprise here that Hon. Mr. Sifton did not go to Manitoba, particularly as he was billed to take part in the campaign. His mysterious inaction, it seems, was due to a strike among the liberal members, who declared that if the minister of the interior did not remain in Ottawa and attend to business they would go home for the balance of the session. They declared that Mr. Sifton had been absent from his duties too much during the past three sessions, and positively declined to stand any further nonsense. Sifton was accordingly compelled to use his influence from here.

The Grand Trunk Pacific scheme was up again for discussion at yesterday's cabinet meeting. It was expected that the government's programme would be brought down on Friday night, but it was held back and a resolution embodying the policy in regard to it will be placed on the order paper tomorrow. Forty-eight hours' notice must be given of any government measure, so that there will be no debate before Wednesday at the earliest, and as that day will be devoted to the railway commission bill, the big question will not be discussed until Thursday.

On Wednesday solemn pontifical high mass for the repose of the soul of Pope Leo XIII. will be celebrated at the Basilica. Mgr. Sbaretti, papal ablegate, will chant the service. Admission to the church will be by ticket, and special seats will be reserved for members of the commons and senate. Sermons will be preached in English and French.

Lieut. Hume Whelen, a young and popular officer of the 43rd Regiment of this city, was drowned near Quebec on Saturday. He fell from a raft of heavy timber and was crushed by logs.

Members of the British press party will arrive here tonight, and after visiting the Experimental Farm tomorrow will take the C. P. R. trans-continental for the west.

QUEBEC, July 26.— In an article urging dissolution on the Grand Trunk Pacific scheme of the government, Le Soleil, Sir Wilfrid Laurier's Quebec organ, says: "Let us go before the people, and that right after the session of parliament. Le Soleil is certain to be the faithful echo of all the Quebec liberals in asking the federal government to proceed with its railway policy without delay. In our opinion any delay in order to secure friends or peace and harmony in the party would be condemned by the majority of liberals. Let the government go ahead bravely and have parliament ratify their measure in the interest of the people. If the conservatives continue to protest and pretend that they represent public opinion, we advise the government to dissolve parliament immediately after the session and appeal to the people.

"It is true that the present parliament will not expire for two years yet, but the liberal party should follow its old traditions and not wait till forgetfulness and a commencement of the work of construction render inefficacious the intervention of the people. If we are beaten, we will not have the railway, and the liberal party will have lost two years of power, but the honor of the party will be safe.

"Sir Wilfrid, the district of Quebec, which gives you this advice through Le Soleil, is ready for the fray."

CREAM TO BURN.

Two little girls were engaged in an animated discussion as to the merits of their respective homes.

"Well, anyway," said one little maiden in a triumphant tone, "you may have more bedrooms than we have, but we have more cream than you do. We have enough for our cereal every single morning."

"Pooh!" said the other, "that's nothing. We own a Jersey cow, and we get a whole cowful of cream twice every day."—August Lippincott's.

COLDEST IN SEVEN YEARS.

MOUNT WASHINGTON, N. H., July 27.—The coldest weather experienced on Mt. Washington in July for seven years was recorded early today. At 7 a. m. under a 70 mile gale the thermometer dropped to 16.

Early this morning, while the wind storm was at its height, three inches of snow fell on the mountain. Telephone and telegraph wires were disabled, and the carriage road through Crawford Notch was made impassable by fallen trees. Telegraph and telephone communication with Jackson was cut off by several poles being blown down. The weather moderated this afternoon.

PECULIAR WEATHER.

During the past few weeks St. John has been having all kinds of weather, but in the past thirty-six hours the strangest sequence has surely been experienced, a thunder storm Sunday night and snow Monday forenoon. The latter is most unprecedented, but is nevertheless a fact. At 10 o'clock there was a flurry lasting some minutes, and at points up the line snow was also seen an hour or so earlier.

Sunday night there seemed to be three distinct storms, one in the vicinity of St. John, another around Silver Falls and a third towards Hampton. From Brookville to a point beyond Rothesay only a few scattered drops of rain fell, though the storms could be seen all around.

Up river the weather was, perhaps, most violent, but in the city it was quite bad enough for most people, especially those who went to church while the sky was clear and who never expected such a change in so short a time.
