The prizes were presented by His Lordship the Bishop of Fredericton and in the afternoon the annual sports were held. The report of the head master, Rev. W. R. He referred to the following old boys who had won distinction on the field of battle during the year.

The Military Cross was won by Lieut. William Adams of Toronto, and by Sergt. Earle Scott of St. Stephen. The D. S. O. was conferred upon Major Alexander McMillan of St. John, and Lieut. Cecil Porter of Montreal.

SEVEN MEN ENLIST

Canadian Engineers Receive Four of Number Yesterday—Drafts for Upper Canada

HONOR ROLL.  
R. E. Edwards, Fredericton, N.B.; Forestry Unit.  
P. W. Barnett, Queens Co., N.B.; Machine Gun Draft.  
M. Kinisid, Kings Co., N.B.; 8th Field Ambulance.

Robert Matchett, Red Bank, N.B.; Charles Norton, St. John.  
Medley Weldon, St. John.  
Canadian Engineers.

Following Tuesday, which was quiet in recruiting circles, yesterday saw seven men enlisting in the local recruiting office. Since the order from military authorities, stopping enlistments in the artillery, there has been a decided falling in recruiting, not only in the city but throughout the province in general. However, it is expected by military men that the other units, which are in dire need of men to bring them up to full strength will soon reap the benefit of the recent order.

Drafts for Upper Canada.  
Two drafts for Upper Canada military depots left last night on the C.P.R. About fifteen men comprised the party. The men for the most part are natives of New Brunswick, although there were several from the United States but were born in Canada.

Lieut. McBeath of the Canadian Engineers will leave on Tuesday for Ottawa in charge of a party of signallers for the Signalling Depot, Major Powers, who is in charge of the depot, was expected to arrive in the city last week, and to return on Tuesday with the men taking enlistments to advise received yesterday he will be unable to come. There will be about forty men in the party leaving on Tuesday. This is the largest draft to leave at one time for the Signalling Depot at Ottawa.

While in Upper Canada it is likely that Lieut. McBeath will visit the Engineers' Regulating Depot, Major P. S. Bent, at St. John's, Quebec. Since taking over the duties of recruiting officer for the Engineers in New Brunswick, Lieut. McBeath has been sending a steady stream of recruits to St. John's, and with the possible exception of two or three men, all have been accepted by the officer commanding the depot.

Up to Full Strength.  
The second draft of the 12th Battery stationed at Newcastle is now up to full strength. The complement of the draft is one officer and fifty rank and file.

When the Nervous System Broke Down—Queer Feelings in Back of Head Caused Much Suffering

Midland, Ont., June 20—Collapse or breakdown of the nervous system leaves one in a most pitiable condition. Strong, healthy-looking women, and men too, will weep from helplessness and despair.

The case reported here was a most severe one, as is indicated by the hysterical condition, the pain in the back of the head and the fatality of the many treatments used.

This is further evidence that the regular and persistent use of Dr. Chase's Nerve Food for a reasonable length of time will positively restore the most exhausted nervous system.

Dr. Chase's Nerve Food, 50c. a box, a full treatment of 6 boxes for \$2.50, at all dealers, or Edmondson, Bates & Co. Limited, Toronto. Do not be talked into accepting a substitute. Imitations only disappoint.

MADE THINGS WARM FOR MR. VENIOT  
(Continued from page 1)  
adopt the measure, the logical result must be an immediate appeal to the people, for members sitting there could not consistently continue to represent constituencies which would have become obsolete.

The country was at present in the midst of a great war and it might well be to a master of this importance remain until after the war was over.

There was no emergency and nothing would be lost by delaying the matter for the present time. He was prepared to admit in the future, possibly, that to extend the franchise to women would undoubtedly tend to elevate the standard of public life, but he still had his doubts as to whether the time was yet quite ripe to put the measure into operation.

Hon. Dr. Roberts said that this important measure affecting approximately one-third of the population, had on the present occasion been advanced

ed two steps further than at any time in previous history. He indicated upon the reception accorded to it, that far, as being congenial and as an indication that it was recognized as a just and popular measure. He admitted that when first approached to take charge of the bill he looked upon the question in a somewhat disinterested manner, representative of the other members. When he first took the matter up he was something of a "doubting Thomas," but the more and more he looked into its true significance he had become an ardent convert to and an active supporter of the cause. He was therefore anxious to see the measure become law as a tribute to the loyalty of the women of New Brunswick.

Mr. Magee.  
Mr. Magee said that the matter had occupied the minds of legislators the world over with what results members well know. In many countries woman suffrage had been in existence for years. Personally he favored the principle of woman suffrage and he believed that the state would be benefited if woman suffrage were universal, but whatever his personal views might be he must consider first the views of those who sent him to the House to represent them. He was not aware of any agitation in Westmorland for the extension of the franchise, and until he had further consulted his constituents he did not think he would be doing them any service by voting on a matter of so much importance without knowing just what their views were.

Mr. Mersereau.  
Mr. Mersereau agreed entirely with what had been said by the Hon. members for York and Westmorland. Until there was a universal movement for woman suffrage he could not vote on the bill. He moved that the bill stand over for twelve months.

Hon. Mr. Robinson said he had received petitions from the lady school teachers in the city of Moncton in support of the bill. He moved that the measure; also a resolution from the Trades and Labor Council to the same effect. He noticed no very strong arguments in support of the measure, as far as he could see the arguments used for it were unanswerable. He could never understand the whole situation. Women were their equals in intelligence and loyalty, and falling any convincing arguments to the contrary he would support the bill.

The Opposition Leads.  
Hon. Mr. Murray (Kings) said that when this measure came up in the House in 1901 he moved that it be given a 3 months' holiday. That was 16 years ago and he had the opportunity of thinking the matter over considerably since then. The plea had been put up that the matter should receive further consideration but the cause of woman suffrage had been before the country for years and was now a live issue. The same remarks that he wanted to dominate the whole situation. He felt that in view of what women had done during the past two or three years their request should not be lightly regarded and he had come to the conclusion that he

The bride was given away by her uncle, Dominic Killorn. She was attended by her cousin, Miss Maymie Killorn, J. Leo Killorn, brother of the bride, acted as groomsmen. After the ceremony the wedding party drove to the home of the bride's mother, where wedding breakfast was served. Following which the happy couple left on their honeymoon for a short automobile tour through the province. Upon their return they will start housekeeping at 5 Brussels street. ROOSEVELT LETS OUT AT KNOCKERS OF OLD ENGLAND.  
Oyster Bay, June 20—Colonel Roosevelt has taken up the fight against individuals and organizations seeking to foster unfriendly feeling for England in this country. His first broadside was denunciation of the circulation of an appeal against "fighting England's war."

Addressing a Red Cross meeting here, the Colonel declared that the only reason why the war hasn't been brought to this country rests with French armistice.

"There actually are Americans who recently have been asking why we fight on the same side as England, our ancient foe. I would like to see any man here unpatriotic enough to say that at this time. Any man who hates England more than he loves the United States should be thrown out of the country."

"A nation must be judged by its conduct in any crisis. An unfriendly attitude against England is as harmful as a friendly one. It is an individual grudge between two men because their great-grand-fathers fought. The sentiment is that of a traitor."
