PARKER ISLAND HAS IMPORTANT NEW INDUSTRY

Catching Sharks is Latest Business Undertaken on Pacific Coast.

POSSIBILITIES SAID TO BE LIMITLESS

Nothing Wasted in a Shark Plant—Greatest Interest is in Hides at Present.

Victoria, B. C., May 29.—With the supply of raw material unlimited, an industry new to this country is flourishing at Parker Island, between Gair and Mayne Islands on the Gulf of Georgia. It is the business of catching sharks, and a week's catch at the beginning of May ran to eighty, with an average weight of over a ton each. The work is being carried on by the Anglo-British Canadian Company, Mr. Nelson Macdonald, of this city, who operated the first shark-catching machinery on the island, declares there will never be a shortage as there are millions in the waters surrounding the island. "In fact, the further north you go the more sharks you will find, and from here to Alaska are their feeding grounds," Mr. Macdonald said. "Taking them from the bottom of the sea is automatic. Norway has a hundred of such industries. The only real hook for catching them, which works on a swivel, comes from there, and the so-called cod-liver oil, which invades the markets of the world, is really shark-liver oil, manufactured in Norway."

Nothing is wasted in a shark plant. There is no finer fish-meat than that made from the bodies of the sharks. As a fertilizer it is superior to dog fish. The heads of the shark is full of glue of a highly valuable quality, and the fins are a much-prized Chinese food delicacy. Orientals here pay as much as \$2 a pound for it. The liver content runs from 60 to 70 per cent. of finest oil of which about ten per cent. is glycerine. Sharks' teeth are in demand in many parts of the world and fetch a high price for the manufacture of ornaments. What bones there are, and they are few, go into the fertilizer part of the industry.

Possibilities of Hides.

The greatest interest in this new industry is being manifested in the manufacture of hides. Several large companies have been formed and much excellent research work is being done at present. A Seattle company is making very rapid progress, although they have not yet arrived at a commercial paying basis. The shark hides run from an inch in thickness to the consistency of paper in the baby sharks. Samples recently exhibited here to a number of local business men included skins for boots and leathers for the "suede" shoes for women's wear. There was also a "pigmented" product which would make a club bag that would last a lifetime. In Seattle they are manufacturing hip-boots from shark hides, and they are declared to be completely waterproof. It takes a day of specialized process to turn out these "suede" shoes. The hides are treated to prepare sole leather for the market.

Mr. Macdonald predicts that the time will come when British Columbia will have as many shark-catching and manufacturing plants as Norway now has. "There are millions in it," he asserted, "and it is right at our back door."

Moscow Faced By Starvation

Peasants Refuse to Give up Corn, While Large Caucasus Supplies Are Destroyed.

Riga, May 29.—Moscow is near starvation, it is said in reports from that city, as peasants refuse to sell corn, and are keeping it for seed. The decree issued by the Bolshevik Government restoring freedom of trade does not seem to have removed the menace of a food shortage. Governmental commissions sent to nearby villages to purchase corn are said to have returned empty-handed, and the hope entertained by the government that it might secure a supply of flour from the Caucasus has vanished, as several million pounds of corn have been destroyed by rebellious elements in the Caucasus region. The economic soviet of Moscow has issued an order that the families of all citizens and Soviet employees except those living in Moscow, Petrograd, Kronstadt and Ivanovo Vosnesensk are to be excluded from receiving supplies from the state. These state supplies will be granted only to workmen and children. Since the first of April this supply, however, has consisted of only one pound of bread each week.

Workers Are Leaving.

Workers are leaving Moscow to hunt for food in the villages. A pound of bread sold for 1,500 rubles two weeks ago, and it is declared that its price today is 3,000 rubles. Sugar is selling at 15,000 rubles per pound. The Kronstadt, the historic castle in Moscow, which is the present seat of the Soviet commissaries, is said to be

Better Demand For Cash Wheat Reported

Two Cent Gain Made Near End of Session at Winnipeg.

Winnipeg, Man., May 29.—Saturday's session on the local wheat market was quiet although a fair volume of business, mostly of an evening-up character, was worked. Prices held fairly steady during the greater part of the session around the opening figures and closed with a gain of 1 7/8 to 2 3/8 cents. There was a somewhat better demand for cash wheat and a fair quantity of contract grades changed hands, 1,115 being paid over the May. There was liberal offerings. Coarse grains were all higher.
