minates Gould Company. F. B. Carvell congratulated the gov-ment on having decided to eliminate St. John, & Quebec Company. He uld not claim credit for the decision. would believe that the government d seen the wisdom of the action. But would say to the people of Canada it he had advocated this course earlier the session. He had one criticism to the only. He did not like waiting a year till the New Brunswick legis-ure could 'agree to the change. Mr. Hazen suggested that the bill ght be amended to allow the domin-t to go ahead on passing of an order-council by New Brunswick promis-to introduce legislation on the sub-

Carvell thought this might be

Mr. Carvell thought this might be fficient. Hon. J. D. Reid stated that the fidges would be built by public tender ad after open competition. The reso-tion was reported unamended and the II was given its first reading. Some discussion took place in com-ittee on the government bill to amend e judges' act, which was eventually lowed to stand over for consideration 'proposed amendments. The last item of the day was the bill creasing the membership of the Na-onal Battlefields Commission. Sir 'lifrid Laurier could see no reason for e measure. "It is only a change, not improvement," was his criticism, hile Hon. Mr. Lemieux charged that e reason for the change was political. was desired for reasons of patron-pe to get control of the commission. he bill was held in committee for fur-er consideration and the house ad-urned at 6.30 o'clock in the evening. At Monday's sitting the dehate on e Canadian Northern resolutions will resumed.

apletely, the revenue cutters officers hered that some of the fifteen men o had hastily piled into the third thad been so badly burned that they d within the first few days. It was fided to lighten the boat by casting bodies overboard at once. Some who had tumbled from their thes at the first explosion and had hed on deck half-clothed succombed the cold. Others, weakened by starthe cold. Others, weakened by star-tion and thirst, gradually sank into hargy that was scarcely to be dis-guished from death. iomehow, the survivors managed to

S. H. Ewing, a prominent Montreal nancier, who was in St. John Saturday its the directors of the Standard Clay roducts, Ltd., was one of the first large vertices in St. John subsurban prometic n, May 14-Sld, str Ala

The first experiment which makes is connected with the gravity. It is born with an in or ancestral dread of the unrein St. John suburban property prested in sub-divisions in Lan-

and is interested in sub-divisions in Lan-caster and at Courtemay Bay. He said Saturday morning that he and his associ-interesting the base of the saturday morning that he and his associ-interesting to the second of the unrestrained ates have been greatly pleased with their investments, which have sumed out most satisfactorily. They have sold a large number of lots from both properties and houses which have sold readily. He said that they were so well satisfied with the result of their sales that they intended to continue the policy of erect-ing houses to meet the large demand. Mr. Ewing is firmly convinced of the great future ahead of St. John and the sold said that the city could not help growing affairs with interest and had noted with pleasure the fact that the recent depres-sion in the business world had made so little impression on affairs in this city. J. P. L. Steward, manager of the East-tem Securities, Limited, Montreal, who arrived in St. John Saturday morning with the other directors of the Standard Clay Products, Limited, spoke optimiti-cally of the improved financial condi-tion throughout Canada and the pros-pects for greater improvement. Montreal had not feit the depression

greater improvement. I had not felt the depression as some other sections of the said, and he had notice ntry, he said, and he had noticed v little St. John had been affected ney was easier now than it had been the last year or two, and confidence is returning. All that was needed now added, was a good crop this fall to tore conditions to the normal stand-
