

A CERTAIN AND EFFECTUAL CURE
FOR
DIARRHŒA, SEA SICKNESS, VOMITING, & DYSENTERY,
A RELIABLE REMEDY FOR EVERY VARIETY OF
SUMMER COMPLAINTS.

A popular specific in *Flux*, through all its stages. A soothing and relieving agent for Children while *Teething*, an infallible and instantaneous check to *Cholera Morbus*, and when administered at an early period, a cure for *Asiatic Cholera*.

DR. FOWLER'S
EXTRACT OF WILD STRAWBERRY

Has a salutary *tonic* and *astringent* effect, by which the relaxed exhalant powers of the bowels are strengthened, the morbid irritability allayed, and the natural secretions and healthy action restored. For these reasons the

EXTRACT OF WILD STRAWBERRY

has proved remarkably efficacious for *Young Children* for *Colic* and *Diarrhœa*, and during the process of *Teething* it has a specific and salutary effect, and can be readily administered on account of its pleasant taste. Therefore we would advise parents and nurses, not only as a matter of *safety* but for *economy's* sake, to resort to it in all such complaints of the *bowels*, which so soon exhaust the strength of young children during the *summer* months, and, unless promptly arrested, soon prove fatal.

**Diarrhœa, Cholera Morbus, Sour Stomach, Cramps, &c.,
ARE VERY COMMON.**

They are generally produced by over-repletion of the stomach; the food passing into the bowels in a more or less indigested state, causing irritation and disturbance, or by the introduction of indigestible and irritating substances, such as *raw vegetables, unripe and sour fruit, change of water, &c.*

DR. FOWLER'S
EXTRACT OF WILD STRAWBERRY

has never been surpassed by any other remedy for those very common and disagreeable complaints. The proprietors have placed it within the reach of all, so that none may be deprived of its benefits.

Sold by all Druggists and Medicine Dealers at 27½ cents per bottle, or three for one dollar.

MILBURN, BENTLEY & PEARSON,
PROPRIETORS, TORONTO.

The National Pills as a Family Medicine have no rival.
