Chantry Farm

Do you want to increase your egg
yield? Try a few utility Black Leg-
horn eggs. Only \$1.50 per 15; special
rates on 100 or more. Handsome,
hardy, and regular egg machines. An
ideal farm fowl. Or as you aiming
at a good table fowl and winter layer?
Try the Silver Grey Dorking. Cock-
erels nine to ten pounds each at six
months of age. Can spare a few set-
tings only.
ED. DE GEX.

Rev. W. J. Ford of Glencoe and Mrs.
Hopkins of Hamilton were united in
marriage at that city on Wednesday
of last week. Mrs. Hopkins formerly
resided in Glencoe; our citizens are
glad to welcome her back.

Advertising lawn socials is the
smallest item of expense. The best
program procurable will not draw a
crowd unless it is widely advertised.
See that your garden party is an-
nounced in these columns. The cost
is trifling.

A meeting of the ratepayers of Glen-
coe is called for Monday evening,
June 23rd, at the town hall to nomi-
nate candidates for the office of mu-
nicipal councillor to fill the vacancy
caused by the death of the late Coun-
cillor Joseph E. Roome.

Do your shopping in daylight, if
possible. This applies particularly to
townspeople and especially on Satur-
days. The stores are usually crowd-
ed on Saturday nights, and shopping
is then more difficult now that electric
lights are an uncertainty.

The death of Mrs. John C. Simpson
occurred at her home near Wardville
on Monday, June 18th, after a lengthy
illness, in her 57th year. Mrs. Simp-
son was formerly Miss Harriet M. Ed-
wards. The funeral was held on Tues-
day afternoon at the Simpson ceme-
tery.

The marriage took place at the
church of St. John the Evangelist,
London, on Wednesday, June 18th, of
Charles Kent Edward of Petrolia and
Miss Eva Norine Butler, daughter of
Mr. and Mrs. John C. Butler of Lon-
don. The bride is a granddaughter of
John S. Walker of Glencoe.

Sergeant Jackman McKellar, son of
John L. McKellar of McKellar, Ont.,
arrived home from the front on Satur-
day, June 21st. He was a member of
the 18th Aero Squadron in the
United States army, and was overseas
a year and a half. He was sent to France
in July, and saw much service there
until the armistice was signed.

A farmers' club was organized in S.
No. 5, Ekfrid, on Tuesday evening,
with J. B. McKeen as president, John
Strachan vice-president, and Norman
McAlpine secretary-treasurer. A
meeting will be held on Monday even-
ing next to complete the organization
and a general invitation is extended to
the farmers of the community to be
present.

Crawford Allan of South Ekfrid had
one of his shoulders dislocated and
his collarbone broken, besides sus-
taining other injuries, on Saturday.
He was assisting to raise a building
for the purpose of placing a new founda-
tion under it on the farm of Mrs.
Robert Goulet when some of the
props gave way. Mr. Allan is able to
be about again and went to London on
Monday to be examined under Dr. A.
Rays as to the extent of his injuries.

PERSONAL AND SOCIAL

Mrs. Daniel McKellar left Tuesday
to reside in London.

Mrs. L. D. Tait of Rochester, N. Y.,
is visiting her sister, Mrs. Diggon.

Mr. and Mrs. J. G. Lethbridge and
son Ross spent the week-end at Pin-
gal.

Miss Margaret Stinson of St.
Thomas is the guest of Miss Mollie
Tait.

Mrs. Lament left for Strathroy
yesterday to attend the wedding of a
niece.

Miss Kathleen Charles, Miss Jean
Egan and Miss Anna Judge of London
are visiting at Dr. McIntyre's.

John and Adelaide Walker of De-
troit are visiting their aunt, Mrs. J. D.
Smith, and other relatives here.

Mr. and Mrs. R. Clannahan and A.
Russell Clannahan were the guests of
Mr. and Mrs. James Brown on Sunday.

Miss Mary Leitch is holidaying for
a few weeks and visiting relatives
and friends in the vicinity of Chat-
ham.

Mr. and Mrs. D. C. Gillies and
family spent the week-end at Mid-
may, guests of Mr. and Mrs. J. A.
Johnston.

Mr. and Mrs. John Gaiser of Wel-
land visited Mrs. Gaiser's aunt, Mrs.
Atkinson of Wardville, and other re-
latives in Glencoe and vicinity and St.
Thomas last week.

Mrs. Grace McKinnon of London
is visiting Mrs. James Toole. Mrs.
McKinnon will reside with her mother,
Mrs. Freese, when Dr. and Mrs. Freese
take up their residence here.

Mr. and Mrs. Eugene Kenyon and
children and Mrs. E. Kaufman and son
Gerald motored from Brantford on
Saturday and spent the week-end with
Mr. and Mrs. Richard Singleton.

Dr. Freese, who recently pur-
chased the practice of the late Dr.
Walker at Glencoe, is expected home
from overseas on Wednesday of this
week, being listed among those arriv-
ing on the "Royal George."

Mrs. Colin Leitch was at Kent
Bridge for a few days attending the
funeral of her uncle, the late Woods
Smith, who died rather suddenly. Mr.
Smith was a frequent visitor to Glen-
coe and will be remembered by many
here.

Miss Eleanor McIntyre was at her
home in Melbourne over the week-end
to meet her brother Ruthven, just re-
turned from overseas. Ruthven en-
listed early in the war and was wound-
ed shortly after getting to the front,
being unfit for further active ser-
vice. His brother, Willis R., was
killed in action in the early stages of
the war.

A Standard Medicine.—Parnelle's
Vegetable Pills, compounded of en-
tirely vegetable substances known to
have a revivifying and salutary effect
upon the digestive organs, have
through years of use attained so emi-
nent a position that they rank as a
standard medicine. The sifting shoul-
der this. Simple in their com-
position, they can be assimilated by
the weakest stomach and are certain
to have a healthful and beneficial
effect on the sluggish digestive organs.

"The old wheeze about the law of
supply and demand regulating prices
is all right in its place," says the
Belleville Intelligencer, "but both sup-
ply and demand can be manipulated
by the highly specialized food barons
of today."

SPECIALIST SAID HE MUST OPERATE

She Took "FRUIT-A-LIVES" Instead.
And Is Now in Perfect Health.

MME. F. GAREAU

"For three years, I suffered great
pain in the lower part of my body,
with swelling or bloating. I saw a
specialist, who carefully examined
me and gave me several tonics to
take, which did not help me. Then
he told me I must undergo an opera-
tion. This, I refused to permit.
I heard about 'Fruit-a-lives' and
the wonderful results it was giving
because this medicine is made from
fruit juices, so decided to try it. The
first box gave great relief; and I
continued the treatment, taking
six boxes more. Now, my health is
excellent—I am free of pain and
swelling—and I give 'Fruit-a-lives'
my warmest thanks."

Mrs. F. GAREAU,
50c. a box, 6 for \$2.50, trial size 25c.
At all dealers or sent by Fruit-a-lives
Limited, Ottawa.

SPECIAL NOTICES

Wanted—girl to learn the tailoring.
J. L. Tomlinson, Glencoe.

Pigs for sale—six weeks old. Apply
to Simpson Goff, Ekfrid.

The word of the hour—See you at
Tait's Corners Tuesday evening.

Chopping Tuesdays, Thursdays and
Saturdays.—W. R. Stephenson, Applin.

Butter wrappers for one-pound
prints for sale at The Transcript of-
fice.

You'll be sorry if you miss it—Tait's
Corners garden party, Tuesday, June
24th.

Flour and feed for sale at store cor-
ner of Main and McKellar streets.—J.
D. McKellar.

Maure spreader, in first-class or-
der, for \$65; a snap.—James McIn-
tyre, Glencoe.

Buggy duster lost between Glencoe
and Kilmartin. Finder please leave
at Transcript office.

The Battle Hill Farmers' Club will
meet in the school house on Thursday
evening of this week.

For sale—three-piece oak bedroom
suite. Apply to John Dundon, at Hir-
am Lumley's, Glencoe.

Bit-Gunn Fertilizer and Hog Tank-
age from J. D. McKellar, agent, Glen-
coe. It pays to buy the best.

For sale—several young Yorkshire
male pigs; will be registered if de-
sired.—F. C. McRae, Glencoe.

years old, due to freshen latter part of
this month.—Bryden Glasgow.

We have a few young Shorthorn
hulls and heifers at reasonable prices
for quick sale.—Wm. McTaggart, Ap-
plin.

Grey mare, 12 years old, perfectly
sound, weighs 1,400 lbs.; \$60 cash.—
Joseph McClure, McCready school
house.

The Tait's Corners garden parties
are noted for their splendid programs
and good time generally. This year
will be no exception. June 24 is the
date.

For sale—a Karn organ for \$15, also
a six-octave piano-cane organ in ex-
cellent condition for half price, also a
used piano for less than half price.—
Dan. H. McRae, agent, Glencoe.

Cutter and extension buggy for sale
—almost given away, as they must be
disposed of in a few days. See them
with price marked, in the Methodist
church yard. Apply at parsonage.

We have re-stocked with a large as-
sortment of the very best shoes on
the market and are now able to sat-
isfy the most particular customer in all
lines. The stock bought from Mr.
Strachan at a rate on the dollar will
be cleared out at HALF PRICE. Get
your share of these bargains while
they last. TERMS CASH.—C. George,
phone 109.

A garden party under the auspices
of the Y. P. S. of Burns' church, Mos-
a, will be held on the main grounds on
Friday evening, June 20. An excel-
lent program, consisting of quartettes,
duets, solos by the mixed quartette of
First Presbyterian church, London;
selections by Miss Jean Walker, teach-
er of elocution, London, and music by
Strathroy orchestra. See bills.

said of a candidate for office.

FARM WATER SYSTEMS

A Summary of Best Available
Types for Stables.

When Pastures Fail the Milk Flow
Decreases Unless Soiling Crops
Have Been Provided—Corn
Silage Will Also Greatly Increase
Milk Yield in Hot Summer.

(Contributed by Ontario Department of
Agriculture, Toronto.)

I n a day's visit among the farmers
of Ontario in almost every
county you would run across
quite a number of stables equip-
ped with some form or other of
water system for supplying the farm
stock more or less automatically with
water each day. With few exceptions
every new barn built now is pro-
vided with a water system. Among
the available systems are the follow-
ing, which, in this short article, can
receive only a very brief description:

Of these probably the most com-
mon is that consisting of a water sup-
ply tank in the hay or straw loft
above the stable, from which the
water runs by gravity into a regulat-
ing tank on the stable floor, which
supplies the individual drinking
basins with water automatically. The
regulating tank is usually built of concrete
and the size depends upon the kind of
power used for pumping; if windmill
be used the tank needs to be large
enough for three or four days' supply,
as the wind does not blow every day.
Under these conditions a tank 10 x 4 x 4 feet, or a regu-
lating tank would be required for a 10-
horse stable. Sometimes the concrete
tank is built just outside the stable
wall and the ground enough to pro-
tect it from frost, or in one corner
of the stable, elevated enough off
the floor to prevent the regulating tank
by gravity. Its case pumping is done
by gasoline engine and a smaller
tank is sufficient; a metal one is sus-
pended from ceiling of stable. In
every case an overflow is necessary.
Many provide means for collecting
the rain water of the barn and run-
ning it into the storage tank so that
in wet weather very little pumping is
required, especially where a large
tank is used. Another method of
filling the storage tank is by the
hydraulic ram installed at the spring.
Still another is by means of a one-
inch pipe leading from a spring or
other source at an elevation at least
as high as the storage tank. Some-
times where hydraulic ram or gravity
system is in use the storage tank is
dispensed with, the water, in the
case of the former, running through
the drinking basins or trough all the
time and escaping to a good outlet
or drain, in the latter the water is
piped directly to the regulating tank
which in turn supplies the basins or
trough automatically. Again the
water is pumped directly to tank in
the attic of the house, and the over-
flow from it supplies the stable with
water. And since the advent of the
compression water system we find a
few cases where it is used to supply
the stables as well as the house, the
installation being proportionately
larger than it would be for the house
alone. Probably no one system, how-
ever, can be absolutely recommended
as best for every case as the cir-
cumstances pertaining to the source
of supply, amount of water used,
position and elevation of the farm
buildings, etc., always have to be
carefully considered in planning the
ideal water system for the farm house
or stable.—R. R. Graham, B.S.A.,
O. A. College, Guelph.

Soiling Crops for Cows.

Most Ontario dairy farmers depend
on the pasture crop for the feeding
of cows during summer. If the pas-
ture fails, there is no remedy, the
cows go dry, the creameries and
cheeseries suffer losses of patronage,
the city milk plants are short of milk,
and the whole dairy business is more
or less handicapped. The time has
come when dairy farmers should
take out an insurance policy in the
form of a summer silo, filled with
corn from the previous year's crop.
Falling this silage in the bottom of
a winter silo is good feed, but the
surface exposed should be reduced
one-half by cutting the silage down
the centre with a hay-knife. If this
is not available, the silage in one-
half the silo may be dug down with
a fork, but this leaves an irregular
edge which causes excessive spoiling
of the silage. Great care is needed
in feeding summer silage, else there
is danger of tainting the milk. The
strong advantage of silage for sup-
plementing poor pasture, is the fact
that a man can get feed out of a
silo for a herd of cows in about one-
half the time required to cut a soiling
crop in a field and haul this to the
stable for the cows to eat. Some
meal, or wheat bran, should be added
to the silage for best results.

If silage is not available for feed-
ing during the season of '19, then
soiling crops like clover, oats, peas
and vetches, corn, etc., should be
provided, so that the cows may not
want for feed to make milk.—Prof.
H. H. Dean, O. A. College, Guelph.

Farm Tractors.

Interest in farm tractors has in-
creased rapidly in Ontario in the past
two or three years. In the early part
of this year the Ontario Department
of Agriculture held 22 courses on
farm power in different parts of the
province, and there was a total at-
tendance of 12,270. No greater in-
terest has been shown in courses on
any other subject, and much useful
educational work was done.

Handle Tubers Carefully.
Potatoes should be handled care-
fully and not as though they were
cobblestones. The potato is a living
thing, with a protective skin, which
it is able to keep intact if it has a
fair chance.

HERE ARE SOME ARTICLES YOU NEED AT THIS SEASON OF THE YEAR

New Perfection and Florence Automatic Oil Cook
Stoves, the most reliable wick stove of the day, in 2, 3
and 4 burners.

Screen Doors, Screen Windows, Hammocks, Lawn
Hose, Lawn Mowers, Ice Cream Freezers, Bread
Mixers.

Do your Painting, inside and outside, with Sherwin-
Williams' Paints—wears longer, covers more per gallon
and looks better than any other paint made.
