When a woman is sick she falls off in looks. This is particular the case when she suffers from diseases peculiar to her sex. Not only is her strength undermined, but she loses beauty of face and grace of form.

It is characteristic of the cures of womanly diseases effected by the use of Dr. Pierce's Favorite Prescription, that with restored health there is a restoration of good looks.

"Favorite Prescription" establishes regularity, dries weakening drains, heals inflammation and ulceration and cures female weakness.

Alex. Ironside, a brother of Mrs. Geo. A. Gray, Lorne avenue, has been elected warden of Wentworth County. The Hamilton Times in announcing his election, says: "Warden Ironside, who is a farmer in Beverly, aged about 45, married and father of several children, is very modest. So about 45, married and father of several children, is very modest. So much so, in fact, that he has never had a photograph taken. He was deputy reeve of Beverly and reeve of the same township prior to the new county council act coming into force, and he represented Beverly division in the county council during the first two years of the new order of things. He is well liked, and doubtless he will fill the position of warden with ability."

Committed For Trial For Murder. Halifax, Feb. 4.—Joe Baxter, who was arrested on suspicion of being implicated in the death of Wesley Milney, whose body was found at the foot of a cliff at Advocate, was taken before Justice Atkinson to-day for a preliminary examination. The evidence was purely circumstantial, but the Magistrate committed him for trial.

### RULERS OF THE WORLD

Meat Eating Nations Are the Leaders in Every Branch of Human Achievement

The ruling nations of the world are meat eaters and history records that they always have been.

Vegetarians and food cranks may explain this in any way they choose, but the facts remain that the Americans, English, French, Russians and Garmena are most eating nations, and

cans, English, French, Russians and Germans are meat eating nations, and they are also the most energetic and most progressive.

The principal food of the heroic Boer soldier known as Biltong, is a sort of dried beef, affording a great deal of nourishment in a highly concentrated form.

deal of nourishment in a highly con-centrated form.

The weak races of people are the rice eating Chinese, Hindoos, and Sia-mese, regarded since the dawn of his-tory as non-progressive, superstitious and inferior physically and mentally to the meat eating nations who do-minate them.

gestive element; hence arising indigestion and later on, chronic dyspepsia.

Nervous people should eat plenty of meat, convalescents should make meat the principal food, hard working people have to do so and brain workers and office men should eat, not so much meat but at least once a day and to insure its perfect digestion one or two of Stuart's Dyspepsia Tablets should be taken after each meal, becaue they supply the peptones, diastase and fruit acids, lacking in every case of stomach trouble.

Nervous dyspepsia, catarrh of stomach, gastritis, sour stomach, gas and acidity are only different names for indigestion, the failure to digest wholesome food, and the use of Stuart's Catarrh Tablets cures them all because by affording perfect digestion the stomach has a chance to rest and recover its natural tone and vigor.

Stuart's Dyspepsia Tablets is the real household medicine; it is as safe and pleasant for the stomachache of the baby as it is for the imperfect digestion of its grand sire.

They are not a cathartic, but a digestive and no pill habit can ever follow their use; the only habit Stuart's Tablets induce is the habit of good digestion and consequently good health.

The verdict is not always just in the court of public opinion

The structure of the teeth plainly indicates that human beings should subsist upon a variety of food, meat, fruit and grains, and it is unhygienic to confine one's diet to any one of these classes to the exclusion of another.

Meat is the most concentrated and most easily digested of foods, but our manner of living is often so unnatural that the digestive organs refuse to properly digest meat, eggs and similar nutritious and wholesome food, but it is not because such food is unwholesome, but the real reason is that the stomach lacks, from disease or weakness, some necessary digestion and later on, chronic dyspepsia.

Nervous people should eat plenty of meat, convalescents should make meat the principal food, hard works.

Japan's Democratic Emperor.

There is no barbaric splendor about the court of Japan, nor does the Emperor insist on fantastic forms of homage. He is just a plain individual. His guests he receives standing, and he enters freely into conversation with all. There is scarcely a subject that does not interest him or one on which he is not well informed. A delightful host, it is his custom to surround himself with clever men—men who are the shining lights of their professions. Engineers, artists, musicians, writers, soldiers, scientists—every class of persons who have won distinction is welcome at the royal table, for it is one of the characteristics of His Maiesty that in the distribution of his lavors he is thoroughly impartial.
