

## MUSCULUM.

11. *M. partumelium*, Say.
12. *M. securis*, Prime.
13. *M. rosaceum*, Prime.
14. *M. truncatum*, Linsley.
15. *M. transversum*, Say.
16. *M. parvum*, Sterki.
17. *M. ryckholti*, Norm.
18. *M. winkleyi*, Sterki.
19. *M. declive*, Sterki.

## PISIDIUM.

20. *P. virginicum*, Gm.
21. *P. compressum*, Prime.
22. *P. abditum*, Hald.
23. *P. ventricosum*, Prime.
24. *P. rotundatum*, Prime.
25. *P. acquilaterale*, Prime.
26. *P. affine*, Sterki.
27. *P. glabellum*, Sterki.
28. *P. milium*, Held.
29. *P. minus*, Adams.
30. *P. novaeborascense*, Sterki.
31. *P. ohioense*, Sterki.
32. *P. pauperulum*, Sterki.
33. *P. politum*, Sterki.
34. *P. rotundatum*, Prime.
35. *P. sargentii*, Sterki.
36. *P. splendidulum*, Sterki.
37. *P. streatori*, Sterki.
38. *P. strengi*, Sterki.
39. *P. subrotundum*, Sterki.
40. *P. succineum*, Sterki.
41. *P. variable*, Prime.
42. *P. walkeri*, Sterki.

There is a quantity of material still under consideration and much more will, it is hoped, be secured during next summer. Several additions will, I think, be made to the list of Sphaeria and Musculia, and many to the already lengthy catalogue of our Pisidia. These minute shells occur everywhere throughout the district in such great numbers and variety that their determination is a matter of extreme difficulty. When Dr. Sterki has further studied the specimens now before him and the collections of 1913, a fairly complete list might be published, with the localities in which they are found, and figures of the larger or more beautiful species.

L.
