### CHEAP BOOK-KEEPERS BOOK.

CHEAP, or rather, low-priced bookkeepers' books are a new thing in the special form shown in the accompanying illustration. Four books—day-book, journal, cash-book and ledger—to retail at \$1.50 is a wonderfully cheap line, and yet the binding is even better than the cut would seem to indicate. The day-book is made long or broad and the ledger with either single or double entry with index. This special line is one of the latest productions of the W. J. Gage Co., who are now making a special effort in their manufactures, such as envelopes, blank books and writing tablets.
