

reason that it is much
more convenient than
the sand we have been
using we would rather
pay a reasonable price for
the sand on the reserve
than get the other as we
have been getting it for
nothing on account of
it being so handy for
to haul

If you think you could
make arrangements for getting
it we would like to know
as soon as possible as
we would like to start
hauling if we can't get
it for a reasonable price
we would not want
it please let me know
soon yours respectfully

Campbell McArthur
