

your assistance.

I enclose copies of letters handed to the member for this County M. Girard who has promised to do what he can to help us. In going over the charts of this part of the coast M. Sacké the Provincial engineer was present and signified that he was in favour of the cable being laid.

While in Halifax last summer I spent an hour or more with the Honble Senator Power passing him up, as no doubt questions will be asked in ^{the} House ere long about us and what we are doing.

Will you not set the machinery in motion as far as you can, so that the questions of cable, bird protection, etc are not shelved. We hope to apply for the Franchise this Spring, then we will have a lever, at present we are nobody. Thanking you in advance

I am

Yours Respectfully, H. Mackenzie King
