

A57. - Yes, sir.

Q58. - What stopped this process?

A58. - I pushed his hand away, sir.

Q59. - How long did this procedure last, from throwing back the blankets until you pushed his hand away?

A59. - It seemed a very long time. Approximately 10 minutes.

Q60. - You threw back the blankets?

A60. - Yes sir

Q61. - You signalled through to SHIELS ten feet away?

A61. - Yes, sir.

Q62. - You talked to SHIELS and SHIELS tells you he can see?

A62. - Yes, sir.

Q63. - You insisted that he come to the head of the bed?

A63. - Yes, sir.

Q64. - And, you say through all this JOHNSON manipulated you penis?

A64. - Yes, sir.

Q65. - How long did this manipulation go on from when the blankets where thrown back?

A65. - About four minutes, sir.

Q66. - What were you doing about it all this time, did you have an ejaculation?

A66. - No sir, it didn't have the primary effects.

Q67. - How many effects are there?

A67. - There is something necessary.

Q68. - What is it?

PROSECUTING OFFER - Question is irrelevant and the witness is not a medical student.

DEFENDING OFFICER- The witness saw fit to commit himself, possibly in the interests of medical science. His active participation in what the Court alleges an indecent act, and the question of what was going through his mind at that time would prove quite interesting.

PROSECUTING OFFER - The witness is not on the stand as the accused so what the witness though is of little interest to the evidence.

DEFENDING OFFICER- By his own statement he is an accomplice and it is only a matter of luck that he is not charged.

CROSS-EXAMINATION BY THE DEFENCE (Continues)

Q69. - So your only explanation for not having mentioned this manipulation of four minutes was because nobody asked you?

A69. - Yes, sir.
