

- Adenomyoma of uterus, abdominal myomec-  
tomy for, 511  
diffuse, in one horn of bicornate uterus,  
157  
removal of, per abdomen, 511  
with apparently independent round-celled  
sarcoma of uterus, 280  
with double cervix and double vagina,  
155  
with squamous-celled carcinoma of cervix,  
262
- Adhesions, appendiceal, affording blood-supply  
to parasitic myoma, 39  
between liver and myoma, 464  
between myoma and rectum, 386  
gradual absorption of, after abdominal  
hysteromyectomy, 641  
in myoma cases, found at autopsy, 395  
intestinal, 633  
after abdominal myomectomy, 566  
extensive, method of dealing with, 635  
of bladder in myoma cases, rôle played by,  
366  
ovarian, release of, after abdominal myo-  
mectomy, 556  
to broad ligaments in myoma cases, 354  
vesical, release of, after abdominal myo-  
mectomy, 556
- Adipose tissue in myoma, 162, 166
- Adrenal body, metastases in, from adenocar-  
cinoma of uterus, 408
- Anastomosis, uretero-ureteral, 383  
intestinal, 635
- Anesthesia in abdominal hysteromyectomy,  
590
- Angiomyoma of uterus, 158
- Anus, artificial, with complete control, 190
- Appendicitis associated with myoma, 463
- Appendix, removal of, in myoma cases,  
463
- Areas, raw, with abdominal hysteromyomec-  
tomy, 619
- Artery, uterine, almost fatal bleeding from  
accessory branch, during abdominal  
hysteromyectomy, 623  
fatal hemorrhage from, due to absorption  
of catgut, 681  
passage of silk ligature from, into bladder,  
375  
tearing of, during abdominal myomec-  
tomy, 525
- Asepsis associated with myoma, 30
- Autopsy, carcinoma of body of uterus and  
myoma found at, 404  
of cervix with uterine myoma  
found at, 398
- Autopsy changes found in ureter associated  
with myoma, 396  
condition of Fallopian tubes in cases of  
uterine myoma, 395  
of ovaries in myoma cases, 395  
findings in myoma cases, 394, 428  
myosarcoma and myoma found at, 420  
perforation of rectum found at, after hystero-  
myomectomy, 390
- BALLOTTEMENT with uterine myoma, 469
- Bastianelli, Raffaele, 79
- Bed-sore following abdominal hysteromyomec-  
tomy, 662  
abdominal myomectomy, 555
- Bicornate uterus, diffuse adenomyoma in one  
horn of, 157
- Bimanual examination of a subperitoneal  
pedunculated myoma, bleeding into ab-  
dominal cavity after, 444
- Bisection of uterus, 608. See also under *Hys-  
teromyectomy*.  
dangers of, 181, 609  
death after, 683  
followed by intestinal obstruction, 683  
for submucous myoma, 574
- Bladder, adhesions of, after abdominal myo-  
mectomy, 556  
rôle played by, in myoma cases, 366  
adventitious vessels furnished by, 48  
ascent of, with growth of myoma, 366  
blood supply from, to parasitic myoma, 50  
calculus in, associated with uterine myoma,  
375  
carcinoma of, secondary to cervical carcino-  
ma, 401  
displacement of, by myoma, 365, 368  
full, simulated by encysted peritonitis, 371  
in myoma cases, 365-377  
inflammation of, after abdominal myomec-  
tomy, 549  
in myoma cases, 377  
injury of, during removal of uterine myoma,  
371  
loss of control of, 376  
manipulation of, in abdominal hysteromyo-  
mectomy, 374  
passage of silk ligature from uterine artery  
into, 375  
pressure on, by myoma, 365  
retention of urine, 376  
sacculation of, in myoma cases, 370  
sarcoma of, with uterine myoma, 420  
spontaneous evacuation of broad ligament  
abscess into, 553  
symptoms attributable to myoma, 376
