FOOD production—that is the big cry for 1918. Everyone must produce as much as possible—which means every available square yard under cultivation, and the widespread use of Rennie's seeds.

NEPONSET ROOFS

NEPONSET PAROID ROOFING

NEPONSET TWIN SHINGLES

THRIFT and production are the farmer's watchword this year. Paroid is a tremendous help to the thrifty farmer, because the price is right, it is easy to lay, will require no repairs, and will last for many, many years. To date, Paroid has a record of over 19 years' service.

If you are roofing, or repairing roofs this year give your building the protection of Paroid. For instance, burning cinders falling on a Paroid roof die out harmlessly.

Paroid makes an attractive roof, too, either in the gray finish, or with the red or green crushed slate surface.

Insist on the genuine Paroid. Look for the label as shown here.
