Less Stable Work And More Profits

are the results of using our modern stable fittings. Every minute cut off from stable chores means money saved. Every improvement for the comfort and health of your animals means more beef and butter.

Our Rotary U Bar Steel Stanchion has many points of superiority over any other cow-tie made. Saves the expense and space of partitions, and thus makes stables light and airy, and easy to clean. Gives the cows comfort and sufficient freedom, yet prevents them from interfering with one another. Makes it very quick and easy to tie up and untie the herd.

Our Galvanized Steel Water Bowls, always within reach, are an enormous improvement over an ice-cold trough in a windy yard. The supply of water is automatically regulated, and the edges of the bowls are shaped so that the water does not slop over. This sensible watering system is cheaply and easily installed; it keeps the animals in better health, and greatly increases your returns.

With Beath's Litter Carrier the stables can be cleaned out in half the time and with half the labor that it takes with wheelbarrows. The manure can be dumped directly into the wagon or spreader, thus saving one handling. Tracks and switches are easily erected; the galvanized steel tubes are rust proof; the track-wheels work on roller bearings and round all corners easily; and the changeable gear hoist is particularly smooth-working and durable.

Write us now for our catalogue No. 16 which fully describes our COMPLETE LINE OF STABLE FITTINGS.

METAL SHINGLE & SIDING CO. LIMITED,

THE BISSELL 3 DRUM STEEL LAND ROLLER

Has a strong, rigid frame with three drums. It is fitted with a heavy steel axle and roller bearings. The drums, made of heavy, steel plate, are riveted up to stand any strain. The frame is stiffened with double cross rods. It pulls and turns easy, and there is no neck weight.

All particulars free. Address Dept. R 101

T.E. BISSELL, ELORA, ONT.

"DO IT NOW!" is a good motto—especially regarding the sending to us your renewal subscription. Look at the label on your paper and see if your subscription, has expired.
