

PROVAN'S (Improved Malleable and Steel) HORSE FORK AND SLING

Has been awarded first prize at all competitions both in Canada and the United States, the latest victory being the only medal and diploma given on Hay Carriers, Fork and Sling, at the World's Fair at Chicago. The jurors were unanimous, and many valuable points of undoubted superiority were allowed over an extensive opposition.

SIMPLE, STRONG, DURABLE
Many farmers who had other kinds have taken them down and bought mine after seeing it work.

My Machine Handles Sheaves as well as Hay and Peas—it is the Simplest and Best Stacker Manufactured.

Our machine has been in successful competition for seven seasons, and its superiority to all others is now placed beyond a doubt. It is the only Double-Acting and Self-Reversing Machine on the continent that has the following advantages: A loaded fork or sling can pass the stop block. Our Pulley Hoister instantly raises or lowers the pulleys from or to the peak, thus avoiding climbing or untying the rope from the whiffletree. The track used with this car is the best for the following reasons: It acts as a strengthening brace to the barn; never warps or is affected by a side draw. The car runs easily, and can be readily moved from one barn to another. For unloading at the gable we have much the strongest end-lift, take up less room, and do not disfigure or weaken the building with posts or projecting beams.

While we do not recommend a Wood Track, we claim to have the latest improved and most reliable working Wood Track Car on the market.

GUARANTEE.

We guarantee every machine sold by us to do first-class work, and to unload one ton of hay in from three to five minutes, when properly handled and put up, and if it fails to do so, will be taken back and money refunded.

SENDING TO FARMERS ON TRIAL

It has been for years a part of our business to send our machine on trial to fair-minded responsible farmers living at remote distances, such machine to be put up by them and used until their harvesting be half done, when they are required to decide whether they will keep the apparatus or return it; if the latter, we will pay return freight charges.

400—Helderleigh Fruit Farms Nurseries—400
(Four Hundred Acres in Extent.)
Established 1882.

There is no place in Canada where the season is longer than here. Hence we get trees brought to the fullest maturity, capable of withstanding the severest cold. Having one hundred acres in fruit, from which cuttings, buds, scions, etc., are taken, I can safely guarantee the purity of my stock to be equal, if not superior, to any other nursery. The soil is specially adapted to produce vigorous, hardy trees, a grand lot of which are now growing and for sale. All the leading sorts of both old and new varieties deemed worthy of propagation. Catalogues free on application. Agents wanted in every township.

THE LOCKED-WIRE FENCE CO., INGERSOLL, ONT.

The accompanying Cut represents five panels of fence and gate of the LOCKED WIRE FENCE.

Each panel represents one rod (16 1/2 feet), 7 wires, 4 steel stays. The crimp in the wire, in combination with steel clamp, when locked acts as a spring, adjusting the fence to heat or cold.

—PERFECTLY—
**Safe, Stronger, Better
AND CHEAPER**
than any other fence.

This is, without doubt, the best fence on the American continent.

All persons having wire fences erected in the past, should use the stays and steel clamps of the Locked Wire Fence Co. on them. The crimp consumes all the slack, makes the fence tight, and adds over 100 per cent. to its value at a very small cost.

We desire to inform the farmers and public generally that we are prepared to supply the material or erect this fence throughout the Dominion of Canada.
