RAZOR STEEL

FOR ONE CUT 2500 FEET OF WOOD IN 11 WEEKS.

THIS CHALLENGE OPEN TO THE WORLD.

WE take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge."

This secret process of temper is known and used only by ourselves.

These Saws are elliptic ground thin back, requiring less set than any Saws now made, perfect taper from tooth to back.

Now, we ask you, when you go to buy a Saw, to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other Saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best.

Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand.

It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work.

Thousands of these Saws are shipped to the United States and sold at a higher price than the best American Saws.

THE SUNLIGHT GAS CO., Ltd.,
Montreal, P. Q. :

GENTLEMEN,—I am in receipt of your letter asking me about the generator you installed in my house eighteen months ago. I have used it continuously ever since it was put in, and the longer I use acetylene gas the better I like it. It gives a much whiter and softer light than either coal gas or electric light. The machine has given every satisfaction, and I am very much pleased with it.

Yours truly,
C. H. WIDDIFIELD.
