MOTES BROMA. The following observations having reference to the preparation of Broma, appeared in a

in mercules of the Boston Medical Journal:—

A few years since a great manufacturer of Broma sought the opinions of many medical gentlemen of distinction, for the purpose of having an unobjectionable food for livelides, and was assured that he had fully suescied. Hospitals, infirmaries, and households generally, shall always be provided with it. When gruet, arrowers, groats, barley, starch, rice, farina, and many other control provided to tor patients are of noutility, the Broma is sometimes relished. It is believed that those who are it as a beverage will have manifest distetic advantage over the consumers of tea and coffee. We see it watage over the consumers of tea and coffee. We see it wated that during the hard summer those individuals who were continually using Chocolate or Brona is after had stacks of choice a or dysenteric affections, while others of the same families, taking their daily potations in tea, offer, or simple cold water, were the sufferers, if any,—We cannot vouch for the truth of this, but it has recalled to mind the statement that the oil dealers in London have been free from Cholera or the choleroid symptoms. And it has been farther observed that persons who were taking ood liver oil for chronic difficulties, during the revealence of the late epidemic, were not affected by it. Vegetable oil in the first instance, and animal oil in the last, taken internally, would appear, by these statements, to have secured those who took them from the shafe of the pestilence. It is certainly a point well worth while to determine, whether the chocolate drinkers have an secure in other infected cities."

Mot's Broma has now been before the public for a considerable period, and along with the commendations ad the statement that the oil dealers in London

rable period, and along with the commendations I slicar Falculty of this and the neighbouring Prowhich Malical Fatculty of this and the neigodaring Fro-these, it has received the approbation of all classes of consumers.—It is held to be an article of standard reputa-tion, and the demand for it is constantly increasing. —7-Soll Wide also for the Propertor, at Halyac, at MOR-TON'S MEDICAL WAKEHOUSE, near the Property
