The Dayton—made in Canada.

The Square Deal Scale

Every grocer must now carry an enormously higher-value stock. Your profits, though, are not any greater. Certainly you must get every fraction of every cent that is coming to you on everything weighable in your store. Otherwise loss—maybe bankruptcy.

Here's the way to instantaneous weight and value—absolutely and infallibly correct — use a Dayton Automatic Scale.

Don't drift—the man who drifts, drowns.

Times are changing. Efficiency counts more than ever. Let machinery do your work wherever you can. Let the Dayton Scale give you absolutely, infallibly accurate, visible weight and visible value. Then you are sure of getting what's coming to you. We send our new circulars gladly on request.
