aroline B. Nichols' Orchestra Warm ly Received Last Evening. The Hamilton Herald of yesterday,

says :- Notwithstanding the great excitement on the streets, to say nothing of the threatening condition of the weather, the Fadettes Orchestra, of Boston, which appeared in Association Hall last evening in connection with the Metropolican Course, was greeted by an audience which almost com by an audience which almost completely taxed the seating capacity of the auditorium. It was 9.30, however, before Mrs. Caroline B. Nichols raised her baton to conduct her clever organization of women players through the opening number, and consequently it was long past the hour of 11 before the delightful program was concluded. The orchestra is composed of a score of young women, who were arrayed in robes as varied in color as the most magnificent rainbow that ever adorned a midsummer sky, and they played in a manner which, to say the least, was indicative of careful training and diligent rehearsal.

diligent rehearsal.
Weber's splendid overture to Der Frieschutz was addmirably rendered, Frieschutz was addmirably rendered, and in response to a vigorous encore the orchestra struck a vibrant chord in the hearts of the audience by playing Soldiers of the Queen. Responding to another encore to The Dunce of The Hours, a catchy two-step was played. The two-lettered number for strings only was one of the most charming features of the program.

Miss Bertha Webb the violin soloist, displayed remarkable dexterity in Wienlawski's allegro movement from Second Concerto, and the tone revealed, though small, was pure and sweet, On being recalled she played that fav-orite selection among violin soloists,

Annie Laurie.

Miss Charlotte Lynn, who accompanied the orchestfa as a vocal soloist, has a prepossessing appearance and a voice of good quality and wide range. If the remaining six concerts in the course approach the standard of excellence of last evening's entertainment the subscribers will have reason to compaliment themselves on their insimpliment themselves on their

"Wherever she went she was welcomed by our officers, and it was a noticeable fact that disaster to our arms followed her friendship. A time at last arrived when she found it absolutely necessary to confer with the Berleaders. The Two Big Corporations in Canada Propose to Amalgamate.

Toronto, Nov. 8.—Negotiations have been proceeding for some time toward the amalgamation of the two large bicycle corporations which were incorporated a year ago—the Canada Cycle and Motor Company (limited) and the National Cycle and Automobile Company (limited). J. N. Shenstone, general manager of the former, when seen to-day, said that the negotiations were still pending, and it would be impossible to predict the outcome. If the matter is carried through the new corporation will practically control the bicycle business in Canada It is understood that the existing factories would be maintained from the outset, and increased in size if the outlook warranted. The Canada Cycle and Motor Comp ny is incorporated at \$2,500,000, and the National at \$2,000,000. One of the most fascinating stories of the war that have as yet found their way into print was told in the Daily News by that journal's brilliant war-It is the story of a woman whose remarkable personality, and still more remarkable cunning enabled her to play the part of Kruger's spy to per-fection, and to entrap British officers into parting with precious military secrets, the knowledge of which by the Boers was the direct cause of some Here is Mr. Hales' description of this South 'African witch:—

"She was a woman of about 30 years of age. Madame was of German or Swedish nationality, married to a Russian civil engineer. She was not a beauty, but her face was full of charm, her eyes had the gift of eloquence, and she could say more without opening her mouth than most women can impart who possess a tireless tongue. She could be gay or sad nathetic, pleading.

Horrible Toriures Were Inflicted on Poor Miss Mary Morrill.

At Last She was Hacked to Bits Outside Pao-Ting-Fu by Chinese Fiends.

Pao-Ting-Fu, Oct. 26, via Taku Nov.

-The awful fate of Miss Mary S. Morrill, the only one of the American missionaries about whose end there was any doubt, was revealed at the trial before the allied court, over which the French Gen. Bailloud is presiding.

Chinese fiends have a refinement of

ingenuity in devising agonies of which westerners have only a remote idea. They knew that the pure Christian woman could be hurt more by shame woman could be hurt more by shame than by physical torture. After making her watch the burning of the mission houses with her faithful male defenders in them, after compelling her to stand by while the streets ran with the blood of the native converts, they stripped her of her clothing and tied her by the hair to a long bamboo pole. Coolies forced her to march naked through the crowded streets of the great city.

The savage mob spat on her and threw vile refuse as she passed. The bloodthirsty Chinese soldiers devoured her with hungry eyes.
Through the miles of crowded streets she walked stained and bleed-

ing, bravely on, alone, to her martyr-A highly educated Christian China-

an who managed to escape the mas-sacre, and who witnessed the scene, told the court that her eyes were raised to the blue heaven with a look in them as if she saw it already open in them as it she saw it already open to receive her.

She was like Hypatia among the savage Christians of Alexandria, alone, naked, with death her only hope.

Outside the city walls her torture stopped. The indignities that they heaped on her were such as the devisin hell devise for the torture of damned souls — unorintable, untellable.

ed souls — unprintable, untellable. When the fiends had sated their malignant ingenuity, a soldier chopped off the young martyr's breasts with

to leave after the examination on June 15, but most probably will not. With the country in its present state it would not be expedient, to say the least, for girls and women to be on the road. Their large feet would at once show their affiliation with the hated foreigners. So we are bound to stay here and care for them....Of course, if the worst should come, we could only say that we are at our posts."

After telling of the killing of a Chinese general who had tried to sup-press the Boxers, and some unim-portant matters, she went on:—
"I am afraid it will not be so easy. to send away the girls. Some of them live in an infected district. Of course, if we could see them safe with their parents it would be easier for us to leave at a moment's notice. It may be that the bands that have destroyed the railroads will move in another direction. It may be that some check will be put upon their movements. SUGGESTIVE THERAPEUTICS.

The opening articles in the November "Suggestive Therapeutics" (Times-Herald, Bldg., Chicago), deals with the curative effects of deep breathing, and pleads for the establishment of a compulsory system of deep breathing exercises in the public schools. Such exercises, it is claimed, would eventually stamp out tuberculosis in the young and while so ing as a preventive in the case of strong and healthy children, would build up the weak and sickly to robust health. Methods of breathing are given. This magazine has been enlarged to 128 pages and presents a very diverse table of contents upon psychic aubjects by lay and medical writers.
