SERIOUSLY ILL.

John A. Stephenson, Duluth, Minn.,
who came to attend the funeral of his
father and was too ill to leave the
house, was removed to the Public Gen-
eral Hospital this afternoon, suffering
severely from influenza pneumonia,
which rendered him completely
helpless to-day. He had only dis-
missed the nurse who had been at-
tending him for three weeks a day
prior to revealing the message making
the sad announcement, and was deter-
mined to come with his brother Rufus,
who is similarly afflicted. They had
intended leaving for Mount Clemens
to-day, but this plan had to be aban-
doned.

Chairman Cowan called a special
meeting of the Industrial Committee
this morning to meet the representa-
tive of a large leather manufacturing
company, Robert Gray, of the firm
of Wm. Gray & Sons, introduced the
commercial man to the committee. He
had been looking over Chatham, and
was favorably impressed with the
place. The factories in Canada are
not manufacturing the goods required,
and large quantities have to be im-
ported from the United States. The
duty on leather, which is used chiefly
for carriage trimmings and furniture,
is 25 per cent. The factory would re-
quire a capital of \$100,000, five acres
of land and 50 hands would be employ-
ed to commence with.

HYPNOTISM.

Professor McEwen, the great Scot-
tish mesmerist, entertained a large
audience last evening at the Grand
Opera House. He had about nine sub-
jects on the stage, including a leading
city physician. Prof. McEwen has sev-
eral times circled the globe, has met
royalty and is a past master in the
art of instructing and entertaining,
and the audience last night were well
pleased and applauded the funny
things they saw. The mesmerist asked
for various subjects and nine men
responded. The professor told them
that they were getting sleepy and on
the instant they dropped off to sleep.
One man was sure he was a woman
and another was sure he was his child.
