ONLY WHAT SUCCESS

Faithfulness is not a very popular virtue but it is an exceedingly valuable one. Other qualities are more brilliant but none more indispensable. Nothing imparts more satisfaction to work or friendship than trustworthiness. And in Christ's thought this homely virtue is fundamental to life. Indeed, He seems to make it a standard of judgment. His question is not how successfully has one achieved, but—How faithfully has he tried? Men measure their fellows by the invisible, tangible, practical results they accomplish. The fortunes they make, the problems they solve, the machines they perfect, the knowledge they acquire; these are the things by which the world judges. But Christ sets his judgment seat behind all these, in the realm of motive and purpose and attempt and to Him outward failure might signify real success. Success is almost worshipped in these days. The marvellous examples of it in this land hold the public eye. So enamored of it are men that often the questionable methods employed in pursuing it are condoned if it is achieved. But real success consists in keeping the integrity of method and whoever does that even at the sacrifice of fortune, is worthier than he who attains power or wealth at the expense of manhood.

The real yellow peril—the cigarette stains on your fingers.

DR. TWEEIDIE'S POSITION

Surely the St John Freeman is not coming spurious news. True, dog days are never very prolific of interesting gossip, but that is no reason why the newspaper man should put on his thinking cap and invent a story which will scarcely pass muster with his readers. The Freeman solemnly declares that it is informed that Premier Tweedie will shortly retire from the Provincial Government and assume other lucrative duties. We are inclined to believe that the Freeman's source of information is a rather poor one. The man at the helm of New Brunswick's government today is in our humble opinion, the man, of all men, best fitted for the position and we would regard his resignation as an extremely unfortunate thing for the Province. Dr. Tweedie has a thorough grasp of all the details of his position and he is moreover an untiring worker. We would be very sorry indeed to see him step out at the present time and we do not believe that he will do so. We would like to add here and now that Dr. Tweedie's services have never been properly appreciated, either by his constituents or by the Province at large.

O genius, thy patrons more cruel than they.
First feed on your brains, then leave you to die.
We look for the day, however, when Dr. Tweedie's services will be appreciated at their true value. In the meantime, let us hope that he will continue to merit this simple eulogy.

BY THEIR FRUITS YE SHALL KNOW THEM

"At the session yesterday afternoon of the court of inquiry investigating the conduct of the troops at Statesboro, Ga., when the negroes were burned at the stake, Capt Hitch of the militia declared that he believed the men who seized him and hurled him down the

stairs to the mob below, which disarmed him, was a deputy sheriff. Two sergeants who were in the guardroom swore that Sheriff Kendrick himself had opened the door, unlocking it from the outside, and pointed out the negroes Cato and Reed to the mob."—New York Evening Post

This is truly shocking and when it is noted in the Post without comment our sensibilities of decency and humanity are further outraged. For the past six years the American people have been telling the world that their mission in the Philippines was the introduction of the most advanced civilization. If it is "advanced civilization" for sworn officers of the law to aid and abet a murderous mob and also for a President to remain dumb and inactive while these mob murders are being carried out the resistance of the Philippines is not only justified but should be regarded as a sacred duty.

GIVE ALL A CHANCE

In the course of Judge Alton B. Parker's argument against a second term as President he declares that no man's course should be influenced in that high office by the thought of its effect on a future election. Judge Parker is quite right. But in our opinion there is another and far more important reason why a man should not play his cards so to speak for a second office as President. The United States with its 70,000,000 million people has probably one thousand men who are just as capable of filling the chief executive office, as for instance either Judge Parker or Theodore Roosevelt. These one thousand men are ambitious and would quickly accept the nomination of their respective parties for President. But what chance have they if every president is desirous of a second or a third term? Very little indeed. At least 999 per cent. have absolutely no chance at all to fill the highest position in the gift of their fellow countrymen. The same thing is relatively true of the premiership of Canada. No one man has a moral right to hold either position longer than his first term.

Mr. MacNeil might now give us a trip on the date of the elections.

ROOM FOR MORE.

The figures published by the Dominion Statistician as to the extent of the pulp industry in Canada show a remarkable development in a comparatively new field. The industry during the calendar year 1903 was carried on by 39 mills, which had an output of 275,619 tons of wood pulp. Of this quantity 187,871 tons were mechanical pulp, 84,808 sulphite, and 2,940 soda. The corresponding quantities for 1902 were: Mechanical, 155,210 tons; sulphite, 76,735 tons, and soda, 9,044 tons. This shows an increase of 34,630 tons in 1903. The increase in sulphite was 8,073, and in mechanical 32,661 tons, soda showing a decrease of 6,104 tons. The total value of the output of 1903 was \$5,219,892. This according to the Toronto Globe would have been considerably greater but for the collapse of the Sault industries of which pulp-making was one of the most important. And to think that in New Brunswick, the richest timber province in Canada, we have but one pulp mill in operation on a paying basis.

THE MAN BEHIND THE GUN

Mr. A. C. Bell, the Conservative member for Pictou has given up his private business to take charge of his party's organization during the approaching election campaign. It all depends upon the man behind the gun. It remains to be seen whether or not Mr. Bell's gunnery is good or bad. Of course the gun is not defective

TWEEDIE SHOULD BE PROUD OF HIS ENEMIES

"The stumpage on fir has been reduced at the demand of the Lumbermen's Association from \$1.25 to 80 cents. The prospect is that the cut this winter will be fully fifty millions less than last season. This will reduce the anticipated revenue by \$62,500, and increase the customary deficit accordingly. The successors of the men now in office will find the treasury empty and every source of revenue, except direct taxation, exhausted."—Chatham World.

Some men's principal amusements in life is predicting a panic. To be a calamity howler seems to be natural to some. And in this instance there is a similarity between the World man and the Phillistines of old who repeatedly declared that a clean thing could not come out of Nazareth.

THE REAL YELLOW PERIL.

"The romance begun at church social three years ago, when Dr. Tang Yawn Fong a Chinese dentist of 33 Harrison Avenue, was accompanied in his song by Miss Alice Georgianna Murrie, of 691 Washington Street, Dorchester, culminated last night in the wedding of the dapper little Oriental and his brown-haired, sweetheart."

This is the romance which Boston supplied last week. We hear a great deal nowadays about the "yellow peril". In our opinion the only real yellow peril lies in the marriage of American girls to Orientals. It will be considered such some day.

We welcome Sir Wilfrid Laurier to the County of Bonaventure as the foremost citizen of Canada.

Visit to Escuminac

On Wednesday of last week Rev. Geo. S. Anderson left Escuminac, P. Q. for Douglastown, N. B. to spend a week with his father before returning to his congregation in Somerville, Mass. For the past four weeks he has been summering in the Glen, near the home of Mr. Wm Jamieson, almost an ideal resting place. On a rising ground with the mountains encircling on nearly every corner, there is a grandeur of scenery here which for one to fully appreciate must be seen and once seen will not be forgotten.

Mr. Anderson has been tenting and evidently enjoys the place, for now after six years experience he has decided to build a summer cottage.

With him were several friends from Somerville, Mr. Ogilvie, Mr. and Mrs. Pearson, and Mrs. Hamman were his guests and they will all be welcomed back by the people of Escuminac and vicinity.

On Thursday evening Aug 20th Rev Mr. Anderson, who last spring visited the Holy Land, gave an exceedingly interesting and profitable description of his travels with special reference to Jerusalem.

Visitors like Mr. Anderson and his friends have an uplifting influence on the whole community, for, though on vacation, they are willing to help in every good work and do not, as many visitors do think only of their own enjoyment and welfare.

Archbishop of Canterbury Arrives at Quebec

Quebec, Aug 28—The Archbishop of Canterbury, accompanied by his wife, Rev. Mr. Holden, domestic chaplain, Rev. Mr. Ellison, vicar of Windsor, and J. Pierpont Morgan arrived this morning from New York.

His grace was announced to preach in the cathedral, which was filled to overflowing before the hour of the service. When the clergy had taken their seats in the chancel an address of welcome was read by Bishop Dunn. His grace replied as follows:—

"From my heart I thank you

for this warm and inspiring welcome. I am happy to know that my first official act in this western world will be in the humble thankfulness for the work carried on for 100 years within the walls of the cathedral of Quebec."

FIFTEEN KILLED

Terrible Railroad Accident on Grand Trunk

Sherbrook, Aug 31st—One of the most serious railway accidents which has occurred on any of the railway systems passing through Sherbrook took place this morning at 11 o'clock about one mile this side of Richmond, when a head-on collision occurred between a special passenger train from Montreal and intermediate points on the Grand Trunk, enroute for Sherbrook fair and No 5 passenger train from Island Pond to Montreal. A special train with Drs. Worthington, Lynch, Austin, Smith and Williams, with nurses, left the Grand Trunk station for the scene of the accident at half-past 11. Nothing can be learned here from the officials, although they admit that several have been killed, and the injured have been moved to Richmond and located in the residences throughout town.

The most seriously injured will be brought to Sherbrook. There is great excitement at the Grand Trunk depot, as many are waiting for friends who were coming out to the exhibition on the special, and they are uncertain as to whether they are among the dead. Among the killed is Mr. Blanchet M. P. of St. Hyacinthe.

A message over the private wire of Mr. D. C. Clinch says fifteen persons were killed and many injured.—Globe

TWO SCHOONERS ASHORE.

BATHURST, Aug 30.—Schooner Senovar, 39 tons, and Schooner Lydia Rider 57 tons, of Arichat, C. B. left West Point, P. E. Island on Aug 20th. Both vessels were in ballast and bound for New Richmond, Quebec to load Railway ties. On Sunday 22nd the vessels went ashore at St. Mary's, twelve miles from Miscou, during thick weather, the captains being misled by the tides. The vessels went ashore within fifteen minutes of each other and are lying about two hundred yards apart. The captains and crews of the two vessels reached here last evening by the Carquet Railway and were sent to Mulgrave this morning.

THERE'S JUST ONE SHOE

And that is the Victoria shoe for Women. The stylish appearance, the perfect comfortable fit, the unexcelled wearing quality will convince you that the Victoria shoes are in every way equal to shoes that cost one dollar more. It will pay you to call and examine our new fall lines which are arriving every day. Fall Rubbers now in stock.

At McRAE'S SHOE STORE.
