CHASE & SANBORN,

SOME TYPES OF NEGRO SONGS

of Recent Years.

Not at All Characteristic of the Race-Melodies That Are All But Forgotten.

"Did it ever occur to you that we have had in this country during a little more than a half-century, three distinct types of negro songs?"

The speaker was a retired minstrel performer of the old school, who has been spending a few days in Washing-

ton, says the Star.
"Perhaps it would be more correct to Bay two, for the so-called 'coon' or 'ragtime' songs are far from typical of the American negro," he continued. "The first that I would speak of are the ante-bellum melodies of the type composed by Stephen C. Foster, 'Old Elack Joe, 'Down on the Suwanee River, 'Massa's in the Cold, Cold Ground,' 'Off for Charleston So Early in the Mornin',' 'Old Uncle Ned and 'Down Mobile' are of the class to which I refer. They are songs that depict to a considerable degree the conditions of the southern negro in the days before the war, or suggest something of his feelings during that period. The melodies of not a few of those songs are, of course, familiar to the present generation. Foster's melo-

They are the songs that were inspired by the conditions obtaining during the recon-struction period, and which met a hearty response up to about the year I have mentioned. Who of us older fellows won't recall with pleasure Ned Harrigan's old words with the sweet melody of the late lamented Dave Braham?

"There was a negro song of the per-iod that went far toward building the national reputation that came to Harrigan & Hart. The people of the north during the reconstruction period were in a mood for such songs, and there was a multiplicity of them, just the same as there is a superabundance of 'ragtime' songs today. Why, who of the preceding generation doesn't remember the time when, with rapturous pleasure, he sat in the theater and listened to the old negro's plaint, the chorus of which was:

'Take me back to old Virginny, Dere's where de corn and de sweet pertaters grow;
Dere's where de moon shine so bright
in my childhood;
Dere's where dis poor old darky's
heart am long to go.

"The melodies and the words were turned out by song writers with rapidity, and many of them were good and had remarkable sales. As I said before, there was a demand for them during the dozen or so years following the civil war. Another song that had a long run in the minstrel shows of that period, and was played by bands and orchestras and whistled in the streets, was that in which an aged darky was depicted as recalling former days on 'de ol' plantation.' I remember one verse, and I remember what a hit it made when it had its initial production in the 'first part' of our show. It

Mr. W. H. Bartram, barrister, of London, has been informed that Colonial Secretary Chamberlain cannot interfere in his complaint of the action of Chief Justice Strong, of the Supreme Court, in the case of King vs.

Mr. J. M. Gibson, attorney-general for Ontario, has introduced a bill amending the Jurors' Act, allowing counties to combine their assize and sessions and use the one jury; also to notify jurymen six days before the date of the court in the event of no cases being on the docket that they

need not attend. A charming collection of poems by Hon. David Mills, minister of justice, has just been published in Ottawa. There are thirty-two pieces in the little volume, all of more or less merit. Some of them have a beauty and charm which strikingly reveal the fine mind and poetic genius of the author. One of David B. Hill's first lawsuits was a non-jury case, in which the op-posing counsel was one of the best attorneys in New York State. Hill made a speech which lasted about three hours. It was such a speech as might be expected from a young lawyer, and it was very trying to the court. After he had finshed, his opponent arose and said: "May it please the court, I in-

tend to follow the example of my young friend and submit the case without argument." Hill lost the case. A celebrated lawyer in Nova & stia, who writes under the nom de plume of "Juvenis," is noted for his carelessness in dress, which fact annoys the members of the bar exceedingly. Entering the court room upon one occasion minus a necktie, the judge reproved him saying that the law required him to wear one. "Oh, yes, your honor, I know it," was the ready answer, "but it does not say where to wear it." As he spoke he pulled it out of his trousers pocket. The court was too busy repressing a smile to allude further to the matter.

THE MARRIAGEABLE AGE. In Germany a "man" in order to marry must be at least 18 years of age. In Portugal a boy of 14 is considered marriageable, and a "woman" of 12. In Greece the "man" must have seen at least 14 summers and the "woman" 12. In France the "man" must be 18 and the "woman" 16. In Belgium the same ages. In Spain the intended husband must have passed his 14th year and the "woman" her 12th. In Austria "man" and a "woman" are supposed to be capable of conducting a home of their own from the age of 14. In Turkey any youth and maiden who can walk properly and can understand the necessary religious service are allowed to be united for life.-Detroit Free

Rochester, N. Y., Feb. 25 .- As the result of a collision on the Auburn branch of the New York Central seven miles west of Auburn, between westbound passenger train No. 211 and a steam derrick late last night, seven trainmen are dead and two others missing. AN AWFUL CRASH, followed by the sound of escaping steam, and then silence.
Conductor George Killip, of this city, of the passenger train, hastened forward. Scattered about was the wreckage of two engines, which were so badly smashed that it was impossible to tell one from the other. From the head end of the train could be heard cries for help, and, assisted by passengers from his train, Conductor Killip began the work of rescue.

morning. The deceased was one of the familiar figures on the streets, as, owing to the loss of both legs, he was forced to go about on crutches. He went to Windsor in 1894 from Toronto to practice his profesion. He was born 56 years ago at Goderich, and, after being admitted to the bar, he commenced practicing at Port Arthur. He removed to Toronto, and from there to Windsor. He is survived by two daughters and a son—Miss Helen, at Montreal; Miss Frances, at home, and John G., at Ayr.

The oldest litigant who has appeared Engineer Heisman and his fireman, of the passenger train, were PINNED UNDER THE WRECKAGE and after an hour's work were taken out dead. The other dead men were removed from the heap of wreckage at various intervals and tenderly laid alongside the track to await the wrecking trains which were sent out from Rochester, Geneva and Syracuse.

HOW IT HAPPENED. From all that could be learned in this city this morning, the westbound passenger train had the right of the track from Aurelius, and had instructions to meet first No. 236, the eastbound passenger train at that point. This was done and after the eastbound passenger train passed, the westbound passenger train again started for this They were late and were going at a fast rate of speed when the two trains came together. LUMBERMEN LIKELY TO SPREAD SMALLPOX.

Vigorous Protest From Health Authorities at Ottawa-A Windsor "Suspect."

Toronto, Ont., Feb. 25.-Dr. Bryce this morning received from the Ottawa health authorities a vigorous protest against what is said to be the chief cause of the continuance of smallpox at Ottawa-the permitting of lumbermen to return home from camps where they have been exposed to the disease. There are 25 cases still in Ottawa, and when there is a general break-up of the camps there may be a hard fight in the capital. Dr. Bryce has sent Dr. Hodgetts up to the lumber district with orders to vigorously enforce quarantine, and see that no one is allowed to go out while in a condition to

spread the disease.
Windsor, Ont., Feb. 25.—A suspected mild case of smallpox was discovered at the Sandhill Hotel, five miles from Windsor. The victim is a child, and is supposed to have caught the disease from a colored man who came from unknown parts a few days ago, to work for a farmer named Ouelette. The hotel and several houses in the vicinity have been quarantined.

FOR CHILDREN-If your little boy or girl comes home from school or play with a sore throat, the first thing to do is to rub the throat and chest with Omega Oil. There isn't a bit of

danger in using it freely, for there is no turpentine or ammonia in it. A whole barrelful of it would not burn or blister the tenderest skin. Children like to have their mothers rub it on them, because it smells so nice and is such a beau-
