The Expenditures. Sir James Whitney presented to the Legislature the estimates of the expenditures for the ten months ending on Oct. 31, following the change in the fiscal year. The estimated expenditure for the ten months is \$6,943,661. A close comparison of these estimates with those of last year would be difficult. Practicaly the estimates are the same as for last year, when for the twelve months the estimated expenditure was a little more

than \$7,000,000. The largest item in the estimates is he expenditure for education, showing that the Government will again pursue its active policy in that regard. For education the expenditure for ten months is estimated at \$1,521,356. Public institutions and maintenance call the following sums are set aside for Stenographers and portress (3).... for an expenditure of \$1,016,270. Colonization and mining roads call for an expenditure of \$443,344. For public buildings there will be spent on capital account the sum of \$764,611 and for public works \$122,185.

Many Supplementaries.

As the estimates are for ten months only, there will be a second batch of estimates for the twelve months, following Oct. 31 of this year, brought down before the House adjourns, and there will also be quite a number of supplementaries, as was stated by the Hon, Mr. Matheson when he explained his bill to change the end of the fiscal year. The Provincial Treasurer deliver his budget speech on Thursday afternoon By investigating the amounts estimated for different items, it is seen a half-pint of good whiskey. Shake a cold tends to leave the respiratory that the expenditures are almost similar to those of last year. Severa new appropriations have been made.

# Headed for Spring

We have been moving in this direction for some months. While our buyer has been searching the European markets since the first of the year, we at home have been making ready to receive and distribute our portion of the spring fashion creations, by clearing winter stocks and preparing for magnificent displays of new goods, which are pouring in from day to day. It will make little difference now, be the weather warm or cold, spring is the keynote, any if you want a new outfit, you know from past experience you must get in early to have it for spring wear. After all, we do not create the demands; this is left to the public and leaders of fashion who take their cue from Paris and other European centres. Our part is to supply the demand, to have what you want, and to have it when you want it. Begin now
