A Projected Railway.

in greater need of Railway communication, than the fruitful and well populated district lying between this city and are limited, as the river is not navigable I for a craft of any size during the dry season. In the winter, the people of these parishes are entirely cut off from intercourse with the rest of the world, and it is no wonder that they have heard with much gratification, that the Dominien Government, urged on by the influence and importunity of Mr. Temple, M. P., have recognized the justness of their demands. While the subsidy granted, provides only for that portion of the line between Fredericton and Prince William a distance of twenty-six miles, we are assured, that at an early tural districts in New Brunswick, and is settled by a most intelligent and deserving class of people. Apart from the accommodation the railway will afford for the shipment of farm produce, it will furnish an outlet for the products of the Antimony Mines at Lake George, which are again starting up with increased vigor. The shipment of hemlock bark, sleepers and small lumber are also important industries along the proposed route of the railways; there are some important and growing manufacturing establishments in the districts through which it will run, one of 'them being Messrs. Hill & Berry's sash and door factory and saw mills at Pokiok, and the local traffic for the road from these will be considerable, while the through traffic between this city and the up river country, will naturally seek this new means

in Parliament. We subjoin from Hansard, the official record of Parliament, the short debate that occurred when the subsidy for the new railway was introduced.

"For a railway from Fredericton to two miles, a subsidy not exceeding \$3, 200 per mile, not exceeding in the whole,

tion of which district are cut off from railway communication by the St. John River, the New Brunswick Railway running down the try is well settled and a large area is under

WELDON, St. John.-When was the ocal subsidy granted?
MR. TEMPLE, York.—One of the directors told me it was granted in 1885—\$3,000 a mile.
This road is a most important one for this on whatever, and during the summe wise the people are completely isolated. I hope this grant will pass, because the road is very much needed. It makes connection at and is also a short line from Riviere du Loui to St. John. When the link is built from Riviere du Loup to Edmonton, it will form part and parcel of that line, and it passes through one of the best sections of the

a strong case in favor of the subsidy.

Mr. C. W. Weldon of St. John, the leader of the Grit party of five from and there was a general exclamation from the Then there came a tantalizing hush within the walls, which was soon ended by the strains of the bridsl chorns from "Lohengrin," and it was thereby known that the ceremony was over. About half-past 6 o'clock the wedding guests began to arrive, their carriages rolling

western corridor on the upper floor, the President came slowly down the western stair case with his bride LEANING ON HIS ARM.

They were unaccompanied, even the bride's mother awaiting her with the other guests. Passing through the central corridor the bride and groom entered the blue room and took a position near its southern wall, which was completely hidden from eight by a mass of nodding palms, tropical grasses and an in iless variety of choice flowers. Three crystal chandeliers poured a flood of mellow radiance chandeliers poured a flood of mellow radiance upon the scene, and the colors of the massive banks of scarlet begonias and royal jacqueminot roses mingling with the blue and silver tints of the freecoed walls and ceiling gave a warm and glowing tone to the whole brilliant interior. The delicate ivory shades of the bride's wedding gown found an exquisite setting in the masses of crimson roses immediately beyond. The President was in full evening dress, with turn-down cullar, white lawn necktie and white enamel studs. A full capacity. hush fell upon the assemblage as Dr. Sunderderland stepped forward to his position fronting the wedding couple, with the Rev. Wm. Cleveland, the President's brother, at his left rogation, the last items of supply were being run through, and in discussing the items for

> deliberate atterance, the doctor went through the simple and beautiful wedding ceremony.
>
> At the conclusion of the ceremony Mrs. folsom, showing traces of deep emotion, was the first to tender her congratulations to the newly married pair. She was followed by While the congratulations were in progress, the band under the leadership of Professor Sousa, performed the bridal chorus and march 'Lonbengrin," and to this music the President and his wife led the way into the east room. The adornments of this poble hall were in keeping with its majestic proportions, and its ample space and brillians illumination afforded an opportunity for a fit-ting display of the ladies' toilets.

hand. In a distinct tone of voice, and with a

From the east room the company proceeded after a season of promenading and conversa-tion to the family dining-room of the mansion, where the wedding supper was served There was no formal order observed in the supper room, but a collation was served and the guests sat at the small tables or slowly promenaded the room as they discussed the menu and chatted over the event of the evening. The elegantly designed souvenirs of satin boxes containing dainty slices of the tion is usually taken advantage of at the end of a Parliamentary session to have a little fun, and perhaps Hon. Mr. Mitchell was only in fun when he opened the show by rising to

> SLIPPED AWAY TO HER ROOM and changed her wedding dress for a heavy gray silk travelling dress. She then returned to her company and was soon afterwards join-ed by the President, who had in the meantime changed his dress suit for a travelling This was about 8.30 o'clock, and good-by" to their friends and left the house brough a private exit from the red room into the south grounds. A close carriage awaited them, and as they entered the carriage was driven directly to the Baltimore and Ohio railroad station, where a special train was in siting to take the President and his bride to Deer Park. They were escorted through the station and into the car provided fo them without attracting attention, and at 9 clock the train started off to its destination.

Just as the wedding ceremony began, a precidental salute was fired by a battery of artillery near the river, and the chime bells of the Metropolitan Church pealed forth the Mendelsschn wedding march, and bells in other churches joined in the happy salute. Contrary to expectations, the President wore white white gloves at his wedding. The gentlemen present at the wedding were no fortunate enough to receive a salute from the Othberwise the ceremony was orthodox in to the direction indicated, and then blushed

> The late Wm. H. Vanderbilt is reported be contented and settle down to enjoy him-self. To own more than \$500,000 will Catalogues and Monthlies free upon make any man a slave." If farmers and others continue to buy dust

and ashes put up in big packs and sold for condition powders it won't be our fault. We have exposed the swindle time and again. know of worth carrying home. The velocity of light is 192,500 miles in s second of time. It travels from the sun to the earth in seven seconds and a half. It

moves round the earth's surface, a distance of nearly twenty-five thousand miles, in the one-eighth part of a second. Mr. Wm. Boyd Hill, Cobourg, writes: Having used Dr. Thomas' Eclectric Oil for

some years, I have much pleasure in testifying to its efficacy in relieving pains in the backs and shoulders, I have also used it in cases of croup in children, and have found it to be all that you claim for it. During the Queen's stay in Liverpool the

Volunteers who kept the line of route were paraded early in the morning, and were kept standing for five hours in the rain in one coat, and some of the police were on duty standing for nineteen hours with nothing to

The following are the latest figures of the strength of the French army. There are 18 corps d'armee, comprising 450 battalions of infantry, 153 squadrons of cavalry, and 324 batteries. The total effective force is said to be: — Officers, 18,738; men, 671,292; horses, 500,092; guns, 1,844; carriages, 38,-

An Irish lady who is the owner of property valued at between £400 and £500 a year, applied to the Kilkenny outdoor relief bureau apply for aid, but was unable to obtain her rents, and only asked for a shilling a week for a few months. The members of the board, request, but offered an order admitting her to the workhouse.

The Black Sea fleet has taken a wonderful

perhaps, not excessive, considering her boxes, 123 in number, containing her immense wardrobe, which she will have to transport hither and thither. She brings with her a large retinue, including six maids, her son, M. M. Bernhardt, her sister and her son.
