I was an imaginative, romantic lad of eighteen when I first met Sydney Lorimer, at me. Then she pointed to Lorimer, and accepted him at once with effusion as I understood that she wished to speak to the hero I was waiting for. He was the him. the hero I was waiting for. Lorimer never gave himself any airs, never asserted his supremacy; in fact, he was hail-fellow-well-met with us all, from Brackhorse Brackhorse are leading trace.

enjoyed our stolen walk amazingly. Everything combined to make it harmonicous; the blue sky overhead, with the sun coming through the transparent green of the young leaves; the flowers at our feet, and last, not least, the cheerful mood Lorimer happened to be in that day, which, of course, I fell in with at once.

I never saw him so merry. He hughed and he joked and trolled out snatches of student songs in his rich full baritone voice, and told me some queer stories of his college days, until we fairly grew tired of jollity and trudged along for a while in silence.

Suddenly he declared himself tired, and lay down under a tree to rest. He must have a sleep or he couldn't walk another step. I was anxious to walk on, fearing to loss the train, knowing that the morning one would land us at B. too late; but Lorimer was too masterful for me, and soon overruled my weaker will. It was growing dusk, but the moon would soon be up, and then it would be pleasanter going on; there was plenty of time, and if we didn't catch one train there was always another, and life was too short to hurry, and the first of the worst description. A very imprudent thing to do, to lie on the damp ground, with the dow falling as it does fall in wooded places at sunset; but I never thought of that. We were young, and things do not seem to matter so much then.

then.

I sat watching him a long while, and was surprised to see what a change came over his features in sleep. The gay, careless expression died out from his face, and he looked years and years older. You could see that it was a mask of gaiety he wore habitually, and that the real man behind it had known sorrow and trouble and sadness. The sadness infected me unconsciously, and as I looked I sighed.

What was that?

My sigh was echoed by another close at hand, and as I started and looked round I became aware that we were no longer.

From out of the gloom formed by the mass of foliage beside me a figure came quietly on this it reached Lorimer, when it stood looking down on his recumbent form, without speaking a word. How she startled me! Where had she come from, as quietly and stealthily as a shadow?

The light was not very good, but she was near enough for me to see that she was very young and very pretty. Such a sweet pale wistful little face, with dark curling hair and soft sad eyes, that I could not take mine away. It fascinated me, and yet it awad me somehow, like a face seen And still she stood there motionless, and

with the rest of us. He had an idea, I think, that Lorimer was only doing a bit of sating for love of adventure, as so many swells do nowadays, and that at some future time it might prove advantageous to stand well in that quarter. It would not be politic to offend a possible Duke's son by swearing at him for unpunctuality or for not being well up in his part.

And yet, after alt, the poor man's patience must have been tried many and many a time, for a more careless, erratic, unreliable fellow than Lorimer never existed. I liked him better than any one in the company, but I could not help wishing he would be steadier. There were times when it really seemed as though the devil entered into him; he could not rest, he could not study, he must be in some mischief or other.

"What is the use of you talking to me?" he would say in answer to my feeble remonstrances at such times. "You are only a boy; you'velnever lived yet, Itell you I must have excitement of some kind or I'll go mad. I must forget."

And what could I say? I was only a boy, and he was so much older and more experienced that it seemed presumption in me to preach prudence.

boy, and he was so much older and mide experienced that it seemed presumption in me to preach prudence.

But still I believe I had a good influence over him, though it might be merely a slight one. I was the only one of the company he ever talked to about himself. He flirted desperately with the women, and he drank freely with the men, and yet none of them came near his real self but me.

Not that he was communicative about his past-life or his belongings; only that he did not seem called upon to keep me at such a distance as the others, nor did he snub me for my questions I might ask. To be sure, I was not vulgar enough to go on showing curiosity where I saw it hurt; and besides I was, as I said before, romantic, and rather liked an air of mystery to curround my friend and hero.

He was not, and never would be, a great actor. Better for him in many ways it would have been if he had possessed that wonderful gift which, for want of anything better, we call genius.
