**NOTE AND COMMENT**

Modern homes seem to be equipped with everything except the home instinct.

The average woman has a vocabulary of only eight hundred words. It is a small stock, but think of the turn over.

Ontario will obtain this year revenue from the rake-off on race-track betting amounting to at least two and a quarter million dollars.

What's the matter with all Ontario towns and cities having the same day for the observing of Civic Holiday? It would be more satisfactory to all classes.

A prominent lecturer asks: "How much shall we tell our daughters? But the real question seems to be: 'How much will our daughters tell us?'" —New York Evening Mail.

In all classes of society, as well as in newspaperdom, the most despised individual is the anonymous letter writer, the snark who has not the courage to come out boldly, but strikes from ambush.

The revived report of the ex-Kaiser's approaching wedding recalls the old saying that no man is ever so low, mean, wretched and generally of no account that he cannot find some woman to share his miserable state.

Examination has shown that cement structures subject to the action of alkaline waters, particularly in the Western provinces, are slowly disintegrating, and a committee of scientific experts has been appointed to investigate.

The headline, "Wheat Falls Below Dollar," is in the papers again, but the public has learned that this will have about as much effect on the price of bread as spots on the sun," says The Detroit News. There appeared to be some misunderstanding about the celebration of Armistice Day and Thanksgiving Day this year, as to whether the anniversaries would be observed on separate days. Kitchener Record:—There are few young men nowadays who show habits of thrift and economy. There is a disposition to spend rather than save, and through love of personal adornment, expensive habits, and a lack of that desire to lay aside funds for a rainy day, our young men are not acquiring a reputation for forwardness, which might prove of inestimable value to them in the future. We

would not desire them to be mean or selfish, but there is a happy medium between a spendthrift and a miser.

Acton Free Press: "Gossip, as well as every other kind of evil speaking, lives on encouragement. If you don't love hearing about your neighbors' faults, scandal mongers will learn to avoid your presence. The north wind driveth away rain, so doth an angry countenance a blackbiting tongue." Next to the whisper, the man or woman who listens to idle gossip is a menace to society. The man who talks to you about his neighbor will have as much to say about you when your back is turned. When you find yourself enjoying the wag of a vicious tongue, it is time to look inside and ask yourself what manner of man you are."

**NEW IDEA IN TOOTH TREATMENT**

For many years scientists have been endeavoring to evolve a really effective method of cleansing and polishing the teeth, but credit is now given to The Nyal Company Limited of Windsor, Ont. for having discovered the perfect dentifrice.

This new product is called NYAL PUMODENT—the modern Tooth Treatment, and consists of a Polishing Cream and a Tooth Paste in one package. The polishing cream contains powdered pumice and other special polishing ingredients which keep the teeth clean and bright, while Pumo-Dent Tooth Paste prevents acid mouth and similar conditions which cause tooth decay.
