LEGISLATION.

The Dominion Parliament has been in session about a fortnight, and the Local Legislature of our own Province will meet for "The despatch of business" to-morrow.

Matters of very great importance may be offered for the consideration of our legislators upon which action will be taken; and if these matters, both in discussion and decision, could be dealt with on their own merits and bearings, irrespective of party, judicious and beneficial action would be the result.

In all countries where representative system of government and popular immunities are enjoyed, there will necessarily be party influences; and the party which is most powerful as respects popular favor and support, will hold the reins of government.

In all lands, where government is carried on and controlled by popular influences, the majority must rule; but public affairs, though managed by a party, should not be exclusively carried on for a party.

Views of public questions, or principles of government, honestly entertained by individuals or minorities should be treated with courteous consideration and conciliatory respect.

Moderation, as respects party, by the ruling power, entitles it to favorable appreciation, and strengthens its own stability. The masses of the people, of all parties, indignantly deprecate governmental partiality when it becomes glaringly oppressive.

Mr. Ruffee was born in this town and we congratulate him upon his appointment; the salary attached to the office is over \$2,000 a year and is one of the best offices in the gift of the President.—Ed. Moy.

will be party hostility to every measure, good or bad, that will be propounded by the opposition, or submitted by the Government.

The Great Cause of Human Misery. We have recently published a new edition of Dr. Calverley's well known and celebrated Essay on the radical and permanent cure (without medicine) of Nervous Debility, Mental and Physical Incapacity, Impediments to Marriage, etc., resulting from excesses.

Price, in sealed envelope, only 6 cents, or two postage stamps. The celebrated author, in this admirable Essay clearly demonstrates, from thirty years' successful practice, that alarming consequences may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure as simple, safe and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

Middleton Corner CHEAP CASH STORE. JANUARY, 1878.

THE subscriber in returning thanks to the Public for the very liberal patronage bestowed the firm of Phinney & Smith, respectfully solicits a continuance of the same. I shall be constantly on hand to serve all the old customers and as many new ones as may favor me with a call. I hope to keep up a good reputation for square dealing and strict business principle, thereby making friends of my customers.

Although unable to advertise or offer such enormous accounts as some of our country store keepers, I can safely say that I am prepared to sell as low as any of them, and selling altogether for cash can give my customers the full benefit of the extra percentage necessary to carry on a credit business. So as to make room for a heavy importation in Spring, I have determined to close out my stock of Winter Goods at

Reduced Prices. It is needless to enumerate the articles, as I have a general assortment of Staple and Fancy Dry Goods, CLOTHING, Boots, Shoes, &c., But wish to remind you that my stock of DRESS GOODS, DRESS TRIMMINGS, Mantle Cloths and Trimmings, Men's Suitings, OVERCOATINGS AND READY-MADE CLOTHING, is extensive, new and well selected. Call and examine Goods and Prices before going elsewhere. I take great pleasure at all times in showing goods to an appreciative people. As usual I shall take COUNTRY PRODUCE in exchange for goods and give as high a cash price as possible. TERMS—STRICTLY CASH. J. HENRY SMITH & Co. NOTICE.
