# CANADIAN SUPER-PHOSPHATE

## A STANDARD MANURE

### FOR ALL FIELD AND GARDEN CROPS.

It matures Crops from Ten to Twenty days earlier, and greatly increases the yield.

ONE TON is equal to *Two Hundred Loads* of good Farm-yard Manure.

Lands exhausted by long cultivation are made productive by the use of this Super-Phosphate.

It supplies to the soil those substances that are taken out by cropping. It is in fact PLANT FOOD, and when it is used, the land continues to improve each year, and to require a less quantity to produce the same amount of results.

GRAIN, VEGETABLES or FRUIT produced are of superior quality. When used on pastures, the cattle will feed where it is applied in preference. The milk of cows that feed upon this grass is much richer.

It gives WHEAT a *firmer stalk*, so that it is not liable to lodge before ripening; produces a larger head and plump kernel; and is rarely affected by either *rust* or *midge*. RYE, BARLEY or OATS are equally benefited.

It gives CORN and PEAS a dark green color, and a vigorous growth, and causes them to ripen at least *ten days earlier*.

It quickens the growth of TURNIPS, *keeps away the fly*, and the increase of yield is remarkable. The same is true with CARROTS, BEETS, and other Root Crops.

It keeps away the maggots from ONIONS, and has produced a yield as high as 800 bushels per acre.

To TOBACCO the Phosphate gives a vigorous growth, a well-developed leaf, and protects it from the worm.

It improves the quality of the Fruit of GRAPE VINES and FRUIT TREES; also of STRAWBERRIES and other Horticultural Fruits.

Its effects upon FLOWERS and upon LAWNS surpass that of any fertilizer.
