Scientific and Aesthetic.

A GOOD rule to follow when boiling corned beef is to allow half an hour to the pound after it has commenced to boil.

If any refreshments are kept in the sick-room they should be kept well covered. Jellies, Blancmanges and various liquids used as cooling drinks are more or less absorbent, and easily take up impurities which float about a sick-room.

POTATO SOUP.—Put two ounces of butter into a saucepan, cut two large onions into slices and fry a nice brown in the butter; add three pints of milk, and mix smoothly with it one pint of mashed potatoes, pepper and salt to taste; heat it almost to boiling point, and serve with dried herbs.

TO CLEANSE HEN-ROOSTS.—To rid hen-roosts and pigeon-lofts of insect which prey upon the birds, put two ounces of sulphuret of carbon in a bottle and hang it uncorked in the hen-house or dove-cote. Replenish about once a week; the cost is small. It will not injure fowls. It is a French remedy, and said to be infallible.

THE Ontario Government have had the Parliament Buildings cleaned, papered, painted, refitted, and carpeted, the latter being furnished by Pettibone & Pelley, the leading carpet-dealers in Toronto, who are furnishing nearly all of the new houses now being erected in the city, as well as a large number of houses throughout Canada.

CLEANING RAG CARPET.—Take clean boards, or a well scrubbed floor, and lay the breaths of carpet on it. Scrub it with a brush and hot soap suds, first on one side, then on the other, and rinse it in three or four clear waters; then hang it out to dry. A lady says she don't take her carpet up, but cleans a length of carpet at a time, and dries it with a cloth. Another does not rip hers apart, but scrubs it with a broom, as you would a floor.

AN advocate of cotten belts says: "Woven belts give and take. This is in the nature of a woven material. When first put on, they require 'taking up' once or twice more than leather. The stretch is approximately six per cent. as against four per cent. in leather but once well to work, they give less trouble, as there is but one joint to look after. If put on really tight enough, this stretching is minimized to a great extent. Users are afraid to over strain the belt, but the extraordinary result attained by certain experiments made as to tensile strain, shows the impossibility of breaking a belt under a fair conditions."

THE capital advantages claimed for the transmission of power by means of belting are intensified, as it were, by the use of woven bands. Thus with gearing we have cambrousness, noise, and vibration, disaster following upon an obstruction or breakage in the machinery, and unsuitability for high speed. Such liabilities are avoided by the use of leather-belting to some extent, but how much more so if a belt less cumbersome than leather, less weighty, working more quietly and smoothly, with more elastic stretch to sustain a sudden shock, and more suited, owing to its extreme pliability and light weight to high speeds.

A ST. LOUIS gentleman, four years ago, says the "Republican," obtained from the National Department of Agriculture a pint of German amber wheat, and has been experimenting with it each season since, until now he has 100 acres of it on his farm in St. Louis county. Last year the yield was forty nine and a half bushels, and the grain was sown on only fair soil, and he thinks that, sown on rich wheat land, and with the season favourable in weather, the yield would be sixty-five to ninety-five bushels per acre. Sixty to sixty-five berries grow on one head. This wheat weighs very heavy, and the millers who have tried it like it better than any other description.

The Great Dr. Virchow has resigned from the medical association of Berlin. He won't be forced to keep "his light under a bushel." He approves of advertising any remedy or combination that will cure, regardless of medical ethics. The surgeons of the International Throat and Lung Institute, head office London, England, and branch offices Montreal, Toronto, Winnipeg, and Detroit, Mass., use Dr. M. Souville's wonderful invention, the Spirometer, are curing thousands of cases of bronchitis, consumption, catarrh, asthma, and cerebral deafness, and are making it known to physicians and sufferers all over the world. Physicians and sufferers are invited to call and try the Spirometer free. If impossible to call personally, write, enclosing stamp, for list of questions and copy of "International News," published monthly. Address Dr. M. Souville & Co., 173 Church street, Toronto, or 13 Phillips square, Montreal.

KIDNEYS, LIVER & URINARY ORGANS THE BEST BLOOD PURIFIER.

There is only one way by which any disease can be cured, and that is by removing the cause—whatever it may be. The great medical authorities of the day declare that nearly every disease is caused by deranged kidneys or liver. To restore these therefore is the only way by which health can be secured. Here is where WARNER'S SAFE CURE has achieved its great reputation. It acts directly upon the kidneys and liver, and by placing them in a healthy condition drives disease and pain from the system. For all Kidney, Liver and Urinary troubles; for the distressing disorders of women, for Malaria, and physical troubles generally, this great remedy has no equal. Beware of impostors, imitations and concoctions said to be just as good.

Delicate and Feeble Ladies.

Those languid, listless sensations, causing you to feel scarcely able to be on your feet; that constant drain that is taking from your system all its former elasticity; driving the bloom from your cheeks; that continual strain upon your vital forces, rendering you irritable and fretful, can fully be removed by the use of that marvellous remedy, Hop Bitters. Irregularities and obstructions of your system are relieved at once, while the special cause of periodical pain are permanently removed. None receive so much benefit, and none are so profoundly grateful and show such an interest in recommending Hop Bitters as women.

FEELS YOUNG AGAIN.

"My mother was afflicted a long time with Neuralgia and a dull, heavy, inactive condition of the whole system; headache, nervous prostration, and was almost helpless. No physicians or medicines did her any good. Three months ago she began to use Hop Bitters with such good effect that she seems and feels young again, although over 70 years old. We think there is no other medicine fit to use in the family." A lady, in Providence.

BRADFORD, PA., May 8, 1875

It has cured me of several diseases, such as nervousness, sickness at the stomach, monthly troubles, etc. I have not seen a sick day this year, since I took Hop Bitters. All my neighbours use them.

MRS. FANNIE GREEN

\$3,000 LOST.—"A tour of Europe that cost me \$3,000 done me less good than "one bottle of Hop Bitters," they also cured "my wife of fifteen years' nervous weakness, "sleeplessness, and dyspepsia."

R. C. Bruce, druggist, Tara, says: "I have no medicine on my shelves that sells faster or gives better satisfaction than Dr. Thomas' Electric Oil, and the sale is constantly increasing, the last year being the largest I have ever had. One of my customers was cured of catarrh by using three bottles. Another was taken out of bed, where he had been laid upon a lounge with a lame back by using two bottles.
