

"Shorter" Pastry and "Shorter" Bills.

We are talking about a "shortening" which will not cause indigestion. Those who "know a thing or two" about Cooking (Marion Harland among a host of others) are using

COTTOLENE

instead of lard. None but the purest, healthiest and cleanest ingredients go to make up Cottolene. Lard isn't healthy, and is not always clean. Those who use Cottolene will be healthier and wealthier than those who use lard—Healthier because they will get "shorter" bread; wealthier because they will get "shorter" grocery bills—for Cottolene costs no more than lard and goes twice as far—so is but half as expensive.

Dyspeptics delight in it!
Physicians endorse it!
Chefs praise it!
Cooks extol it!
Housewives welcome it!
All live Grocers sell it!

DYSPEPSIA CURED BY B.B.B.

MR. GEO. READ.

Read the Proof.

DEAR SIR.—I write you to say that for some time I had been suffering from acute indigestion or dyspepsia, and of course felt very great inconvenience from same in my general business. I thereupon decided to try Burdock Blood Bitters, and after taking two bottles I found I was quite another man, for B. B. B. entirely cured me. I have also used it for my wife and family and have found it the best thing they can take, and from past experience I have every pleasure in strongly recommending B. B. B. to all my friends.

I write you because I think that it should be generally known what B. B. B. can accomplish in cases of indigestion.

Yours faithfully,
GEORGE READ,
Sherbrooke, Que.

A Perfect Food for Infants and Invalids.

MILK GRANULES WITH CEREALS.

A combination of Milk Granules with the finest barley which has been subjected to a treatment by which it is made readily digestible.

For sale by all Grocers and Druggists. Prepared by The Johnston Fluid Milk Co., Montreal.

British and Foreign.

Of the 3,000 students at the University of Berlin 800 are Americans.

Rev. James Parlane, M.A., Burntisland, has been presented with an illuminated address on his semi-jubilee.

There are now 176 branches of the Church's Temperance Society, and the membership includes 12,000 children and 13,000 adults.

The oldest university in the world is said to be the University of Fez, the chief seat of Mohammedan theology in the eastern world.

Legacies of £100 each have been left to the Sustentation and Foreign Mission Funds by the late Miss Donaldson of Cornhill, P. Th.

The income of the Bishop of London's Fund for the past year was £26,451. The Duke of Westminster and Lord Iveagh contributed £1,000 each.

The University of Chicago recently dedicated a magnificent building donated by E. G. Kent and designed for use as a chemical laboratory. It is called the Kent Chemical Laboratory and cost \$250,000.

Rev. J. Reid Howatt has given permission for his Children's Sermonettes to be translated into French. Mr. Gladstone has written to Mr. Howatt, thanking him for his last book, "The Children's Pew."

Another £2,000 has been handed over to the Foreign Mission Fund of the English Presbyterian Church from the estate of the late Mr. George Sturge, making £13,000 which has thus been received on behalf of the fund. Five other societies receive like amounts from the same source.

Dr. George B. Thompson, Alloa, who was lately designated for medical mission work in Old Calabar, was presented by the Young Men's Fellowship Association of the West Church with Farrar's Life of Christ in two volumes and a completely furnished medicine chest. Dr. Thompson has sailed for Africa.

M. Sachrin, the Czar's physician, has declared that St. Petersburg is not suited for the Czar's health, and advises him to live at Kieff. The transfer of the court permanently to Kieff, therefore, is only a question of time. It is stated that Dr. Sachrin received 60,000 roubles for attending the Czar recently.

The death took place on 19th ult. of Mr. William Alexander, LL.D., of the editorial staff of the *Aberdeen Free Press*, who was an elder of the East Church of the Granite City and deeply interested in all the affairs of the denomination. He was widely known by his Scottish classic, *Johnny Gibb of Gushetneuk*.

Dr. N. L. Walker, the editor of *The Free Church Monthly*, has chosen for the subject of his Chalmers Lectures 'Some Chapters from the History of the Free Church.' Touching upon the growth of the church, he pointed out that no fewer than twenty-four congregations owed their origin to the Wynd Church, Glasgow.

The Archbishop of York has been rebuking the vicar of Christ Church, Doncaster, for an article in his parish magazine, which asserted that the period of punishment and purification undergone by the faithful after death might be shortened 'by the prayers and Eucharists offered up on earth.' The vicar, as requested, has published a recantation.

Rev. R. W. Patterson, D.D., of the Presbytery of Chicago, died at his home in Evanston, near Chicago, February 28th, aged eighty years. He belonged to the new school church before the union of the two bodies in 1869, was the first president of Lake Forest University and has been prominent in all Presbyterian ecclesiastical affairs for many years, and was for a number of years professor in McCormack Theological Seminary.

Principal Rainy admits that in some of the great cities of England the working classes, without being actually hostile to Christianity, have ceased to take stock of the churches, but maintains that in Scotland they have as great a say in the churches as any other class. The lamentations so often heard were ludicrously beside the point. Christianity was never meant to attract everybody on everybody's own terms; yet it was wholesome for the church to take blame in the matter, and to aim at a higher temperature.

A Presbyterian Union was launched at an influential meeting held in London recently. The gathering was convened by circular issued by Rev. Robt. Taylor. It was unanimously decided to form such a union, and the following were appointed a committee to frame a constitution and submit the same to a meeting to be held in the lecture hall of Marylebone Church, on the 30th inst.: Dr. R. Taylor, Dr. Gibson, Dr. MacEwan, Dr. Pentecost, Dr. Mathews, Dr. McGaw, Mr. Paton (a retired banker and formerly President of the New York Presbyterian Union, now an elder at Marylebone), Sir George Bruce, Mr. Turnbull and Mr. Alexander Thompson.

A Gentleman

Who formerly resided in Connecticut, but who now resides in Honolulu, writes: "For 20 years past, my wife and I have used Ayer's Hair Vigor, and we attribute to it the dark hair which she and I now have, while hundreds of our acquaintances, ten or a dozen years younger than we, are either gray-headed, white, or bald. When asked how our hair has retained its color and fullness, we reply, 'By the use of Ayer's Hair Vigor—nothing else.'"

"In 1868, my affianced was nearly bald, and the hair kept falling out every day. I induced her to use Ayer's Hair Vigor, and very soon, it not only checked any further loss of hair, but produced an entirely new growth, which has remained luxuriant and glossy to this day. I can recommend this preparation to all in need of a genuine hair-restorer. It is all that it is claimed to be."—Antonio Alarun, Bastrop, Tex.

A WOMAN'S SUFFERINGS.

HOW A HALDIMAND COUNTY LADY REGAINED HEALTH.

She Suffered Excruciating Pains from Sciatica—For Four Months was Forced to Use Crutches—Relief was Obtained After Many Remedies Failed.

From the Selkirk Item.

There have been rumors of late in Selkirk of what was termed a miraculous cure from a long illness of a lady living in Rainham township, a few miles from town. So much talk did the case give rise to that the Item determined to investigate the matter with a view to publishing the facts.

Mrs. Jacob Fry is the wife of a well-known farmer and it was she who was said to have been so wonderfully helped. When the reporter called upon her, Mrs. Fry consented to give the facts of the case and said—"I was ill for nearly a year and for four months could not move my limb because of sciatica, and was compelled to use crutches to get around. My limb would swell up and I suffered excruciating pains which would run down from the hip to the knee. I suffered so much that my health was generally bad. I tried doctors and patent medicines, but got no help until I began the use of Dr. Williams' Pink Pills. Almost from the outset these helped me and I used six boxes in all, and since that time have been a well woman, having been entirely free from pain, and having no further use for medicine. I am prepared to tell anybody and everybody what this wonderful medicine has done for me, for I feel very grateful for the great good the Pink Pills wrought in my case."

The reporter called on a number of Mrs. Fry's neighbors who corroborated what she said as to her painful and helpless condition before she began the use of Dr. Williams' Pink Pills.

Mr. M. F. Derby, chemist, of the firm of Derby & Derby, Selkirk, was also gone. Mr. Derby said he knew of the case of Mrs. Fry, and that what she said regarding it was worthy of every credence. She had herself told him of the great benefit she had derived from the use of Pink Pills. He further said that they had sold Pink Pills for a number of years and found the sale constantly increasing, which was due beyond a doubt to the great satisfaction the pills gave those using them.

An analysis of their properties show that these pills are an unfailing specific for all troubles arising from an impairment of the nervous system or impoverished blood, such as loss of appetite, depression of spirits, anemia, chlorosis or green sickness, general muscular weakness, dizziness, loss of memory, locomotor ataxia, paralysis, sciatica, rheumatism, St. Vitus' dance, the after effects of la grippe, scrofula, chronic erysipelas, etc. They are also a specific for the troubles peculiar to the female system, correcting irregularities, suppressions and all forms of female weakness, building anew the blood and restoring the glow of health to pale and sallow cheeks. In the case of men they effect a radical cure in all diseases arising from mental worry, overwork or excesses of any nature. These pills are not a purgative medicine. They contain only life-giving properties and nothing that could injure the most delicate system.

Dr. Williams' Pink Pills are sold only in boxes bearing the firm's trademark and wrapper printed in red ink. Bear in mind that Dr. Williams' Pink Pills are never sold in any other style of package, and any dealer who offers substitutes is trying to defraud you. Ask for Dr. Williams' Pink Pills for Pale People and refuse all imitations and substitutes.

Dr. Williams' Pink Pills may be had of all druggists or direct by mail from Dr. Williams Medicine Company, Brockville, Ont., or Schenectady, N.Y., at 50 cents a box or six boxes for \$2.50.

When carrying an umbrella a short man holds it at an angle of 75 degrees. An Estabrook pen should be held when writing at an angle of 55 degrees.

DON'T DELAY.

It is your duty to yourself to get rid of the foul accumulation in your blood this spring. Hood's Sarsaparilla is just the medicine you need to purify, vitalize and enrich your blood. That tired feeling which affects nearly every one in the spring is driven off by Hood's Sarsaparilla, the great spring medicine and blood purifier.

Hood's Pills become the favorite cathartic with everyone who tries them.

No human being can come into this world without increasing or diminishing the sum total of human happiness.—*Elihu Burritt*.

These burdens of life, palpitation of the heart, nervousness, headache, and gloomy forebodings, will quickly disappear if you use K. D. C. The Greatest Cure of the Age for all forms of Indigestion.

If thou canst not make thyself such an one as thou wouldst, how canst thou expect to have another in all things to thy liking?—*Thomas a Kempis*.
