

RESTORES EYESIGHT.

"ACTINA," a Wonderful Discovery Which Cures Diseased Eyes. No Matter Whether Chronic or Acute, Without Cutting or Drugging.

There is no need for cutting, drugging or probing the eye for any form of disease, for a new system of treating affections of the eye has been discovered, whereby all torturous and barbarous methods are eliminated.

This wonderful treatment takes the form of a pocket battery, and is known as "Actina." It is purely a home treatment and self-administered by the patient. There is no risk of experimenting, as thousands of people have been cured of blindness, failing eyesight, cataracts, granulated lids and other affections of the eye through this grand discovery. This eminent oculist termed the cases incurable. This wonderful remedy also makes the use of spectacles unnecessary, as it not only removes the weakened and unnatural conditions of the eye, but gives it a clear vision.

Alfred Thistle, Stratford, Ont., Can., writes: "Actina has greatly improved my eyesight, which is more than I expected, as my case was said to be incurable." General Alexander Hamilton, Tarrytown-on-the-Hudson, N.Y., highly recommends "Actina."

T. B. Marshal, 700 N. Dean street west, Bay City, Mich., formerly of Sarnia, Ont., Canada, writes that he can see to write without his glasses after using Actina only eight days. Used glasses thirty years; is eighty years of age.

A. O. T. Penninton, Massachusetts building, Kansas City, Mo., says: "Actina" cured my mother of cataracts and cured me of asthma.

Hundreds of other names can be sent on application. "Actina" is purely a home treatment and self-administered by the patient, and is sent on trial, postpaid. If you will send your name and address to the New York and London Electric Association, Dept. 46B, Walnut Street, Kansas City, Mo., you will receive absolutely free a valuable book, Prof. Wilson's Treatise on the Eye and on Disease in General.
