

MESSRS. WIRTHS BROS. & OWEN,
ART PUBLISHERS,
NEW YORK.

LONDON.

Christmas & New Year Cards.

Having secured for the season 1885, the exclusive control for Canada for the above magnificent assortment, we have pleasure in placing them before the trade through our travellers, who are now on their regular importation trips, and from the success they have met with, convinces us that the line is superior to any in the market for this season. In design, the cards are original and beautifully executed, their artistic value will be at once apparent on examination, and the price will be found far below what has hitherto been asked for choice cards. No old lines or reduced sizes to deal with but goods that will sell, and though Messrs. Wirths Bros. & Owen are comparatively a new firm and little known in Canada, they have had large experience in artistic work and the result is the very best collection we have had the pleasure of dealing in. Besides the **PLAIN CARDS** which are nearly all **FROSTED** and put up in separate envelopes ready for mailing, the collection is made more valuable by the greatest display of

CHRISTMAS NOVELTIES

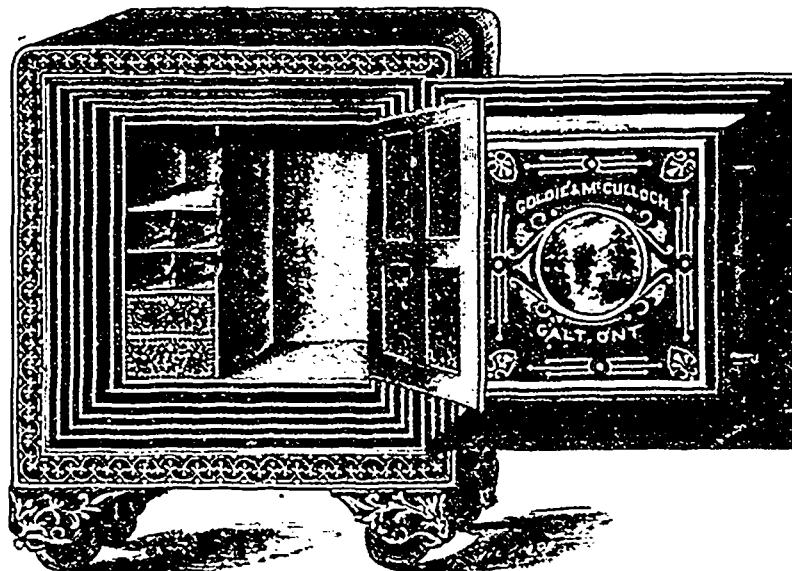

Ever shown in Canada—not cheap inferior goods, made up for show, but of substantial finish and original design—making one of the most acceptable Xmas presents that can be given. Among the principal kinds may be noticed the **SILK CORD CARDS** which supersedes the Silk Fringe, being far superior and entirely new this year.

SATIN PANNELS. Plush, Velvet, Chenille, Silk, Satin and Swansdown mounted cards in endless variety.

In asking the trade to refrain from ordering until our travellers have an opportunity of shewing this line we feel confident they will consult their own interests and by purchasing they will secure the finest and best selling goods shewn this year. Dealers on whom our Travellers have not an opportunity of calling will, by letting us make a selection, receive quite as good value, and every care will be taken in making the selection.
