## DIOCESE OF NEWFOUNDLAND.

The Church at Petty Harbour was consecrated by the Lord Bishop of the Discess on Thursday last, the feast of St. Andrew the Apostle. His Lordship was assisted on the occasion by his Chaplains, the Rev. Measrs. Bridge and Blackman. The Rev. Mr. Jones, the Missionary of the Society for the Propagation of the Gospel at Petry Harbour and Torbay, said Prayers; the Rev. Mr. Tuckwell read the Lessons; the Rev. Mesers. Tremlett, Pluet, Rozier and Johnson, were also in attendance in their proper clerical babit. The Clergy eight in number, occupied the Chancel, which is a new feature in the Churches of this Diocese, and one which we trust, will be copied and adopted in every possible case. The convenience and beauty of such an addition were fully exemplified on this interesting occasion. The Bishop preached, and, assisted by his Chaplains and the Rev. the Missionary of the settlement, administered the Holy Sacrament of the Lord's Supper to a large mumber of communicants.

There were many visiters from St. John's, and it was pleasing to see the humble cart of the poorer classes, with the car-riages of the more wealthy and genteel. A collection was made towards the exp-nee of fresh painting the Church; the amount of which was £10 19s. Several handsome and valuable offer ings were presented, which with the names of the donors, were recited by the Bishop's desire, at the usual time of publishing notices in the Church. Among them we heard mention of a eilver Communion Service,—a Font of stone,—a rich Cloth or Covering, for the Holy Table.—and a carred Seat for the Mi-Mention was also made, in terms of just commendation of the exertions of the inhabitants themselves to complete and furnish their Church in some way suitable to its high and hely

On the Bishop's departure repeated salvos were fired by we who were drawn up for the purpose, on their flakes in a long fline :- " and the noise was heard afar off." (See Egra iii, 13.) The children were regaled with tea and cakes at the School room. The day was, by God's mercy, most fine and propitious; the weather being such as we should be thankful for in the

The Bishop with his friends and visiters returned to St. John's in safety, and we might venture to say, in joy and thankfulness of heart, before the abort but eventful day had closed.

There was Divine Service in the evening, at half-past aix o'clock, in the Central school, when the Bishop again preached; and after the Service a supper was given to the tradesmen, labourers and others employed at the Cathedral, to the number of sixty or upwards. The Bishop said Grace, and addressed the workmen at some length, expressing his approval of the manner in which the work had proceeded, and particularly congratulating them on the unanimity and good fellow-hip which had existed among them during the whole year—Concluding with the motto which the men them selves had inscribed on their flag, "GOD SPEED THE WORK!"

The New and Beautiful Church at Pouch Cove. for which, we understand, the settlement is indebted to the charity of the Rev. Charles Palairet, formerly missionary to this and the other out-harbourn of St. John's was consecrated on Monday last, the 4th inst. Some attempt has been made in the details of this 4th inst. Some attempt has been made in the details of this Church to return to the original character of wooden buildings by introducing narrow windows with pointed angular heads instead of the arches, (barbarously called Gothic,) more commonly used in these Colonies. The pitch of the roofs he is very sharp the effect of which inside, (the ceiling being fastened to the rafters,) is strikingly grand; though the height of the building externally, through an unfortunate departure from the original plan, is unreasonably, we might almost say painfully, exagerated. However, the strength of the streture was fully proved on the day, and at the time of the consecration, by violent gasts of wind from the North West, the side which is most exposed.—
This Church is also provided with a commodious Chancel, of much better proportion, and in hetter keeping with the Nave, than at Petty Harboor. This circumstance, we suppose, may be accounted for by the Church and Chancel having been deigned and so built together; whereas at Petty Harbour the Chancel was a subsequent addition. On the whole, we would venture to recommend the Church of St. Thomas, at Pouch Cove, as the lest pattern, (except always its towering height.) for wonden churches, which has yet been exhibited in this Die The internal arrangements are very simple, and satisfactory because simple. The seats, as at Petry Harbour, are all of the same size and character, all open and free; and the inhabitants can meet and unite as one family, without any distinction of rank and fortune; all as children of the same Father, and brethren of the same Lord. The Pulpit, Prayer-deak stand for the Bible, Holy Table and communion rails, are all of black walnut, highly finished from drawings by Mr. Hay.— A very tich Chalice and Paten of Silver, and a Font of Stone were presented by the same liberal hands, and out of the same charity and piety, to which the Church itself is due:—and none to whom that Rev gentleman is known, will be surprised to find, that his chief and most coully gifts have been bestowed upon the most remote and least observed of his Churches.

The distance from St. John's (eighteen miles over an unfinished road.) precluded the attendance of visitors. The Bishop was assisted by the Rev. Messrs. Bridge, Tuckwell, Fleet and Rozier. The Clergy were in the Chuncel, and the body of the Church was filled by the inhabitants themselves, who have manifested great interest in the work. They brought over the new Pulpit from Plat Bock, a distance of six or seven miles, on the morning of Connectation, starting with it as early as 2 o'clock, that it might be fixed in time for the service. They draged it through the woods and over several deep bogs, and @deposited it at at the Church door, surmounted by a flag, with a hearty cheer, by day-break. It was duly fixed before II o'clock, and occupied by the Bishop in the usual service.

The same loud, characteristic demonstrations of joy and respect were exhibited as at Petty Harbour, by the repeated discharge of senling-gons; a lorge body of the inhabitants following the Bishop and his friends, through the whole length of the settlement, for that purpose.

Winter seemed disposed to make an attempt to sesert his rights of time and place; but the little snow which fell, did not nain on the ground, and nothing occurred to hinder, or mar, the body pleasures of the day of Dedication; a circumstance which deserves to be regarded, at so late a sesson of the year, as a subject of wonder and thankfuiness.

We understand this is the seventh Church consecrated by the Lord Bishop of the Diocese during the present year.

LUNATIC ASTLUM. - Doctor Park has been dismissed and Dr. Primrose of this city, has been appointed Physician to this Institution "and interim." We have been told that as the former was appointed on political considerations, so the dismis-sal will now probably lend to the establishment of another "Advante" on new principles. Dr. Primrote has been dis-tinctly informed that this appointment pratem, is not to give him any additional claim to the permanent situation, which will be in the gift of the commiss ers when the new asylum Lall be ready for occupation. - Patriot.

Some months ago we observed in this paper, that notice had been given in the Grantte, that application would be made at the approaching session, for two acts—one to establish a Previocial Mutual Insurance Company, the other to establish a Proprietary one for general purposes of Fire, Life and Marine Assurance. We now find that these two proposed Companies are to be united, thereby saving the expense of one nd Marine Andrews. We now not that these two proposed Companies are to be united, thereby saving the expense of one office, and giving great facilities for business. The gentlemen who, we understand, have brought this messure forward, are who, we understand, nave brought this measure forward, ner, our worthy Postmaster, Mr. Berzey; Mr. Burns, late Judge of the District Court; J. C. Mortison, Esq., M. P. P.; F. Jacques, Esq., Warden; Messra Gapper, Neale, Goodetham, J. Browne, and others—gentlemen whose names are a goarung the mediate him. e for the good management and success of the undertaking.

THE PETITION of the undersiqued Freeholders, Furners, Merchants, and others interested in or holding Property in the Province of Canada.

HUMBLY SHEWETH:—That persons presenting property situated in the country and comparatively safe from five, have not the means of insating such property, unless by paying a rate of premium commensurate with a far greater risk than they are exposed to, as in the District Mutual Insurance Companies; or to the ordinary general Insurance Companies; or by seeking in a foreign neighbouring country the advan-tages of a system of mutual insurance lately exhibited there tages of a system of mutual insurance lately exhibited there, based on the true and safe principles of similar risks and limited amount: in consequence whereof farmers have bitherto but seldom insured their properties; and only do so now generally with foreign Companies offering great and reasonable induce ments thereto.

That for the nurnoses of general insurance, there does no exist within this Province, anything like the means of insurance required by its community-and the fact that further Provincial means of insurance are wanted, cannot be shown in a stronger point of view than by stating, that there are now established in the City of Toomto for purposes of general fire and marine assurance, besides three highly respectable English Companies, no less than seven American ones, mostly doing,

That to make any system of insurance safe, it is necessary to be widely spread; and therefore particularly where the insurance is limited to certain descriptions of property, as is proposed for the mutual branch of the Company which your Petitioners now pray may be incorporated, the Company should be enabled to extendincelf as widely as possible, experience having proved that in all cases of assurance, mutual or otherwise, the more extensive the operations of the association can be made, the

nore profitable and therefore safer the institution becomes. Your Petitioners therefore pray that they may be incorporated as a Company for the purpose of mutually assuring one mother on property of like hazard against loss or damage from another on property of the magazing against may demande room fire under such limitations as to amount of risk or description of property as your bonourable house may deem advisable; and also for the purpose of fire, life, and marine assurance, generally, with power to extend their operations as widely as the character of the Company may enable them to do.-

PORT HOPE, 3rd January, 1849 .- A fire broke out last night between eight and nine o'clock, P. M., in the premises of H. H. Meredith and & Co., and consumed the entire range of buildings from Mr. William Burnbam's brick store to the corner opposite Mr. H. Gidett's, burning eight stores and one botel, estimated loss £15,000, mostly insured. The following are the names of the sufferers, viz., T. Pollard, Tin-smith, insured; William Graham, Inn keeper, not insured; H. II. Meredith & Co., £500 on his building and £1000 on latock; John Bates & Co., insured partially, J. Lister, Tayor, not known; Hagerman & Powers, insured; G. C. Williams, Druggist, no insurance ; G. Gladman, not insured ; R. Armer

A coloured man, named Lewis Henderson, was found frozen to death about 2 miles from the city, a short dislance from the road leading to Ancaster, last night. We have not heard the particulars of the inquest.

The inhabitants of Montreal have petitioned the egislative of this Province for aid, to complete the St. Lawence and Atlantic Railroad.

The Orangemen of this Province have drawn up a long, temperate, and well-written petition to the Govenor General, complaining of the tyrannical operation of the "Party Procession Act," as applying exclusively to Orangemen, and praying that it may be repealed.

NAVIGATION LAWS .- A Petition has been forwarded from the Board of Trade of Hamilton, through the Gover-nor General, to the Queen, and the Imperial Legislature, seeking for a repeal of the Navigation Laws.

A Parition from the Marchants and ted with the Timber Trade on the Ottawa River, is in the course of preparation, to be forwarded to the Governor General complaining of the exorbitant charges which parties taking Timber to the Port of Quebee, are compelled to pay for temporary admission into any of the coves held by private individuals; and praying that a Public Depot may be built where they may deposit their lumber for safe keeping, from which, they say, a Revenue of Ten per cent per annum would accrue to the Go-

A desperate affray occurred on Christmas day at a Tavern near the Norway Mills. Two of the Ashfields, with a companion, had been out abooting and stopped to have some refreshment. One began to sing a ridiculous song taken from Charles O'Malley, when a man named Reilly got up and went out. Shortly after he returned with some companious, they set upon the Ashfields with axes, crowbars, and other murderous weapons. The Ashfields were seriously burt, and their rifles smashed to pieces. O'Reilly was severely wounded by a rifle going off secidentally. How they escaped with their lives is almost miraculous. Two of the assailants named Sullivan were formerly the terror of the vicinity, and have lately re-turned from the penitentiary. They and O'Reilly are held to hail. The Ashfields are well known for respectability.—

MELANCHOLY ACCIDENT .- We regret to have to inform our readers of the melancholy death of Mr. Robert Hyllier, of Walsingham, on Tuesday the 20th instant. The His lier, of Welsingham, on Tuesday the 20th instant. The unfortunate gentleman, on the morning of the day had gone out accompanied by his son, to look out for some trees for saw logs in the woods, and began to butt one which had fallen previously. The tree about forty feet long, and two and a half feet through, began to roll down a slight declivity, the deceased stepping back caught his toot and fell down. The log rolled on him and he died instantaneously: assistance was promptly rendered by all the neighbours and the body extricated from beneath the log. Mr. Hyllier, had built an extensive Saw Mill, and was effecting great improvements in the backwood; his loss will be greatly regretted by all his fellow actilers, as that of an energetic mon and a kind neighbour. An inquest was held on Thur-day the 21st., before Richard Gundry, Eq., and a respectable jury, and a verdict of accidental death, from of a log on the deceased was recorded. - Simose Standard.
