The assurance that Mr. Mercier is going to Paris to consult foreign engineers as to the proposed bridge at Quebec is a poor compliment to our own people and country. It is also a singular commentary on the references made to the bridge in the Jacques Cartier election in order to influence the men working in a well known institution on behalf of the government candidate.

The "Beer Influence" in England is a powerful one and the opposition to the proposed compensating clause on the Government bill may be good morality, but the next general election will probably show that it was very bad policy. In this respect the opposition in the Imperial Parliament has done the government some benefit.

"L'Electeur" refers to the statement of Mr. Chapleau to the effect that the recent defeat of the Conservative party was due to corruption and a formidable organization, and alleges that it was certainly formidable "but honest." It then tells something about its organization and how it proceeded to make its arrangements prior to the fatal 17th of June.

Nor content with attempting the difficult task of revising their creeds the Presbyterian Synod of the United States has set about revising the personal habits of its young ministers and have entered a protest against the use of tobacco. The Assembly has given orders to the presbyteries "to deal firmly but kindly with all ministers and licentiates under their care who may be known to continue the use of tobacco."

The official denial that England and France had come to an agreement upon the Newfoundland fishery question, and that it was to be settled on the basis of the cessation of Dominion, is to be regretted. Had the story proved true, England would have made almost as advantageous a bargain as she has by the exchange of Heligoland for vast territories in Africa.

More than one scheme has been suggested for the establishment of a great ocean port on the eastern shore of Canada. The railway schemes passed through the Quebec Legislature two seasons ago, virtually created a continuous trunk from Gaspé to the Ottawa and there, connection being obtained with the South would have made an almost straight

line from Minneapolis to the ocean. But now we hear of another project to construct a port not far from Port Mulgrave bringing the west a day nearer in time of transit. There is a moral in all this. As long as the St. Lawrence is open that river will be the channel for the incoming sea; and the ports along her shores should spare no pains to make their shipping facilities such as to encourage trade to the fullest extent.

The war-like talk in the halls of the American Congress, and its preparation for the construction of fleets on a large scale while, in a lesser degree but not less effective, the North American republics are well armed and prepared, for war, render the proposition of the Pan-American Congress for international arbitration rather amusing. The statement of Brazil that it approves the theory but that the practice it only follows disarmament shows that no such scheme stands the least chance of ever being carried into effect.

The Cabinet and Irish Representation.

A list, which appears elsewhere in our columns, has been published and is alleged to be an authoritative sketch of the composition of the Provincial Cabinet as re-organized. The statement is made on the authority of a confidential source of the Premier's office. The one point which deserves the careful attention of our readers is that the Provincial Premier has not repented his broken faith with the Irish of the Province. Our recommendation to the electors to vote against him has therefore been fully justified, but we fear that in some constituencies, we may mention especially Dorchester, our advice was not sufficiently heeded.

A Suggestion.

A correspondent writes reminding us—though very few, we think, need reminding—of the heated period will be on us for some time, and that consequently there must result a good deal of suffering in the poorer and crowded portions of our city. This is an old story and belongs to every large city, and the attempt to alleviate the unpleasant results of the heat have been many and in various forms.

line, and its advantages obvious. It would do away with the appearance of charity, which at times appears somewhat demonstratively in efforts to aid the working classes to go to the country, and would benefit whole families. Perhaps it would be better if our churches were to organize such a scheme for their poor people, and cause them to be conducted under the eye of the clergy as part of their parochial organization.

The Situation in Brazil.

The natural consequences of such a revolution as that which took place in Brazil a few months ago must surely come and the Church in that country is buckling on its armor in order to meet them. The military junta and the administrators of the Palace conspiracy which ended in kidnapping the Emperor and landing him in Europe have force at their disposal, and will do their utmost to maintain their present fraudulent position.

THE QUEBEC CABINET.

To Be Composed of French Members.

Premier Mercier to Visit Paris in Connection With the Consolidation of the Provincial Debt—The Quebec Bridge. Premier Mercier will leave for Paris about the middle of October, and he may be accompanied by one or more of his ministers.

LITERARY REVIEW.

Among the contributors to The Arena for July are Senator Wade Hampton of South Carolina, O. B. Frothingham, Rabbi Solomon Schneider, Rev. Carlos Martyn, D. D., Junius Henri Brown, Hamlin Garland, H. G. Panteo, Rev. Minnet J. Savage, Hon. A. B. Richmond, Frances E. Willard, and Gen. Marous J. Wright.

THE LADIES' HOME JOURNAL.

Every story, article and poem in The Ladies' Home Journal for July has an outdoor flavor, and a better magazine for summer reading has never been prepared for women. A beautifully illustrated article, "A Day with Ida Lewis," the Grace Darling of America, is the first authentic description ever published of the home life of the famous heroine who lives alone in Lime Rock Light-house, and has saved so many lives. It is a

fascinating article, and is followed by one on "Amateur Photography for Girls" which every girl who has or intends getting a camera should read. Mary T. Holmes gives a lovely "Moonlight View of Naples," while Dr. William A. Hammond, the noted physician, furnishes a most practical and timely article on "Hints for Summer Tourists." Anne Sheldon Coombes has a dainty story of "Sunny Italy," beautifully titled "An Utolod Love," while Mrs. A. D. Whitney, Kate Upson Clark and Maud Howe each furnish parts of their novels. A bright Vassar Girl tells of "A Girl's Life at College"; Dr. Talmage writes of summer pleasures and dangers; Edward W. Bok gives some "Hints to Literary Success"; The Duchess tells how she wrote her first novel; Miss Mallon has five pages of the most practical advice in woman's dress, and then follows a class in more large pages, each replete with fascinating and interesting, useful or helpful for women. The Ladies' Home Journal is one Dollar a Year, and is published at 432 Arch St., Philadelphia, Pa.

ECHOES OF THE ELECTION.

Humors of Ministerial Changes—Recounts Ordered in Various Constituencies—Mr. Mercier's Heavy Election Bill.

A recount has been demanded in Bellechasse. It is also said that Mr. Faucher de St. Maurice will be called to the Senate. Mr. Desjardins, M. P. for Kamouraska, has, according to a French paper, published in Quebec, declared himself an "independent." L'Evénement hints that Mr. Charles Langelier will be allowed to have a walk-over in Montserrat; and in return the Liberals of that county will allow Mr. Desjardins to be elected by acclamation for the Federal House.

It is estimated that the sum of \$210,000 was spent by the Mercier Government in the various constituencies during the recent elections. In addition the province lost in a general way by the re-election of certain individuals under the municipal franchise. That in Shafter alone amounted to \$229,000. Le Quotidien states that a new loan of six millions is to be negotiated by Mr. Langelier, to replace the \$1,000,000 Provincial Treasury. Mr. Mercier is, it is said, going to Paris to aid in the negotiations and also to promote the consolidation of the Provincial debt and the building of the projected Quebec Bridge.

Mr. Justice Taschereau has ordered a recount of the ballot cast in the Laurier election on the petition of Mr. L. C. Pelletier. Owing to a peculiar clerical error on the part of a clerk the returning officer, Mr. Arnault, was misled as to the date for filing an objection, and sent the ballot boxes to Quebec in obedience to a telegram from the Clerk of the Crown in Chancery, and so when he received the notice of the order for a recount on Wednesday, the 25th, the boxes had been in Quebec two days. The judge ordered the boxes back immediately. Mr. Duhamel's majority was very small.

Certain of our contemporaries have published, it is alleged, on the authority of one high in the confidence of Mr. Mercier, the following forecast of the Ministry as it is to be: President of the Council, Hon. Mr. Mercier; Commissioner of Crown Lands, Hon. Mr. Duhamel; Treasurer, Hon. Mr. Shebby; Minister of Public Works, Hon. Mr. Pelletier; Minister of Agriculture, Hon. Mr. Garneau; Provincial Secretary, Hon. Charles Langelier; Without Portfolio, Hon. Mr. Boyer.

A DASTARDLY OUTRAGE.

La Grande Chartreuse the famous monastery in the Department of Isere, fourteen miles from Grenoble, has been much damaged by the explosion of a quantity of dynamite. The outrage, it is believed, was committed by persons living in the locality, who took advantage of venting their anger at the failure of an attempt made by them to convert black-mass from the monks in charge.

La Grande Chartreuse is the headquarters of the Carthusian Order, which was founded in the Middle Ages by St. Bruno. The monastery stands at the top of the Lower Alpine Ridge, on the French side, and with its dependencies occupies a pretty large area of ground.

The hospitality of the Grande Chartreuse is proverbial; any visitor is well received, furnished with meals and a comfortable bed, but for a one night only, and that without charge, a politeness which travellers reciprocate by dropping their offerings into the "trough" or slot of the monastery. The rules of the order are nearly as severe as those of the famous monastery of "La Trappe"; the monks perform agricultural work during a portion of the day, never indulge in any meat at all, and they are forbidden to wear any linen or cotton undergarments, only woollen cloth, like their coarser outside robe. The monastery is wealthy, its lands are valued at three millions of francs. The wealth of these monks, or rather of the monastery, for they do not possess any worldly riches proceeds from the sale of the world renowned cordial, Chartreuse, which they prepare according to a prescription which has remained a secret, except to the chiefs of the order, and which is based mainly on the use of some herbs or flowers growing on the rugged slopes of this mountain. The preparation of the cordial is superintended by a "Frere," who gives it the final and mysterious touch and who at his death transmits the secret to the "Frere" designated to succeed him. Many times attempts have been made to steal the secret cordial under the label of "La Grande Chartreuse," and recently the monastery had to fight in the courts in order to prevent the counterfeiting of their label in America.

Loretto Abbey.

The closing exercises in connection with Loretto Abbey, Wellington Place, Toronto, were held last Wednesday. The pupils furnished an interesting programme of music and readings. Among the more noteworthy performers were Miss Clara Hawson, daughter of Mr. T. E. Hawson, of Montreal, who read in French "L'Amour d'Esther," showing very careful concentration. This young lady took two gold medals. After having passed two years at the abbey at York (England) she graduates with honor in Toronto. Very little is known of the good training young ladies get at the Loretto Abbey. The headmistress, Mrs. L. A. H. Underhill, is a native of the Duke of Norfolk and his family the Ladies Howard have been educated at that institution, as also all the Irish nobility in Europe.

Signor Orsini's Superstition.

An incident which has excited much comment in the Italian papers illustrates the survival of superstition of the evil eye among those who would most scornfully repudiate all religious belief. Signor Imbrani, in the Chamber of Deputies, having alluded, though in the most polite phraseology, to Signor Orsini's life as necessarily terminable, the latter tumbled in his pocket, drew out one of the horn-shaped pieces of coral used in Naples as a counter spell against the dreaded "jetters," and pointed it openly at the speaker. The action which is regarded in Italy not merely as an insult, but as one only in a diminished degree among the lowest orders of society, was considered a fitting subject for an interpellation in the Chamber on the following day, and has created a great deal of laughter at the expense of the Premier. The gesture of oreeking the fingers has the same significance as the presentation of the twist of coral, and both forms of exorcism are used indiscriminately.

"No news is good news," perhaps. But you can't make and edit believe it.—Wet-borough Tribune.

RIZZIO'S DEATH

Queen Mary's Version of the Assassination as told in the State Papers.

One of the most curious documents in the eight volumes of the State papers and manuscripts relating to English affairs in the Venetian archives, which has just been published, is (Truth says) a letter of Mary Queen of Scots to the King of France, giving an account of the murder of Rizzio. The Queen writes: "On the 9th of the month, we being at supper in private about the seventh hour in our cabinet accompanied by the Countess of Argyll; my brother, the commander of St. Croix, and others of our domestic servants, because on account of our indisposition, and as the seventh month of our pregnancy was almost accomplished, we had been advised to eat meat, the King our husband came with us, and seated himself by our side. Meanwhile, the Earl of Morton and Lord Lindsay, with their followers, to the number of one hundred and sixty persons occupied and took complete possession of all the entrances and exits of our palace, so that they believed it was impossible for anyone to escape thence alive. During this interval of time, Lord Ruthven, fully armed, with others of his followers, came to our door, and forced into our apartments and cabinet, and preventing our secretary, David Rizzio, there with other servants of ours, said that he desired to speak with him immediately. At the same moment we inquired of the King, our husband, if he knew anything concerning this proceeding, and when he answered us in the negative, we ordered Lord Lindsay to quit our presence under penalty of the being deemed a traitor, and said that we would deal with David Rizzio, and caused him to be punished if he had been guilty of any offence. Nevertheless, Lord Ruthven, by force, in our presence, seized David, who for his safety and defence had retired behind our person, and a portion of Ruthven's followers, surrounding us with arquebuses in hand, and muzzles levelled, dragged David, with great cruelty, forth from our cabinet, and at the entrance of our chamber dealt him fifty six dagger wounds, at which act we remained not only wonder-stricken and astounded, but had great cause to fear for our life."

Germany and England Will Stand Alone.

Berlin, June 29.—Sir Edward Mallet, the British Ambassador, held an important conference with Chancellor Von Caprivi on Friday on the subject of the opposition of the French Government to the East African agreement. The notes of M. Ribot, the French Minister of Foreign Affairs, protesting against the establishment of a protectorate over Zanzibar affects the German desire to the littoral within the Sultanate and also the proposed acquisition of Monfia. The conference resulted in an agreement to take simultaneous action in opposing the right of France to interfere. The English Government has prepared a reply to M. Ribot to the effect that if the Sultan accepts the protection of England or any other power the treaty of 1869 gives France no right to object and, further, that the English arrangement does not attack the independence of the Sultan, protection not involving subjection.

How Menendez Died.

LA LIBERTAD, San Salvador, June 27.—The following are the particulars of the recent death of President Menendez:—During a ball given at the president's residence at a banquet, celebrating the anniversary of the triumph of General Morazan, Menendez on the 22nd instant, General Morazan, who had entered the ballroom about 11 p.m., and announced in behalf of his chief, General Ezeta, who had arrived with 600 men from Santa Ana, a revolt against the existing Government and demanded the deposition of President Menendez. General Martinez, commander of the Government forces, the captain, appeared, and President Menendez, who was in an upper story of the house, requested an audience with General Morazan. An altercation ensued between Martinez and Morazan. The latter was shot and expired immediately. Ezeta's soldiers thereupon took Martinez prisoner and captured the barracks. Twenty-three men were killed. It is believed that the president, through excitement, died from heart disease. The following day General Ezeta was proclaimed president provisionally, and the new cabinet formed, but it has since been dissolved and General Guirala for the present directing the different branches of the administration. Order prevails.

An Ancient Custom.

The London Daily Graphic has been illustrating a quaint medieval custom which is still observed in Florence—the letting off the Fiery Dove during the Feast of the Sabbath. There are two accounts of the origin of this custom. The first states that before the first Crusade a Florentine pilgrim, Fazzino de Pazzi, visited the Holy Sepulchre and broke off a great piece of it to bring home to Florence. The Saracens gave pursuit; he shed his horse with a sword and fled to avoid pursuit, and arrived safely in Florence with the relic. The city in its honor decreed that every year on Easter Eve a dove, constructed to contain the new fire, should fly from the high altar in the Cathedral to a great ear in the square before the Duomo, and there ignite fireworks, whence all the fires in the city, extinguished on Good Friday, were to be rekindled. The other and more probable version of the story is that the good Florentine knight was the first in the assembly on Jerusalem to mount the walls and plant the banner of the Cross, and then he sent back to Florence the tidings of the recovery of the Holy Sepulchre by a carrier dove. Thus did the first tidings of the event reach Europe.

Death of Lt.-Governor McLeish.

HALIFAX, June 26.—Lieutenant-Governor Archibald Woodbury McLeish died this morning from heart disease. His health has been failing for upwards of two years. He was a descendant of a family which came from Londonderry, Ireland, in the last century and settled in Nova Scotia. He was born at Lenoquois, N.S., 30th December, 1824. He married in 1854 Charlotte, daughter of the late John Murray, of Halifax. He was a mercantile business man, early life and later engaged in ship-building and ship-owning. He sat for Colchester in the Nova Scotia Assembly from 1858 to 1883 for Colchester, Colchester from the latter date until the Union, and for Colchester in the Commons from the Union until called to the Senate, 21st June, 1889. He was opposed to Confederation until "better terms" were yielded to Nova Scotia. In June, 1885, he was appointed one of the commissioners for the construction of the Intercolonial railway. Was commissioner from Canada at the Intercolonial Fisheries exhibition in London, 1883, and received a diploma of honor for special services rendered in connection therewith. He was sworn a member of the Cabinet and appointed president of the Privy Council, 20 May, 1881, on which occasion also he resigned his seat in the Senate. He was appointed Minister of Marine and Fisheries 10th July, 1882; Minister of Finance, 10th December, 1885, and Post-master-General, 27th January 1886. He had been Lieutenant-Governor two years. His funeral will take place on Saturday, the remains being conveyed to Great Village, Londonderry, for interment. Speaking of his death the Herald says: "The improvements made in the Marine and Fisheries and Post-Office departments bear witness to Hon. Mr. McLeish's praiseworthy statesmanship. In the former he made desirable improvements in the life saving service, introduced the gas buoy system and organized the meteorological bureau. In the Post-Office department he minimized the expenditures, introduced the parcel post service and consolidated the department finances, in addition to extending the entire system. Although only a short time in control of the Department of Finance he inaugurated his term of office by bringing into operation the polariscope test in determining the saccharine strength of sugar. There are but a few improvements which marked his career as a member of the Dominion Government.

Manitoban Schools.

Tuesday, June 24th, can be set down among the unpropitious days for Manitoban a dispatch from Winnipeg informing us that on that date Judge Bala gave judgment in the famous separate school case, and denied the rights of Catholic citizens to instruct their children according to the dictates of their consciences. The Judge upheld the law recently passed by the Legislature abolishing separate schools, and granted an injunction to restrain teachers in Catholic schools from holding religious exercises.
