

BULLS AND BEARS.

Terms Used on the Stock Exchange.

A "put" is a contract given to receive and pay for stock at a price below the current market-price for a cash consideration, usually one per cent. A "call" is a contract to deliver stock at a price above the current quotation for a similar consideration. A "straddle" is a dual privilege either to receive or deliver stock at a price usually from two or three per cent. above or below the market figure, the consideration being about one per cent. A "spread" is a privilege in two separate contracts, one a "put," the other a "call," the consideration for which is usually larger than in the other options, say one and a half per cent. There are many other terms used on the Stock Exchange which may be briefly stated and explained. A "break" in the market is a serious decline caused by a stringency in the money market or any other similarly potent factor in stock speculations. The bear clique attacks the market and, holders unable to carry the load of stocks sell out. A market decline in values follows; the market thereupon breaks down. "Ballooning" is to work up a stock far beyond its intrinsic worth by favorable stories, fictitious sales, or other cognate means. "Block," is a number of shares, say five thousand or ten thousand, massed together and sold or bought in a lump.

HOW IS THIS?

Something unique even in these days of mammoth premium offers, is the latest effort of Stafford's Magazine, a New York monthly of home and general reading. The proposition is to send the magazine one year for one dollar, the regular subscription price and in addition to send each subscriber fifty-two complete novels during the twelve months; one each week. Think of it! You receive a new and complete novel, by mail, post paid, every week for fifty-two weeks, and in addition you get the magazine once a month for twelve months, all for one dollar. It is an offer which the publishers can only afford to make in the confident expectation of getting a hundred thousand new subscribers. Among the authors in the coming series are William Collins, Walter Besant, Mrs. Oliphant, Mary Cecil Hay, Florence Marryat, Anthony Trollope, A. Conan Doyle, Miss Bradton, Captain Marryat, Miss Thackeray and Jules Verne. If you wish to take advantage of this unusual opportunity send one dollar for Stafford's Magazine, one year. Your first copy of the magazine, and your first number of the fifty-two novels (one each week) which you are to receive during the year will be sent you by return mail. Request by P. O.
