3. The program is under continuous evaluation and review.

GRANTS UNDER EMERGENCY GOLD MINING ASSISTANCE ACT

Question No. 164—Mr. Broadbent:

1. What were the names of the corporations which received cash grants under the Emergency Gold-Mining Assistance Act (EGMA), in each of the fiscal years 1968-69, 1969-70, 1970-71, 1971-72, 1972-73 to date and, in each case, what were the amounts of money committed and paid?

2. What are the objectives of the program?

3. Has the department conducted any evaluative study of the program and, if so, what was the date of the latest report?

Hon. Donald S. Macdonald (Minister of Energy, Mines and Resources): 1. In accordance with the act, gold mining companies receive assistance on a designated, i.e. calendar year, basis. The amounts paid in the years 1968

[Mr. Gillespie.]

to 1971 inclusive are shown in the report on the administration of the Emergency Gold Mining Assistance Act for the fiscal year ended March 31, 1972, which was tabled on January 4, 1973. The Canadian gold mines did not sell any of their 1972 gold production to the Royal Canadian Mint and thus no assistance was payable for the calendar year 1972.

2. The objective of the program is to provide financial assistance to long-established marginal gold mines. By enabling gold mines to extend their productive life, the assistance helps communities dependent on gold mining to adjust gradually to diminishing economic support.

3. A comprehensive evaluative study was completed in 1970 prior to the renewal of the act at that time. This study was extended in 1972 for purposes of renewal of the act and is referred to in the annual report just tabled. The internal studies are confidential.
