SALARIES AND OFFICIAL DUTIES OF SECTION HEADS IN BUILDING RESEARCH DIVISION OF THE NATIONAL RESEARCH COUNCIL

Question No. 488—Mr. Holmes:

- What are the (a) present ranges (b) official duties assigned to each of the following Section Heads in the Building Research Division of the National Research Council (i) Building Materials (ii) Noise and Vibrations (iii) Building Services (iv) Building Structures (v) Fire Research (vi) Geotechnical (vii) Construction (viii) Design (ix) Building Use (x) Codes and Standards?
- (a) What was the actual written output produced by each of the above sections from August 1, 1973 to August 1, 1974 (b) how many of these publications (per section) were used by (i) that division (ii) other research sections (iii) the public?
- (a) How many persons are presently employed by each section of the Building Research Division (b) how many persons (per section) were actually involved in the production of the written output for that section (c) what is the salary range for persons employed by these sections?
- (a) What was the overall budget, including grants, for the Building Research Division for the fiscal year 1973 (b) what percentage of this budget was used to pay salaries for the Building Research Division?

Hon. C. M. Drury (Minister of State for Science and Technology): 1. (a) The salary range for section heads is \$23,380 to \$32,395. (b) Each section head is responsible to

Order Paper Questions

the director for planning, initiating, conducting and supervising research in his section; for the preparation of reports and publications; for liaison with other sections and with scientists in other research organizations and industry.

4. (a) \$4,672,000.
(b) 71%.

SALARIES AND DUTIES OF SECTION HEADS IN MECHANICAL ENGINEERING DIVISION, NATIONAL RESEARCH COUNCIL

Question No. 489—Mr. Holmes:

- What are the (a) present salary ranges (b) official duties assigned to each of the following Section Heads in the Mechanical Engineering Division of the National Research Council (i) Mechanics (ii) Manufacturing Technology (iii) Hydrodynamics (iv) Thermodynamics (v) Transportation Technology (vi) Standards and Standardization (vii) Computer Applications (viii) Engineering and Biological Control Systems (ix) Medical and Surgical Instrumentation?
- (a) What was the actual written output produced by each of the above sections from August 1, 1973 to August 1, 1974 (b) how many of these publications (per section) were used by (i) that division (ii) other research sections (iii) the public?
- (a) How many persons are presently employed by each section of the Mechanical Engineering Division (b) how many persons (per section) were actually involved in the production of the written output for that section (c) what is the salary range for persons employed by these sections?
- (a) What was the overall budget, including grants, for the Mechanical Engineering Division for the fiscal year 1973 (b) what percentage of this budget was used to pay salaries for the Mechanical Engineering Division?

Hon. C. M. Drury (Minister of State for Science and Technology): 1. (a) The salary range for section heads is \$23,380 to \$32,395. (b) Each section head is responsible to
