LONDON, July 24.—A remarkable discussion took place today on the treatment of criminals, at the annual meeting of the British Medical Association at Brighton. The Rev. C. B. Simpson, chaplain inspector of prisons, saild he had been amazed and amused at articles of sloppy sentimentalism which had been read, that omprisonment did not act as a deterrent to crime. "Once bit, twice shy," is the attitude of many who go to goal, he said.

He is a lumber and a series of conventional platitudes as a leck of square timber is from a willow twig. And it was good stuff. He said: "In Canada most oof us have to ork so har! that we have not learned how to talk. As we take you into our brawny arms it is not to hurt you but to love you. (Applause.) Take us as we are, awkward and rough. If we make mistakes it is because we don't know any better. (Applause.) We want you to enjoy your visit to Canada. The civic reception had a real Torontonian warmth. Ald. (Special to The Toronto World). CHICAGO. III., July 24.—An estate appraised at \$200,000, left by William Henry Lee, of Laird & Lee, publishers, is in the hands of the public administrator awaiting claimants. Mr Lee duced as an old goal bird, denied that the goal was a deterrent to crime. Twenty-four hours of bread, wate and a plank bed might be a deterrent to people used to good food, but no deterrent to those who siet under the bridges by shore of the Thames. Prisons are universities of crime, he said. Captain St. John, Secretary of the Penal Reform League said all the harm done to society by all the burglares and all the theives was a mere begatelle compared with the harm done by the law courts of England. "Everybody knows," he declared. "that the law courts are making criminals day by day, so we have to protect ourselves, not only against criminals but against people who deal with criminals."

Professor Benjamin Moore of Liverpool said crime was a good thing because it brought us to understand.

C. D. Meigs, Indiana, said he spent the past 21 years of his life on a farm. He belonged to the village debating society and they argued the question: "Should Canada (be annexed by the United States?" As it remained a part of the British Empire the inference was that at the village debate the negatives had it. His first visit to Toronto was in 1881 to a Sunday school convention. What he saw then, and on subsequent visits to Canada had convinced him that Canada ought not to belong to the United States, for the Canadians took so much better care of it. Especially was this the case with respect to Sabbath observance and the control of the liquor traffic.

Times Have Changed.

M. M. Saunderson of New York said there had been a great change during the 36 years he was on the road. The drunken drunmer selling goods to a drunken buyer was almost a thing of the past. It was an inspiring sign of the times that a gentleman of Mr. Massey's influence should be one of those extending a welcome to the association, also that the city council and the Street Rallway Company should be so generous in their hospitality.

RESCUED AFTER

Life Saving Crew Saw Distress Signal and Went to Rescue.

John Bullen, aged 24, 100 Hamilton street, and a girl friend, 20 years old, living on Ashdale avenue, were rescued from death in the lake last night when First Mate Macdonaid, of the life saving crew, and they new patrol boat, "Patricia," picked them up at 6.30 from a point in the lake three-quarters of a mile directly south of the eastern gap.

At 6 o'clock, thru exhaustion, they had to submit to the force of the off-shore waves, which were heaped up ten feet high by a north wind that was blowing at thirty miles an hour. For more than half an hour the young man and woman had tolled with the sea, trusting in their strength and never entertaining a thought of giving in. Bullen had a double paddle, and for thirty long minutes he had kept the bow of the cance headed toward the eastern gap.

Bullen worked as he never worked before, and the girl who was with him helped with a single paddle, which she spooned into the water in an effort to beat the waves. The two had left the city early in the afternoon and had been paddling for four hours. The air was invigorating and they had had no thought of danger until their muscles became stiff. Both were experts in handling a canoe, but in the continuous break of the waves that struck them lost all control of the canoe, and were slowly drifting into the lake. One moment the canoe was standing upright and a second later it was like a teeter-totter, balanced on the crest of the swell. Bullen saw that if he persisted in heading straight into the waves an upset would be sure to follow. He therefore ceased his efforts to make the shore, and instead swung his canoe into the trough of the waves. He then thought of hoisting a distress signal and waiting for help from the island. Lucky for him he had two or three handkerchiefs in his pockets. These he brought out nall speed, and after tying them together, he hoisted the signal at the top of his paddle.

The watchman at the life saving station noticed the distress signal immentation.

Be holsted the signal at the top of his paddle.

Saw Signal

The watchman at the life saving station noticed the distress signal immediately, and a few minutes later the "Patricia," which had just returned from a run down to Scarboro Beach, headed for the two out in the lake.

The statement that a person can cry for joy was proven when the "Patricia," drew up alongside the cance a few minutes later. "Bullen's face," said First Mate Macdonald last night, "was, as white as my shirt, and when we pulled the girl into the patrol boat the tears ran down her face." The girl made no effort to keep them back, but Mr. Bullen says that never while they were in doubt of being rescued did she show any sign of crying.

As the vision of the new Jerusalem in Revelations was typical and ideal, so the name of the Gideons was typical, and their work was towards the transformation of the clities of the continent so that a moral ideal would be attained. Coming with such an aim the visitors and the local members were worthy of the heart est commendation and support.

C. D. Massey cordially welcomed the convention to the Metropolitan Church. Many new organizations had been formed and some of doubtful usefulness, but the Gideons were needed and their organization was deserving of every good wish and encouragement.

George A. Warburton of the Y.M.C.A. said that when he came to Toronto he received a most hearty welcome and since doing so he had only one regret, namely, that he did not come many years sooner. He was glas to welcome the convention. The association had a vocation it was to show the practical value of religion in every day life. It had an important mission in emphasizing the masculine note in religion.

The Gideons were the commercial travelers who represented the greatest house in the whole universe. They had a high and holy calling and he wished the members of the association abundant success.

Sixty-Eight Prisoners Will Be Moved While Troops Guard Town.

(Special to The Toronto World).

NEW YORK, July 25,—Sixty men of the naval militia bivouacked in the Ossining Armory tonight, and will be stationed outside the Sing-Sing Penitentary at daybreak, when 68 second term prisoners are to be taken to Auburn Prison, in the northern part of the state.

Two incendiary fires were started in the prison enclosure within three days, and 250 prisoners mutthied today. Ugly rumors of further lawlessness are current in Ossining, and picturing the gruesome possibilities in the event of a general delivery of convicts, citizens importuned the town officials to ask for troops.

Conditions in the prison are unprecedented in the history of American penal institutions. Investigation by Warden Clancy showed that the fire of Tuesday, in which several shops were burned, at a loss of \$150,000, had been started by a disgruntled convict. This forenoon another deliberate attempt on the part of a convict was made to burn the remaining shops.

The fire was extinguished before it had

Speaking of the Canadian cadets, the ownicer mentioned that the first batch to pass thru Halifax navel college was a group of six, who afterwards went on board the dreadnought for sea training. Then a batch of thiry entered the college and later came to England for a year's training. Those cadets, he asserted, would prove what he said as to the quality of Canadian material, but he expressed doubts whether Canadians would for many years possess a navy. He could only suggest that these cadets would probably become commanding officers of small armed vessels engaged in the protection of the fisheries.

He could not suggest what course would be taken in hegard to the Canadian cruisers, Niobe and aRinbow. For the greater part of the time that the Rainbow had been in Canada she had been in dock alongside the C. P. R., and looking like so much scrap iron. This, he said, to a large extent had brought the Canadian navy into ridicule.

Four Men Rescued From Lake St. Louis When Almost Exhausted.

MONTREAL, July 24:—(Can. Press).—
After clinging for nearly nine hours to the ladder of a stationary light in Lake St. Louis, two Christian brothers and two employes of the Pointe Claire Parish School were rescued, wet and nearly exhausted early this morning by Rev. Father Mongeau, pastor of the parish.

The four men were caught in the gale which swept the lake on Wednesday night. Unable to reach shore, they sought refuge at the light stake where their boat, lashed by the waves, broke away, leaving the men helpless in a drenching rain.
