NOTE VII .- General Statistical Form for all Public and General Hospitals.

TABLE 1.

Males Females		past tear.	Admitted in subsequent Year.	Average Inmates during the Year.	Number of Deaths.	Discharged. a. Cared. b. Relieved. c. Unimproved	Average Stay of those Dead or Discharged during the Year-
------------------	--	------------	------------------------------	-------------------------------------	----------------------	--	--

TABLE 2 .- Obituary for the Year.

Name and Number n Register and Ward.	Date of Admission.	Condition wien admitted.	Form, Cause, and Duration of Disorder before Admission.	Dute of Death.	Cause of Death.	Post Mortent Examination (weight to be Avoirdupois).		

A longer form is given in Miss Nightingale's "Notes on Hospitals, 1863," p. 160, but it could hardly be required, or be of use, even if correctly filled up, in the smaller Hospitals (e. g., with much less than 100 beds).

Coloured patients should be distinguished in the manner described in Note VI.

Note VIII,—Additional Statistical Form for large Lunatic Asylums.

TABLE 1 .- Age in relation to Form.

	Mania. Meland		ncholia.	Den	Dementia.		General Paralysis.		Epilepsy.		Other Forms.		Total of Each.
