

Don't forget that we sell ladies' cloth coats. They fit in to good advantage with millinery and furs, and are active enough to keep us on the jump.

Dineen styles in anything are usually different to what you see along the street. These coats are the well known Nov-Modi designs, and are in a distinct class by themselves.

**HEARST IS FURIOUS.**

**Bitterly Attacks Owners of Newspapers Opposed to Him.**

New York, Oct. 28.—In Brooklyn last night, where he delivered 8 speeches, William Randolph Hearst made another violent attack on newspapers opposed to him. He accused practically every newspaper in New York except his own and The Press, of unfairness, and then attacked the proprietors of those papers personally.

He began with "The Evening Post," then went for James Gordon Bennett, bitterly declared that William M. Ladd is the "mortgagee of Morgan," said "that the tame office of the Times is indebted to him even for the building he prints his papers in," and finished up by roasting Mr. Pulitzer of The World, The World and Mr. Pulitzer, Mr. Hearst renewed his attack on Senator McCarren.

"This man McCarren," he said, "no more deserves the name of Democrat than a cannon crew deserves to be called the American eagle."

After calling Mr. Pulitzer the creature of people who used him and despised him, Mr. Hearst turned his guns on the board of elections, which he called a "thief of the people's rights." He then attacked the courts of the state, and commented bitterly on the decision of the appellate division, which practically threw out the whole independence league in New York County. He said that he was in the fight unsupported by any papers except his own, and with the assistance of the people he hoped to win the fight, despite powerful opposition.

**Burns Burns Crew Rescued.**  
After calling Mr. Pulitzer the creature of people who used him and despised him, Mr. Hearst turned his guns on the board of elections, which he called a "thief of the people's rights." He then attacked the courts of the state, and commented bitterly on the decision of the appellate division, which practically threw out the whole independence league in New York County. He said that he was in the fight unsupported by any papers except his own, and with the assistance of the people he hoped to win the fight, despite powerful opposition.

The storm, which had whipped the lake into a heavy and dangerous sea, delayed the tug hands and when they arrived the craft was practically destroyed.

It is believed there was no loss of life.

**THESE MEDICAL FACTS**

**You Can Study With Profit.**

How few realize that twenty-five per cent. of all disease has its origin in some interference with the function of elimination.

The whole body exists by reason of a transference of fluids through its component parts.

Up to a certain point the body has power to object to destructive elements, but this power is limited.

When it happens that the body is loaded with wastes and poisons which it can't eliminate, fermentation, decay and germ life run riot through the blood.

Serious illness is the result unless nature is assisted by a cleansing tonic like Dr. Hamilton's Pills, which are purely vegetable and contain no mercury, no bismuth, no injurious metallic ingredients of any kind.

Such a medicine is the greatest possible assurance to every man and woman of health, spirits and contentment.

Grand results are achieved, and famous cures made every day by Dr. Hamilton's Pills as this letter proves.

From Newfoundland, Miss Lillian Anthony of Upper Guelph, Conception Bay, writes: "In praise of Dr. Hamilton's Pills, I must say that I have used them with grand success for three years. They never fail to cure me of indigestion or constipation. Formerly my face was full of pimples, but now my complexion is clear and ruddy. In more ways than I care to mention have Dr. Hamilton's Pills helped me; they would be good for every woman to use."

Ask on having only Dr. Hamilton's Pills, 25c per box or five boxes for \$1.00, at all dealers, or by mail from N. C. Polson & Co., Hartford, Conn., U.S.A., or Kingston, Ont.

**YORK COUNTY AND SUBURBS**

**ETOBICOKE HEALTH BOARD MAKE SOME REGULATIONS**

**For Curbing Fever Epidemic—King Township to Vote on Local Option.**

Toronto Junction, Oct. 28.—The annual meeting of the Y.P.C.U. of Toronto Junction will be held in Victoria Presbyterian Church to-morrow evening, when officers will be elected, and other business transacted. Addresses will be delivered by the resident ministers, and a musical program rendered.

The license commissioners of West York met Saturday evening to consider the transfer of license from J. Hanna of Lambton to I. Newton. Messrs. Slatery and Heron appeared in the interest of Newton, who refused the transfer.

The G.T.R. are again using the St. Clair-avenue switch as a storage place for a number of foul-smelling American stock cars. A petition is in circulation, to be presented to the council, as a protest against the use of this track for such a purpose, as the above siding is only to be used as an approach to Gunn's Packing House and Martin & Leacock's Abattoir.

Mrs. Dean of Annette-street left on Wednesday for a visit to her daughter, Mrs. Eaken of Johannesburg, who is in the Union Stock yards for Monday's market.

A number of the foremen working in the Heintzman Piano Factory had an interview with George Heintzman on Saturday morning, with a view of bringing both parties together. Mr. Heintzman refused to meet the men as a union, but would meet them individually. Some of the foremen have decided to throw up their positions, although promised police protection to and from work.

The death occurred of John W. Armistead to-day at the residence of his son, William Armistead, 73 McMurtry-avenue. The deceased was 82 years of age, and had been ailing for the past three months.

**New Toronto.**

New Toronto, Oct. 28.—A meeting of the board of health of Etoibicoke Township, was held in the schoolhouse, New Toronto, Saturday evening. A number of the members, including the M. H. O. Dr. Bull, protested against the typhoid epidemic being exaggerated. Up to date, there are only 15 cases of typhoid in New Toronto and Mimico. The board has decided to have all the lanes thoroughly cleaned, and water in the wells examined, and the factory refuse must be sent direct to the water works, and not dumped in cesspools, or into the sewer.

This refuse consists of gits and casings, and is no doubt, in the minds of the majority of the board, a source of nuisance.

**Mimico.**

Last night fire was discovered in one of the big piles of coal at the Mimico Asylum. Water was poured on, and in a short time the danger was over. The spontaneous combustion was the cause of the fire, and the fire department was summoned. The fire was extinguished, and no damage was done.

**East Toronto.**

East Toronto, Oct. 28.—The Lady Foresters Lodge will give a concert on Halloween in Boston's Hall. The concert will be followed by a social. Court York, No. 120, L.O.F., will give a concert at the close of the month.

A concert at the G.T.R. brake-man, who was injured while running to catch his train, and his niece, who was under the doctor's care, is progressing well.

Mrs. Brown and family of Mary-street will leave in a few days for John Brown, who lately left for Cuba.

W. H. Brotherson has greatly improved his property on Danforth-avenue, and has also put down a new brick walk in front of his house.

Mrs. Dr. A. F. Demory will receive on the fourth Wednesday of each month at her home, 10 Lynd-avenue. Cleveland, Ohio, have been visiting at the home of Mrs. Cornell's parents, Mr. and Mrs. Kennedy, Ben Lamond-avenue.

The Willing Workers of St. Saviour's Church will meet at the vestry of the church on Thursday afternoon at 3 o'clock.

Work on the Toronto Type Foundry Co.'s new plant is being pushed rapidly, and within a few days the roof will be placed in position. Some 500 loads were required to fill in the grounds and approaches to the works.

**North Toronto.**  
Since building the new annex of the Davisville-avenue public school, the heating facilities are very unsatisfactory. The boiler is imbedded in a pit, which is filling with water to a depth of five feet, and so deep that the water even gets into the fire place. The caretaker has to employ a "floating bridge" to get to the fire place. One surface drain empties into this pit. Water is entering the furnace room thru the stone wall. To remedy this will cost probably \$500.

A course of lectures and entertainments is arranged to be held under the auspices of the Ladies' Aid of the Davisville Methodist Church. The first is to-morrow evening, at the church court, east side, being charged with "The Men We Meet." Miss Clara Cawsey will take part in the musical program. Refreshments will be served.

Mr. and Mrs. Robinson of the Outlook Hotel are summoned to appear to-morrow afternoon at the county court, east side, being charged with selling liquor without a license.

Thomas Tomsett will answer to a charge of violating the health act on Thursday afternoon at the county court, east side, being charged with selling liquor without a license.

**LOCOMOTIVE NOT NEEDED WITH NEW TYPE OF ENGINE**

**Steamer Motor Solving Problem of Self-Contained Unit Adopted by M.C.R.**

Windsor, Oct. 27.—(Special).—Officials of the Michigan Central and other steam roads centring here, are making plans to equip the motive portion of their systems with an entirely new type of engine, the invention of two Chicago men, and motors will be constructed by the Belknap Motor Co. of Detroit.

The new engine bids fair to completely revolutionize the motive power of boats, automobiles, trucks and railroads. Most severe tests have been given it, and on each occasion it has passed them with flying colors. It is operated by the builders, but in construction resembles the gasoline motor, with the exception that the cylinders are set at an angle of 90 degrees.

This makes it utterly impossible to "dead centre." The value of the device is in the small amount of space it occupies, its small weight, and the extremely small expense of fuel consumption.

With this engine no locomotive will be necessary. The whole apparatus can be run backwards up grades with a single stroke of the throttle. The engine is absolutely reversible and can be run backwards up grades with a single stroke of the throttle.

The saving in gasoline, kerosene or alcohol, any of which can be used, is fully 50 per cent. over ordinary gasoline power. The Michigan Central claims that with a motor of this type developing 144 horse power, two cars of 16 tons can be hauled up a grade in four minutes.

There is absolutely no smoke, gas, or noise.

The invention was brought to the notice of the company some months ago, but Assistant Chief Engineer Robertson was detailed to make a complete investigation. His report is very favorable. The Michigan Central has adopted the new system of power. It is claimed by men of authority on the subject that the adoption of a "self-contained unit" is solved by this invention, which has been so much desired by steam roads, competing with electric interurbans.

**Unionville.**  
J. W. Davidson, secretary-treasurer of the Presbyterian Association, announces that the plowing match, dated to be held Nov. 6, 1900, has been indefinitely postponed. Money subscribed for the collection are to be returned to the donors by the parties who received the money.

**Dovercourt.**  
The young people of the Dovercourt Presbyterian Church have organized an orchestra with a membership of twenty-five. The instruments have all been purchased and practice begun. The following are the officers: President, Miss Stephens; secretary, Thomas Gray; treasurer, Alex. Bonner.

Dr. Cerswell will address the boys of the Dovercourt Presbyterian Church to-night on physical culture and the care of the body.

The Association of the Dovercourt district will meet in the new school house to-night. The special business will be "Next Year's Council."

**Ringwood.**

A largely attended meeting of the Ringwood Clubbers' Football Club was held for the purpose of electing the officers of the club for the year. The Ringwood Clubbers have had great success considering that this was the first year of their existence.

The club has a balance of \$38.62 on hand. The club has a large number of members, and intends to reorganize early next year. They expect to put a strong team in the field.

**Seabrook.**

The Bishop of Toronto will conduct a confirmation service in Christ Church, Seabrook, this (Monday) evening.

**VETERAN SALVATIONIST DEAD**

Funeral of "Dad" Watkins—Memorial Service Held.

The funeral of Robert Watkins, better known as "Dad" Watkins, Toronto's veteran Salvationist, was held on Saturday afternoon at Mount Pleasant cemetery. The Salvation Army band led the cortege, and the College Cadets and the Toronto Corps followed in full force to pay the last respects to the aged comrade.

Last night a memorial service was held at the Temple, where 500 were turned away. Brigadier Taylor conducted the service, and in eulogizing terms highly commended the deceased as a simple, well-to-do, Christian and a worthy example for the younger volunteers.

"Dad" Watkins was 32 years of age and had been connected with the army for 24 years. He will be remembered by all who have seen the Temple Corps parade, for he was a giant, rather bent, a kindly face, with grizzled white beard, swinging along with an earnest participation in the service.

One of the first converts the Army had in Toronto, and when converted was under the influence of liquor. He joined the Army in 1876, and has since that time been a devoted member of the organization. He was a man of great energy and was well known by his business some years ago.

**BREAD WITHOUT FLOUR MAKES HEALTHY FOOD**

**The Inner Bark of the Pine Tree Macerated in Water Instead of Flour.**

In Kamshatchka the people live in earth-covered pits. Their bread is made from the inner bark of the Pine Tree, macerated in water and baked without flour. They are a hardy race, the Pine Tree people, and their health is due to the maceration of the bark in a healthy condition. Consumption is unknown among them.

A noted specialist in throat and lung trouble, who established a camp for consumptives in the Pine Woods of Maine, and whose remarkable cures there have attracted great attention from the medical world, says that one-half ounce of the Pure Virgin Oil of Pine, and one-half pint of good Whiskey, will heal and strengthen the lungs, break up a cold in twenty-four hours, and cure any cough that is curable. The ingredients can be secured from any good prescription druggist at small cost.

Enquiry at the prescription department of a leading local druggist elicited the information that the Pure Virgin Oil of Pine was put up only in half-ounce vials for dispensing. Each vial is securely sealed in a round wooden case, with engraved words, showing the "Pure Virgin Oil of Pine" (Pure)—plainly printed thereon. There are many rank imitations of Virgin Oil of Pine (Pure), which are being put up under various names, such as Concentrated Oil of Pine, Pine Balsam, etc. Never accept these as a substitute for the Pure Virgin Oil of Pine, as they will invariably produce nausea, and never effect the desired results.

Furriers and Men's Furnishers  
84-86 YONGE STREET.

**"HOSPITAL FOR INCURABLES."**

**New Name Decided on for the Duna Avenue Institution.**

The annual meeting of the board of management of the Home for Incurables was held Saturday afternoon, and was largely attended. President Ambrose Kent was in the chair, and His Honor, Lieutenant-Governor Clark was on the platform.

The secretary's report showed that the Home had been taxed to its limit during the past year. There are now 15 waiting cases on the list, and there are 12 patients in the Home. During the year there were twenty-eight deaths and 171 patients were treated. The treasurer's report showed a deficit of \$379. The receipts for the year amounted to \$23,778, and the expenditures \$25,667.

Last year the city granted \$4000, and in view of the proposition to build a further grant.

The chairman pointed out that the inmates were given practically hospital treatment. Of the 139 patients in the Home at present, 100 are dependent entirely on the institution. He thought that the Home was entitled to more consideration from the city and the public at large.

Each patient cost 50 cents per day, and all the city contributed was 11 or 12 cents per day towards the maintenance of the patients.

The board of management was named practically the same as last year, and the election of officers takes place to-morrow night.

On motion, it was decided to change the name of the institution to the Toronto Hospital for Incurables.

**THE WAY TO NIAGARA FALLS AND BUFFALO**

Is over the Grand Trunk, the only double-tracked line, and passengers are delighted with the elegant coaches, buffet parlor cars, and quick and comfortable service. Leave Toronto 7:35 a.m., 9 a.m., 5 p.m., and 6:10 p.m.; arrive Niagara Falls 9:55 a.m., 10:55 a.m., 6:55 p.m., and 8:20 p.m.; arrive Buffalo 11:15 a.m., 12:10 p.m., 8:25 p.m., and 9:45 p.m. Tickets and reservations at City Office, northwest corner King and Yonge-streets, Toronto.

**FOUR YEARS FOR ASSAULT**

St. Thomas, Oct. 27.—James H. Jordan, who pleaded guilty to the charge of knocking down and robbing Edward Gable, a Yarmouth farmer, near the Dominion Hotel, was today sentenced by Justice Magistrate Glenn to four years at hard labor in the Kingston Penitentiary. Jordan was formerly a Wabash brakeman, and has not been arrested before.

**COOL'S COTTON ROOT COMPOUND**

The Great Curing Tonic, and the only safe, effective, but if impossible, send home add-centamp sent home.

Office: Cor. Adelaide and Toronto Sts. Hours: 10 a.m. to 8 p.m. Closed Sundays.

Address: DR. A. SOPER, 25 Toronto Street, Toronto, Ontario.

**ROBERT MANTELL ASPIRES TO THE ROLE OF "BRUTUS"**

**Eminent Actor's View of Shakespeare Characters and Stage Presentation.**

Robert Mantell, who begins to-night a Princess Theatre engagement in "King Richard III," is registered at the Rossin House. He has a big company with him, which he will have in rehearsal night and day, when not playing for the reason that they are preparing for a long New York City engagement to begin next Monday night.

Mr. Mantell has recently added "Iago" and "Shylock" to his repertoire; indeed, he staged "The Merchant of Venice" as recently as last Friday night in Buffalo, and is desirous of smoothing out all the rough places in the play, before he repeats the comedy here on Friday night.

Mr. Mantell chatted interestingly with a World-man last night. "My success last year—and it was a foolish modesty that should make me use another word than 'success'—whether deserved or not—has entailed a vast amount of hard work," he said. "I attribute the so-called 'revival' of interest in Shakespeare's plays to nothing more than the coming-up of a generation since the passing of Lawrence Barrett and the retirement, too soon followed by the death of Edwin Booth. It must be borne in mind that this new generation of theatre-goers—it is now 16 years since the end of that glorious combination of Booth and Barrett—has had no opportunity to observe the great tragedies and the epic plays, like 'King Lear,' in stage representation. So, as far as I am concerned, I believe my only part in the 'revival' has been that of my being a very fortunate man, indeed, to have happened along with my production of 'King Richard III' and 'Othello' at the right time—the 'psychological moment,' as we have grown too fond of saying, when we wish to be impressive and foolish."

"Another two years, or three, and it may be possible for an actor of Shakespeare to go along profitably in one season with one tragedy. Just now, however, it seems necessary to give a repertoire. It was not my idea, but William A. Brady's, that we should stage 'King Richard III' and 'Othello' as a double bill. I had never seen it adequately acted save by the elder Salvini, and I was impressed and awed by Charles Lamb's forthright declaration that the 'Lear' of Shakespeare 'cannot be acted.' As a matter of fact, Lamb had never seen it even tried. The tragedians between Shakespeare's death and the present have acted the foolish and inconsequential Tate version, wherein there was a happy ending, with Edgar and Cordelia happily married, and Gloucester I have found an eager, earnest public for the tragedy, however, and am right heartily glad that I took Mr. Brady's advice in this matter."

"That I feel that I wholly confute Lamb, but because it has given me a role in which I never shall be satisfied with myself, I seem to me new things in it every time I play it."

"I am now up to my eyes in the part of Brutus—another role, I must confess, which I took up at Mr. Brady's suggestion. Brutus has never appealed to me. I had always regarded 'Julius Caesar' as bad history and uninteresting drama and of value only as an 'educational' feature. As an actor, that would always catch the students' trade. But I shall be a disappointed actor if I do not make the bit of my career in Brutus. I think it ranks with Lear and Hamlet as the greatest of Shakespeare's human creations!"

**Do You Need a Rest?**  
If so, a few days or weeks spent at St. Catharines, Preston, Chatham, Mount Clemens, Erie, or Clifton Springs, or Danville, will, without doubt, be of great benefit.

All of the above points are reached by Grand Trunk direct, and as connections, and reliable information may be obtained at City Ticket Office, northwest corner King and Yonge-streets.
