# COBALT---General Manager of Bank of Commerce Visits the Mines----COBALT

Offering Are Getting Smaller an the Undertone to Prices is Firmer.

World Office, Mouday Evening, Dec. 17.

The week in mining shares opened u quiet, but the improved undertone to price which was a marked feature at the close of last week, was continued thruout t features of the situation is the small amount of offerings now being made by outsiders. The trading on the exchanges shows a much larger actual trainsfer than really takes place, as many of the transactions are simply transfers made on the ficor. The rumor of an important new strike on Trethewey caused a better engulary for this stock, but until the strike is further confirmed, no actual buying is expected to develop on this account, Foster was firmer and the stock was difficult to obtain at around the reported quotations. Silver Queen, Silver Leaf and Green-Mechan were all held at firmer prices and only limited buying prevented further raliles. The tightness in money is against a strong market at the moment, but sentiment is much better than it was and further gradual improvement is looked for. Nipissing was slightly easier to-day, owing to profit taking from those who bought on the extreme slump.

Another Strike on Trethewey.

Coi. Hay of the Trethewey Mine this afternoon announced that a telegram had been received from Cobalt, teling of a very rich strike on the property in the first cutting, 50 feet from the surface. The vein is an entirely new one of great importance. Col. Hay leaves for Cobalt to inspect the new vein and prepare an exhaustive report on the discovery.

Silver Queen a New York Favorite. silver Queen is being steadily absorted by New York houses. For the moment it appears to be the favorite in Gotham, but then New Yorkers have always been gal-lant, particularly to queens and princesses.

Trethewey Slated for Advance. Trethewey dividend will be paid to-morrow, 4 per cent. The stock is fairly scarce, one large order being filled at \$2, has reducone large order being filled at \$2, has reduced the floating supply to zero point. Conservative houses in Fittsburg and Rochester consider Trethewey a valuable proposition and are taking considerable of the stock for investment. A big advantage stock for investment. A big advance is slated for Trethewey after the Xmas holi-days, when people are done investing in

Hidden to Report.

Professor Hidden has left Cobalt and will reach New York on Monday, when he will submit his report to E. I'. Farle, the president of the company. As intimated in the special correspondence of the latest examination of vein No. 49, shows a tendency to narrow and to contain values somewhat lower than those encountered at the surface, yet the veln as such, still hangs well.

President E. P. Earle yesterday stated that there were now more than 300 tons first and second-class ore awaiting transportation from the property to the smelters. This were there had been six cars of 25 tons each that had gone forward for treatment, the value of which, however, he did not care to estimate.—New York Commercial.

Brokers Advise Buying Foster.

One large brokerage house is advising its cle into the buy Foster for a big rise. A good many knockers are about with regard to Foster, but this does not impair the value of the stock at all. Some life shipments of ore to New York will soon take place and everyone will regret missing a good opportunity to pick up Foster on the burgain counter.

California Monarch Oil ... 35 Canadian Oil ... 80 Brokers Advise Buying Foster.

It is rumored that some of the underwrit-ers have sold too much of their Silver Leaf stock and have been in the market the past few days trying to square themselves. Silver Leaf closed strong on the report that half a car of ore is to be shipped in a few days. Silver Leaf enjoys an expansive market, buyers coming from Boston, New 10rk, Rocnester, Detroit, and Houghton, Mich.

CUT IN TWO BY TRAIN. Ottawa, Dec. 17.-Word reached here to-day by passengers from the Sault of the death, near Sudbury, of Joseph McKay, a Montreal detective, who fell off a car platform while the train wat in motion and was cut in two-On him were found two loaded revolvers, several photographs and \$500 in cash. When he fell off the car one of the weapons was all the car least two shafts, and possibly these in cash. When he fell off the car least two shafts, and possibly three one of the weapons was discharged. The Erie is already producing good ore, one of the weapons was discharged and a shot entered his body.

An inquest was held at Sudbury, and a verdict of accidental death research which enters from the Temiskaming. This vein is 8 feet wide on the 75 foot level of the Temiskaming.

themselves as greatly impressed with what they had witnessed. It is surmised here that General Manager Walker's visit to the camp was preparatory to his annual actives to the shareholders of the Bank of Commerce and that his usual able commentary on the progress of Canada will include interesting and reliable data of the Cobalt mining enterprise. Subscriptions are being taken here for the Ottawa and provincial syndicate, which will bid \$1,000,000 for Cobalt Lake. About 170 Cobalters have subscribed for \$1000 each, paying 10 per cent, down and the promoters of the syndicate believe that if they are the successful tenderers those contributing will easily double their money.
