PEOPLE PAY THE LOSS

A Departmental Building at Ottawa on Fire.

FIERCE FLAMES RAGED AFTER MIDNIGHT.

When the Damage to Western Structure Was Estimated at \$250,000.

Who is Responsible for All This Criminal Carelessness? The Origin of the Fire Is Supposed to Have Been the Work of a Careless Clerk Smoking—Then, When the Ottawa Fire Brigade Responded to the Call, the Hydrants in the Parliament Grounds Were Frozen Hard—The Hose in the Big Building Was Rotten, and Burst Under the Water Pressure—Fire Engines Had to Be Brought Into Play—A Steamer Sent From Montreal to the Capital by Special Train at Midnight—Most of the Valuable Plans and Documents of the Public Works Department Destroyed—Mr. Tarte Rescued His Papers—Fire Still Burning and Thousands Watch Its Progress From Parliament Hill.

Ottawa, Feb. 11.—(Special.)—The worst fire which the Capital has had for many a long day is raging to-night, and as the result is waiting to be seen, the Dominion will even have to meet a bill of a quarter of a million dollars.

At midnight to-night the entire roof of the Western Departmental building in Ottawa was in flames, the efforts of the Ottawa fire brigade being directed towards keeping the flames from descending to the lower stories of the building.

The only portion of the building which has escaped, with the exception of some water in the offices, is the Mackenzie wing from the big tower northward.

In this portion of the building are the offices of the Departments of Railways and Canals and Inland Revenue. The rooms burnt out were those occupied by the engineers and architects' staff of the Public Works Department, including hundreds of valuable plans and documents, certain offices occupied by some of the clerks of the Marine and Fisheries Department, and the entire offices of the Mounted Police Department.

All the offices below these, occupied by the Departments of Public Works, Marine and Fisheries, Militia, Trade and Commerce and Customs are damaged with water.

The fire was first discovered on the fourth floor of the Public Works Department, and is supposed to have been caused by carelessness of one of the clerks, who had been smoking for a long time the smell of smoke could be detected before its origin was discovered.

It unfortunately happened that the configuration broke out in the most vulnerable point of the top story, as the whole of the top story was a veritable fire trap. The roof was of wood, the partitions were of wood and the floors were of wood. To add to the disaster this portion of the building is the Parliament building, the tower of the highest level of the city.

At the outset only a private alarm was sent to the central fire station and a single reel responded.

What was feared in different portions of the Parliament grounds were tried and all, with the exception of one some distance away, were found to be frozen.

one similar to that of Langevin block, which is of iron and copper.

The fire reached the Mounted Police Department, and here it appears to have been checked in one room. When the fire reached the Mounted Police Department the assembled crowd were startled by repeated popping off of ammunition. To check the conflagration a portion of the roof on the south side of the building, equal to 80 square feet, was cut away, but nothing was gained by it.

Valuable Records Gone. Two-thirds of the records of the Public Works Department have been destroyed, but the photographic negatives of different public buildings were saved.

The original records of the C. P. R. surveys, it is said, have fallen a prey to the flames. With good judgment, the officers of the Militia, Marine and Fisheries, Trade and Commerce and Customs Departments got their books, records and papers either out of the buildings or into the vaults, so that, except for the temporary inconvenience of want of quarters, the work of these departments will go on without interruption. The thermometer registers 5 degrees above zero at this hour. The firemen have been continuously on duty for eight hours and are pitiable sights, being covered with ice from head to foot. It is thought Mr. Tarte will propose an additional storey to the building to give much-needed additional accommodation.

Help From Montreal. Montreal, Feb. 11.—A detachment of the Montreal fire brigade, composed of 15 men, with the Selsky engine and hose truck, left for Ottawa on a special at 11:30 last night in answer to an urgent summons from the Capital, where the West Block in Parliament Square is burning.

RECOUNT IN NORTH ONTARIO.

Duncan Graham Declared Elected by 25 Majority—Order for a Recount Afterwards Granted.

Beaverton, Feb. 11.—In the North Ontario election the returning officer gave the official count here to-day. Duncan Graham, Reform-Patron, is declared elected by 25 majority, the total vote being: D. Graham 246, Angus McLeod 224. There were 26 spoilt ballots and 95 rejected ballots. An order for a recount in North Ontario was obtained by Messrs. Reid, Angus, Wood and Arnold, solicitors for Graham McLeod, since the declaration made to-day, to take place before Judge Mahaffy at Bracebridge next Tuesday, the 16th inst.

Burglars Enter a Yonge-Street Store. Bold burglars got into Ashby's music store, 384 Yonge-street, early this morning, but whether they stole anything or not is not known. Mr. Ashby, when sent for by the police, was unable to come down account of illness. The thieves went on an extract from the lane at the rear, where, by knocking out one of the square windows, they were able to get in. A policeman making his rounds discovered the window open and there is little doubt that marauders had been inside from the appearance of the place.

St. Andrew's Society. The quarterly meeting of the St. Andrew's Society was held at the Queen's Hotel, yesterday with Mayor Coby, in the chair. The treasurer reported a balance of \$83 from the St. Andrew's hall, and total receipts for the quarter to be the amount of \$224. The sum of \$270 was spent in charity during the quarter.

Mr. Tarte Rescued. Mr. Tarte was on deck and got all his private papers out. When your correspondent entered the Minister's room with him at 5:15 p.m. water was coming through the ceiling in torrents. Despite all efforts of the brigade, it seemed impossible to check the progress of the flames. The inflammable nature of the upper structure made it a ready prey, and the fire gradually worked round to the southwest corner of the building. Then it swung round to the southern facade and licked its way along the roof eastward. Over the main north door there is a small point the fire would be confined as there was supposed to be a fire wall, shutting off the draughting room of the Public Works Department from the Marine and Fisheries. But even this was not the case, and the flames gradually crept along to the southeast corner and then northward the entire length of the wing which fronts on Parliament Hill to see the magnificent sight. The Parliament Buildings and the Eastern Block were magnificently illuminated and the reflection could be seen for miles around.

Thousands View It. Thousands of people assembled on Parliament Hill to see the magnificent sight. The Parliament Buildings and the Eastern Block were magnificently illuminated and the reflection could be seen for miles around. As the Government carries no insurance on its buildings in Ottawa the entire loss will fall on the country. It is believed \$100,000 might repair the day's damage, but a wooden roof to the building will never be tolerated, and the general impression is the Government will have to put on a metal roof.
