CORRUPTION IN VOTING.

Guardian editor goes on to say:

Guardian editor goes on to say:

"It is sad beyond expression to think of the condition of corruptibility that has been begotten and fostered in Canada, in Manitoba, in Ontario. A minister of the Crown in Ontario said to the editor of this paper: 'It is generally admitted that the last vote on the Sunday cars in Toronto, which brought in the cars, and the Dominion plebiscite vote on prohibition in 1898 were two of the most corrupt votes ever cast."

Who was "the minister of the Crown n Ontario" who vouchsafed the above

information to The Guardian's editor?

Had he the West Elgin affair in his

mind and the machine that somebody

wanted to hug when he made the com-

parison? Here is the conclusion of

The Guardian's article:

"We are sorry to notice that the conditions under which the referendum vote was taken in Manitoba were such as to warfant almost immediataely open charges of unblushing wrongdoing. The flippant way in which these serious crimes are dismissed by public men, and the careless way in which they are treated in the press—these are signs that iniquity is wrought in the land, and the people love to have it so.

"The mayor of a city in Ontario

have it so.
"The mayor of a city in Ontario said to the editor recently: 'It used to cost a few hundred collars to run a political election in an On-

run a political election in an Ontario constituency; now it costs at
least a thousand dollars, and farmers who are moderately well of
have been known to walt until the
afterncon of polling day to find out
which party would pay the highest
price for votes.

"We cannot authenticate and
establish all these corrupt facts in
the courts, but the fact that we
can vouch for the econversations
and statements, and the fact what
the foul odor of political corruption has been offensive to all
pure citizens as it has rolled on

The same arguments that apply to the demands for higher wages by mechanics and laborers apply to the case of the judges. The conditions of life foday are altogether different from what they were 30 years ago, when the schedule was made up. It goes without saying that \$2400 is too small an allowance for the judges of the County of York. Not only have they arguent for the fall was of the judges of other counties, but the experiment of the followance for the judges of the County of York. Not only have they arguent deal more work than the judges of other counties, but the experiments of all kinds of commodities has advanced in nearly the same proportion. The figher than they were, and the price of all kinds of commodities has advanced in nearly the same proportion. While a great claumor is being made to increase the wages of working men and mechanics, it would not be out of the way for the government to take into consideration the remuneration of some public officials, and especially the judges of the County of York.

CROW'S NEST COAL COMPANY. The Crow's Nest Coal Co.heve takent vigorous steps to put an end to the statements that have been running thru the press to the effect that they are favoring United States smelters in preference to those located in Canada. The Province, of Vancouver, stated recently that the Greenwood Smelter would have had to shut down unless it had received assistance from pearly smelters, and it assigned as a reason the fact that the Crow's Nest Coal and coke orders from the United States, tributary to the Great Northern Railway. In order to refute these statements, the Crow's Nest Coal Co. issued a writ against the proprietors of The Province, and compelled them to make a detailed retraction of the various statements that the paper had made about in insulability of the company to supply, the man below to the supply, the lamblity of the company to supply, the insulability of the company to supply, the lamblity of the company to supply, the insulability of the company to supply, the lamblity of the company to supply, the insulability of the company to supply, the lamblity of the company to supply, inability of the company to supply the Canadian demand, and about their RAT PORTAGE TROOPER DEAD. giving a preference to United States smelters.
