

ONLY 700,000 TONS OF HARD COAL FOR CANADA IN NEXT TWO MONTHS

WASHINGTON, Oct. 24.—Under a definite allotment of American coal for Canada announced tonight by the fuel administrator, about two million tons of bituminous and seven hundred thousand tons of anthracite will be permitted to move across the Canadian border during the next two months.

The allotments, which will materially reduce the volume of exports, were arranged in consultation with the Canadian authorities, and after a review of statistics showing the Dominion's fuel consumption during the last year and the future needs of its industries and domestic consumers.

It was announced that Administrator Garfield had insisted that Canada is to be treated as well as the United States in the matter of coal, but no better, and that the Canadian Government recognized that the United States was warranted in taking the present step to protect the interests of its consumers.
