CORNWALL CANAL

Huge Dyke Around the Break is Growing Every Hour—Dredges Ready.

CORNWALL, July 1.—(Special.)—The huge dyke around the break in the Cornwall Canal is growing every hour. It is 480 feet long, 20 feet thick and about 26 feet from its bed in the canal bottom to the top. It is built of huge timbers, securely bolted together and filled with stone. The face of it will be finished with matched lumber. This dyke will be finished ere the end of the week, and the moment it is the water will be turned in and the waiting dredges set to work to finish the excavation of the channel, on which several scores of teams with scrapers are now at work.

On the whole it looks as if the canal could be opened on July 10, unless bad weather intervenes.

FINES AMOUNTED TO \$44,000.

NEW YORK, July 1.—Twenty-two members of the Manila and Fibre Paper Manufacturers' Association, who were fined \$2000 each recently for operating a combine in restraint of trade, paid their fines to the United States circuit court to-day. The other two companies are expected to pay theirs in a few days.

DIDN'T MENTION THE MONEY. The young medical student implicated in the case of alleged abortion, for which Joseph Hazelton was arrested Tuesday night, while admitting to the university authorities that he was an interested party, did not make any mention of having paid the girl any sum of money for an illegal purpose.

When the 8th Regiment was returning from Niagara Camp it was found on arriving at Blackwater Junction that the horse car was open and Major Rick's valuable charger missing. A search party was sent back over the line, and the horse found stone dead about two miles from Manila. How the accident happened is not known. It is supposed that the unusual amount of shunting that was done at Manila was the primary cause.

Parisians Fight Duel. PARIS, July 1.—A duel with swords was fought in this city to-day between M. Jouvencel, a brother of the present editor of the "Matin," and a lawyer named Baudelot. M. Jouvencel was wounded in the right arm. A libel case involving "The Matin" was being heard, when M. Baudelot slapped M. Jouvencel in the face. The latter retaliated by smashing his cane over M. Baudelot's head, and a challenge followed.

YOUNG MAN IS MISSING FOR NO KNOWN CAUSE

Beamsville Residents Shocked by a Second Disappearance Within a Short Time.

BEAMSVILLE, July 1.—(Special.)—Mystery surrounds the sudden disappearance of Fritz Matze, who was employed by the Rev. W. J. Andrews on a fruit farm just west of here, and who has not been seen or heard of since Wednesday evening last.

In view of the fact that no word has yet been received as to the whereabouts of Harry Lewis, the Bank of Hamilton teller, who disappeared prior to Good Friday, under similar circumstances, the community is considerably agitated.

People are now associating the two incidents with a rumor that has floated in from Grimsby, to the effect that Jim and Ed. Hand, local fishermen, discovered a deserted bicycle on the end of the Grimsby pier early in the morning of May 26, which has been held by the authorities ever since in the hope of a claimant putting in an appearance.

That not naturally superstitious, the residents of the two villages are beginning to fear that some shadow of evil has fallen upon the community. This theory has been strengthened by a report that some Jordan fishermen very lately came across a floating body in Lake Ontario, which they endeavored to recover, but owing to the violent surges of the waves the body was wrested from their grasp, leaving nothing but a cap in their possession.

The cap is said to correspond with that which Harry Lewis was supposed to have worn when last seen.

There is no apparent motive for young Lewis' running away, as his accounts with the bank were square. Nor can anyone conjecture as to why young Matze should fail to return to his home.

Both lads were about 18 years of age. Fritz Matze is an Anglo-Irish clergyman who is preaching somewhere in England. He was sent out to the Rev. W. J. Andrews two years ago by his father, who thought that a few years on Lakeland Fruit Farm might improve his rather delicate physique.

On Wednesday evening last he told Mr. Andrews he was going to Grimsby to get some photos taken, and to buy some shoes. He did not arrive in Grimsby, but was seen on the night in question in Beamsville at 8 o'clock—the opposite direction, which he was supposed to have taken.

When he did not turn up at the farm it was at first thought that he had gone to Niagara camp on a visit to his father, son of Rev. W. J. Andrews and commandant of No. 2 company of the 4th Regiment.

Upon the arrival home of Capt. Will it was learned, with much concern, that the youth had not been at camp. Matze was always very quiet and without any perceptible roving tendencies. His evenings were occupied in reading and study, and the Andrews family thought the world of him.

He is described as 5 feet 6 inches in height, with light hair and pale complexion. He walked with a curious shuffling gait. He left the house wearing a bluish tweed suit and straw sailor hat.

The constables have been watching all trains and prosecuting very diligent enquiries, but no word or trace of the missing man has yet been found.

GAMBLING LAWS ABSURD.

Rev. Dr. Pidgeon Addresses Kingston Presbyterians.

KINGSTON, July 1.—The Kingston Presbyterian Union has elected the following officers: President, Rev. A. H. Drummond, Belleville; secretary, Rev. R. S. Laidlaw, Belleville; treasurer, John Cook, Kingston. A good year was reported and it was decided to hold the next meeting in Belleville.

The feature of the session was a stirring address by Rev. Dr. Pidgeon, convener of the general assembly's committee on "Moral and Social Reform." He declared that the present laws against mere gambling were absurd, in that they prohibited the sale of bets in a building, tent or even under an umbrella, while if he kept moving near a race track he could make as much as he had time to handle. Dr. Pidgeon believes that one of the most hopeful signs of the times is that the labor unions are lining up with the church to secure better conditions for the workers, and to destroy the evils that are so prevalent.

TO HANG PICTURES.

Cord Can Be Shortened or Lengthened at Will.

The comic artists who delight in drawing the "henpecked" husband, who endures his wife's anger, are now to have a picture from the top of a rickety stepladder, will soon have to abandon the subject, as an Alabama man has designed an attachment whereby the picture can be readily adjusted from the floor. The hanger is fastened to the back of the picture frame, one end of the cord being connected with a revolving drum. The picture can usually be readily reached from the floor, the drum is easily accessible and can be operated to place the picture in the exact spot desired. This eliminates the nuisance of removing the picture from the wall and retreating the cord several times before the right length is finally determined.

THE RUFF.

The crisp plaited ruff of tulle, centered with gold or silver tissue ribbon or with velvet ribbon, which is known severally as the "Christopher Columbus" ruff, the "Raisley" ruff, etc., is at the height of its vogue. Since the tulle ones appeared many other styles have cropped up. Some are made with inch or inch and a half lace insertion for the centre and top, and the bottom edges are thickly plaited ruffles of lace or wash border.

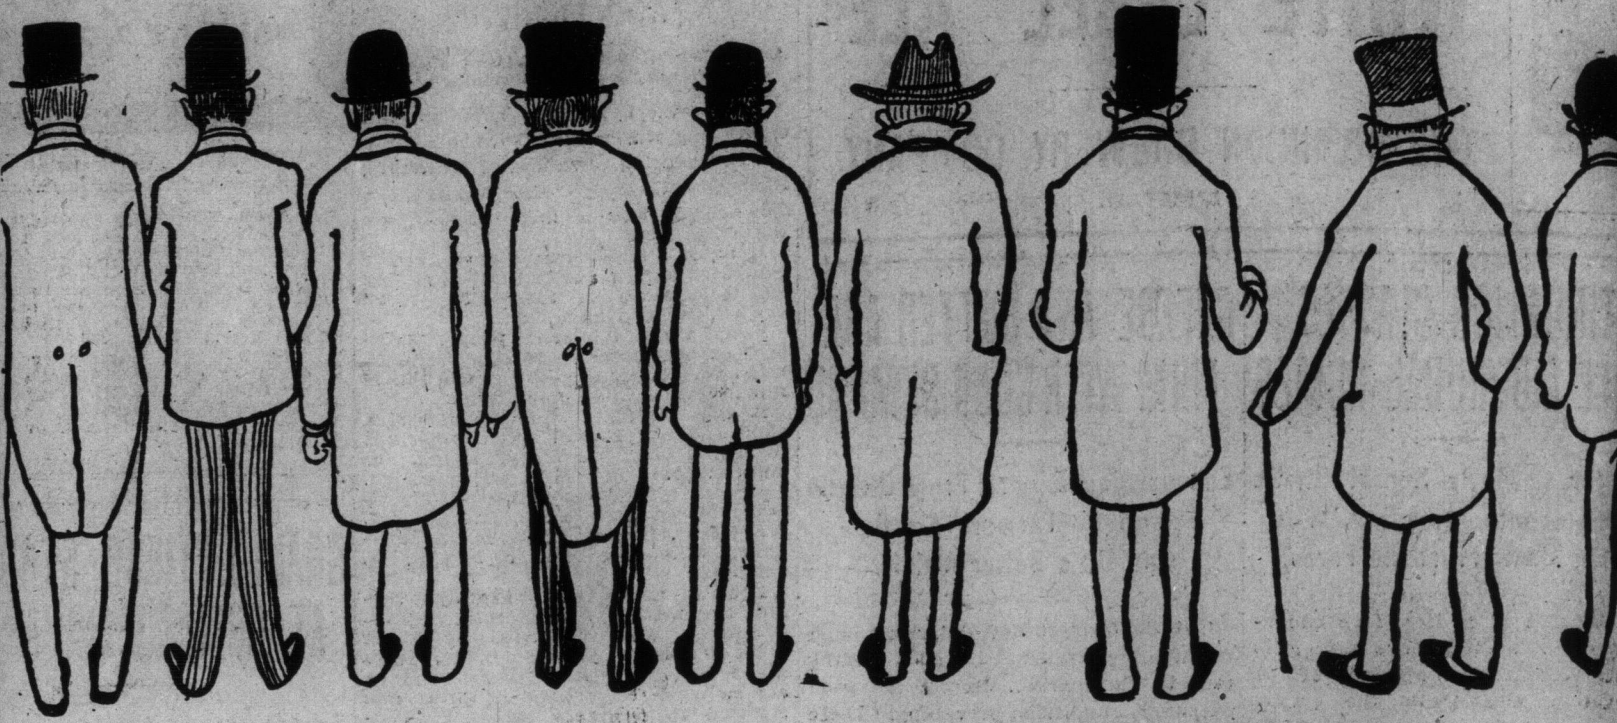

HANDKERCHIEFS, ETC.

Many a dainty handkerchief comes from the laundry all out of shape and folded crooked. To iron napkins, handkerchiefs, or any small squares so they will fold perfectly even, iron all around the outside first. Hold each side toward you on a straight line, stretching it firmly as you iron; iron centre last and you will find the edges folded together exactly even.

Peary Starts on Monday. NEW YORK, July 1.—Commander Robert E. Peary's steamer Roosevelt, in which the Arctic explorer will make his next trip in search of the north pole, will leave New York on Monday.

We're Going to Fix These Men Up on Friday.

Are These Clothes Ready to Wear?

—certainly they are not ready for these men to wear. Ready-to-wear clothes suit some men; others cannot, and more still will not wear them. It is to these men that we're talking to-day.

On the balcony at the east end of our Men's Store there is a large stock of the finest imported materials. Here our expert cutters can fashion you as fine a suit as is possible to have made in town—and they usually charge about \$30.00 for it. But we've decided that this fine new stock of imported suitings is too heavy to carry through the summer, so we proceed to reduce it in the following way:

On Friday and Saturday morning, July 3rd and 4th, we will be prepared to make you a perfect-fitting and distinctive suit of clothes, out of any cloth in the department that does not sell for more than **18.95** \$30.00 a suit in the regular way, for the sum of.....

That means that one of the best cutters in Toronto will be making you a suit of clothes for a price that you'd willingly pay for a good ready-to-wear suit—moreover, you'll have the privilege of choosing your material from one of the most select and newest stocks in the city. We will refund your money if you are not perfectly satisfied with the suit when it is finished. Choose your material early in the day.
