APPROVE AGREEMENT WITH THE CATARACT

Council Ignore Protest—Ward Foreman Nelligan Is Criticized But Emerges Unscathed.

HAMILTON, Aug. 9.—(Special.)—In spite of a letter from Martin Malone notifying him he would move to have the agreement set aside, the council this evening approved of an agreement with the Cataract Power Company for a temporary supply of fifty horse power to operate the main water works pump. Ald. Hopkins, Ellis and Wright opposed the agreement. They said a gas engine would do the work more economically. Although the agreement named five-eighths of a cent as the rate, the minimum supply charge of 15 cents per h.p. would bring the rate up to two cents an hour. Ald. Hopkins pointed out. Ald. Morris referred to the charges that one of the works department officials had taken material from the roads to fill up his vacant lots. He thought the matter ought to be investigated and the offender forced either to return the material or pay for it. Ald. Cooper thought the stuff had been sold to fill in some stagnant pools in ward 7. Ald. Nelligan said that the man against whom the charge was made was Ward Foreman Nelligan. He said the stuff taken was not fit to be used for road-making and an order had been made compelling the foreman to repair where they had dumped every load of such material. A motion that the foreman should be forced to pay for the material was not pressed. The bylaw to prevent the picking over the garbage dumps was referred back. Bylaws to raise \$50,000 for additions to schools and \$20,000 to complete the terminal school were passed.

The police said that they will not make any attempt to close up the Sunday ice cream establishments which, on the ground that ice cream may be sold as part of a meal, have taken out restaurant licenses and serve the cream with cake or pie.

The man who claimed to be Frank Ernie, and who said he was sandwiched and robbed, is Frank E. Gonic, Malone, N. Y., who had been in an insane asylum in Milwaukee.

Because Mrs. Marshall talked of her troubles, officers of the first Regiment stand say that they will not carry out their intention to have her husband, the missing member of their organization, blacklisted among union organizations, or give her any financial assistance.

The city has completed the purchase of a large park on the beach between stations 6 and 8.

ATTACKS COLLEGE PROFESSORS

W. R. Newell Warns Knox Church People Against Victoria College.

"I pray that a great company of saints may be raised up in Toronto who do not care what the professors say," was one of the utterances of W. R. Newell at Knox Church last night. The meeting was made a series of attacks on the Victoria College professors by Mr. Newell, and a newcomer to Toronto, J. R. Dean, who has accompanied him on a preaching tour in China. About 200 were present.

Mr. Newell, who on previous visits has featured his addresses by vigorous denunciations of theological professors of the higher science school, put the ban on Victoria Methodist College in his introductory remarks. He said that while Toronto was in many respects an advance of most cities on the continent, he trembled at the danger which now threatened the souls of the people owing to the attacks made on the truth. The truth was revealed in the word of God, and could only be spiritually discerned. It did not require the learning of Victoria College professors, and the learning of Victoria College professors would not enable them to reason out the truth. The truth, stated clearly in the bible, was that every being born into the world of the world was born into sin under the condemnation of the law, and could only be saved thru the atonement of Christ.

Mr. Dean gave an exposition of the first three chapters of the Epistle to the Romans.

CONDENNS MULOCK DEAL
Federated Council of Building Trades Adopts Resolution.

At a regular meeting of the Federated Council of the Building Trades, last night, the following resolution was adopted:

"That the council of the Federated Building Trades condemn the action of the Toronto City Council in sacrificing the best interests of the city by giving away large tracts of land to the National Iron Co., the land so disposed of being of supreme importance to the further development of this city, as it is the key to the situation of the Great Toronto scheme, and her importance as the commercial and industrial centre of this Dominion. We believe that such land should not on any account pass from civic control and should only be leased under condition that it will remain to the people control of their own waterfront."
